Important Notice from Aetna About Our Prescription Drug Coverage and Medicare

The Office of Personnel Management (OPM) has determined that Aetna Whole HealthSM prescription drug coverage is, on average, expected to pay out as much as the standard Medicare prescription drug coverage will pay for all plan participants and is considered Creditable Coverage. Thus you do not need to enroll in Medicare Part D and pay extra for prescription drug benefit coverage. If you decide to enroll in Medicare Part D later, you will not have to pay a penalty for late enrollment as long as you keep your FEHB coverage.

However, if you choose to enroll in Medicare Part D, you can keep your FEHB coverage and your FEHB plan will coordinate benefits with Medicare.

Remember: If you are an annuitant and you cancel your FEHB coverage, you may not re-enroll in the FEHB Program.

Please be advised

If you lose or drop your FEHB coverage and go 63 days or longer without prescription drug coverage that's at least as good as Medicare's prescription drug coverage, your monthly premium will go up at least 1% per month for every month that you did not have that coverage. For example, if you go 19 months without Medicare Part D prescription drug coverage, your premium will always be at least 19 percent higher than what many other people pay. You'll have to pay this higher premium as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the next Annual Coordinated Election Period (October 15th through December 7th) to enroll in Medicare Part D.

Medicare's Low Income Benefits

For people with limited income and resources, extra help paying for a Medicare prescription drug plan is available. Information regarding this program is available through the Social Security Administration (SSA) online at www.socialsecurity.gov, or call the SSA at 1-800-772-1213 (TTY 1-800-325-0778).

This brochure is the official statement of benefits. No oral statement can modify or otherwise affect the benefits, limitations, and exclusions of this brochure. It is your responsibility to be informed about your health benefits.

If you are enrolled in this Plan, you are entitled to the benefits described in this brochure. If you are enrolled in Self and Family coverage, each eligible family member is also entitled to these benefits. You do not have a right to benefits that were available before January 1, 2013, unless those benefits are also shown in this brochure.

OPM negotiates benefits and rates with each plan annually. Benefits are effective January 1, 2013, and changes are summarized on pages 180-185. Rates are shown at the end of this brochure.

**Health benefits and health insurance plans are offered, underwritten or administered by Aetna Life Insurance Company*

Plain Language

All FEHB brochures are written in plain language to make them easy to understand. Here are some examples:

- Except for necessary technical terms, we use common words. For instance, “you” means the enrollee or family member, “we” means Aetna.
- We limit acronyms to ones you know. FEHB is the Federal Employees Health Benefits Program. OPM is the United States Office of Personnel Management. If we use others, we tell you what they mean first.
- Our brochure and other FEHB plans’ brochures have the same format and similar descriptions to help you compare plans.

Stop Health Care Fraud!

Fraud increases the cost of health care for everyone and increases your Federal Employees Health Benefits Program premium.

OPM’s Office of the Inspector General investigates all allegations of fraud, waste, and abuse in the FEHB Program regardless of the agency that employs you or from which you retired.

Protect Yourself From Fraud – Here are some things that you can do to prevent fraud:

- Do not give your plan identification (ID) number over the telephone or to people you do not know, except for your health care providers, authorized health benefits plan or OPM representative.
- Let only the appropriate medical professionals review your medical record or recommend services.
- Avoid using health care providers who say that an item or service is not usually covered, but they know how to bill us to get it paid.
- Carefully review explanations of benefits (EOBs) that you receive from us.
- Periodically review your claims history for accuracy to ensure we have not been billed for services that you did not receive.
- Do not ask your doctor to make false entries on certificates, bills or records in order to get us to pay for an item or service.

- If you suspect that a provider has charged you for services you did not receive, billed you twice for the same service, or misrepresented any information, do the following:
 - Call the provider and ask for an explanation. There may be an error.
 - If the provider does not resolve the matter, call us at 1-888-238-6240 and explain the situation.
 - If we do not resolve the issue:

- Do not maintain as a family member on your policy:
 - Your former spouse after a divorce decree or annulment is final (even if a court order stipulates otherwise)
 - Your child age 26 or over (unless he/she was disabled and incapable of self-support prior to age 26)
- If you have any questions about the eligibility of a dependent, check with your personnel office if you are employed, with your retirement office (such as OPM) if you are retired, or with the National Finance Center if you are enrolled under Temporary Continuation of Coverage.
- Fraud or intentional misrepresentation of material fact is prohibited under the Plan. You can be prosecuted for fraud and your agency may take action against you. Examples of fraud include, falsifying a claim to obtain FEHB benefits, trying to or obtaining service or coverage for yourself or for someone else who is not eligible for coverage, or enrolling in the Plan when you are no longer eligible.
- If your enrollment continues after you are no longer eligible for coverage (i.e., you have separated from Federal service) and premiums are not paid, you will be responsible for all benefits paid during the period in which premiums were not paid. You may be billed by your provider for services received. You may be prosecuted for fraud for knowingly using health insurance benefits for which you have not paid premiums. It is your responsibility to know when you or a family member is no longer eligible to use your health insurance coverage.

Preventing Medical Mistakes

An influential report from the Institute of Medicine estimates that up to 98,000 Americans die every year from medical mistakes in hospitals alone. That's about 3,230 preventable deaths in the FEHB Program a year. While death is the most tragic outcome, medical mistakes cause other problems such as permanent disabilities, extended hospital stays, longer recoveries, and even additional treatments. By asking questions, learning more and understanding your risks, you can improve the safety of your own health care, and that of your family members. Take these simple steps:

1. Ask questions if you have doubts or concerns.

- Ask questions and make sure you understand the answers.
- Choose a doctor with whom you feel comfortable talking.
- Take a relative or friend with you to help you ask questions and understand answers.

2. Keep and bring a list of all the medicines you take.

- Bring the actual medicines or give your doctor and pharmacist a list of all the medicines and dosage that you take, including non-prescription (over-the-counter) medicines and nutritional supplements.
- Tell your doctor and pharmacist about any drug allergies you have.

- Ask about any risks or side effects of the medication and what to avoid while taking it. Be sure to write down what your doctor or pharmacist says.
- Make sure your medicine is what the doctor ordered. Ask the pharmacist about the medication if it looks different than you expected.
- Read the label and patient package insert when you get your medicine, including all warnings and instructions.
- Know how to use your medicine. Especially note the times and conditions when your medicine should and should not be taken.
- Contact your doctor or pharmacist if you have any questions.

3. Get the results of any test or procedure.

- Ask when and how you will get the results of tests or procedures.
- Don't assume the results are fine if you do not get them when expected, be it in person, by phone, or by mail.
- Call your doctor and ask for your results.
- Ask what the results mean for your care.

4. Talk to your doctor about which hospital is best for your health needs.

- Ask your doctor about which hospital has the best care and results for your condition if you have more than one hospital to choose from to get the health care you need.
- Be sure you understand the instructions you get about follow-up care when you leave the hospital.

5. Make sure you understand what will happen if you need surgery.

- Make sure you, your doctor, and your surgeon all agree on exactly what will be done during the operation.
- Ask your doctor, "Who will manage my care when I am in the hospital?"
- Ask your surgeon:
 - "Exactly what will you be doing?"
 - "About how long will it take?"
 - "What will happen after surgery?"
 - "How can I expect to feel during recovery?"
- Tell the surgeon, anesthesiologist, and nurses about any allergies, bad reaction to anesthesia, and any medications you are taking.

Never Events

You will not be billed for inpatient services related to treatment of specific hospital acquired conditions or for inpatient services needed to correct "Never Events", if you use Aetna preferred providers. This new policy helps to protect you from preventable medical errors and improve the quality of care you receive.

When you enter the hospital for treatment of one medical problem, you don't expect to leave with additional injuries, infections or other serious conditions that occur during the course of your stay. Although some of these complications may not be avoidable, too often patients suffer from injuries or illnesses that could have been prevented if the hospital had taken proper precautions.

We have a benefit payment policy that encourages hospitals to reduce the likelihood of hospital-acquired conditions such as certain infections, severe bedsores and fractures; and reduce medical errors that should never happen called "Never Events". When a Never Event occurs neither your FEHB plan nor you will incur costs to correct the medical error.

FEHB Facts

Coverage information

- **No pre-existing condition limitation**

We will not refuse to cover the treatment of a condition you had before you enrolled in this Plan solely because you had the condition before you enrolled.

- **Where you can get information about enrolling in the FEHB Program**

See www.opm.gov/insure/health for enrollment information as well as:

- Information on the FEHB Program and plans available to you
- A health plan comparison tool
- A list of agencies who participate in Employee Express
- A link to Employee Express
- Information on and links to other electronic enrollment systems

Also, your employing or retirement office can answer your questions, and give you a *Guide to Federal Benefits*, brochures for other plans, and other materials you need to make an informed decision about your FEHB coverage. These materials tell you:

- When you may change your enrollment
- How you can cover your family members
- What happens when you transfer to another Federal agency, go on leave without pay, enter military service, or retire
- What happens when your enrollment ends
- When the next open season for enrollment begins

We don't determine who is eligible for coverage and, in most cases, cannot change your enrollment status without information from your employing or retirement office. For information on your premium deductions, you must also contact your employing or retirement office.

- **Types of coverage available for you and your family**

Self Only coverage is for you alone. Self and Family coverage is for you, your spouse, and your dependent children under age 26, including any foster children your employing or retirement office authorizes coverage for. Under certain circumstances, you may also continue coverage for a disabled child 26 years of age or older who is incapable of self-support.

If you have a Self Only enrollment, you may change to a Self and Family enrollment if you marry, give birth, or add a child to your family. You may change your enrollment 31 days before to 60 days after that event. The Self and Family enrollment begins on the first day of the pay period in which the child is born or becomes an eligible family member. When you change to Self and Family because you marry, the change is effective on the first day of the pay period that begins after your employing office receives your enrollment form; benefits will not be available to your spouse until you marry.

Your employing or retirement office will **not** notify you when a family member is no longer eligible to receive benefits, nor will we. Please tell us immediately of changes in family member status including your marriage, divorce, annulment or when your child reaches age 26.

If you or one of your family members is enrolled in one FEHB plan, that person may not be enrolled in or covered as a family member by another FEHB plan.

If you have a qualifying life event (QLE) - such as marriage, divorce, or the birth of a child - outside of the Federal Benefits Open Season, you may be eligible to enroll in the FEHB Program, change your enrollment, or cancel coverage. For a complete list of QLEs, visit the FEHB website at www.opm.gov/insure/lifeevents. If you need assistance, please contact your employing agency, personnel/payroll office, or retirement office.

• **Family member coverage**

Family members covered under your Self and Family enrollment are your spouse (including a valid common law marriage) and children as described in the chart below.

Children	Coverage
Natural, adopted children, and stepchildren	Natural, adopted children and stepchildren are covered until their 26th birthday.
Foster Children	Foster children are eligible for coverage until their 26th birthday if you provide documentation of your regular and substantial support of the child and sign a certification stating that your foster child meets all the requirements. Contact your human resources office or retirement system for additional information.
Children Incapable of Self-Support	Children who are incapable of self-support because of a mental or physical disability that began before age 26 are eligible to continue coverage. Contact your human resources office or retirement system for additional information.
Married Children	Married children (but NOT their spouse or their own children) are covered until their 26th birthday.
Children with or eligible for employer-provided health insurance	Children who are eligible for or have their own employer-provided health insurance are covered until their 26th birthday.

• **Children’s Equity Act**

OPM has implemented the Federal Employees Health Benefits Children’s Equity Act of 2000. This law mandates that you be enrolled for Self and Family coverage in the FEHB Program, if you are an employee subject to a court or administrative order requiring you to provide health benefits for your child(ren).

If this law applies to you, you must enroll for Self and Family coverage in a health plan that provides full benefits in the area where your children live or provide documentation to your employing office that you have obtained other health benefits coverage for your children. If you do not do so, your employing office will enroll you involuntarily as follows:

- If you have no FEHB coverage, your employing office will enroll you for Self and Family coverage in the Blue Cross and Blue Shield Service Benefit Plan’s Basic Option;
- If you have a Self Only enrollment in a fee-for-service plan or in an HMO that serves the area where your children live, your employing office will change your enrollment to Self and Family in the same option of the same plan; or
- If you are enrolled in an HMO that does not serve the area where the children live, your employing office will change your enrollment to Self and Family in the Blue Cross and Blue Shield Service Benefit Plan’s Basic Option.

As long as the court/administrative order is in effect, and you have at least one child identified in the order who is still eligible under the FEHB Program, you cannot cancel your enrollment, change to Self Only, or change to a plan that doesn't serve the area in which your children live, unless you provide documentation that you have other coverage for the children. If the court/administrative order is still in effect when you retire, and you have at least one child still eligible for FEHB coverage, you must continue your FEHB coverage into retirement (if eligible) and cannot cancel your coverage, change to Self Only, or change to a plan that doesn't serve the area in which your children live as long as the court/administrative order is in effect. Contact your employing office for further information.

- **When benefits and premiums start**

The benefits in this brochure are effective January 1. If you joined this Plan during Open Season, your coverage begins on the first day of your first pay period that starts on or after January 1. **If you changed plans or plan options during Open Season and you receive care between January 1 and the effective date of coverage under your new plan or option, your claims will be paid according to the 2013 benefits of your old plan or option.** However, if your old plan left the FEHB Program at the end of the year, you are covered under that plan's 2012 benefits until the effective date of your coverage with your new plan. Annuitants' coverage and premiums begin on January 1. If you joined at any other time during the year, your employing office will tell you the effective date of coverage.

If your enrollment continues after you are no longer eligible for coverage (i.e. you have separated from Federal service) and premiums are not paid, you will be responsible for all benefits paid during the period in which premiums were not paid. You may be billed for services received directly from your provider. You may be prosecuted for fraud for knowingly using health insurance benefits for which you have not paid premiums. It is your responsibility to know when you or a family member are no longer eligible to use your health insurance coverage.

- **When you retire**

When you retire, you can usually stay in the FEHB Program. Generally, you must have been enrolled in the FEHB Program for the last five years of your Federal service. If you do not meet this requirement, you may be eligible for other forms of coverage, such as Temporary Continuation of Coverage (TCC).

When you lose benefits

- **When FEHB coverage ends**

You will receive an additional 31 days of coverage, for no additional premium, when:

- Your enrollment ends, unless you cancel your enrollment; or
- You are a family member no longer eligible for coverage.

Any person covered under the 31 day extension of coverage who is confined in a hospital or other institution for care or treatment on the 31st day of the temporary extension is entitled to continuation of the benefits of the Plan during the continuance of the confinement but not beyond the 60th day after the end of the 31 day temporary extension.

You may be eligible for spouse equity coverage or Temporary Continuation of Coverage (TCC), or a conversion policy (a non-FEHB individual policy).

- **Upon divorce**

If you are divorced from a Federal employee or annuitant, you may not continue to get benefits under your former spouse's enrollment. This is the case even when the court has ordered your former spouse to provide health coverage for you. However, you may be eligible for your own FEHB coverage under either the spouse equity law or Temporary Continuation of Coverage (TCC). If you are recently divorced or are anticipating a divorce, contact your ex-spouse's employing or retirement office to get RI 70-5, the *Guide to Federal Benefits for Temporary Continuation of Coverage and Former Spouse Enrollees*, or other information about your coverage choices. You can also download the guide from OPM's website, www.opm.gov/insure.

- **Temporary Continuation of Coverage (TCC)**

If you leave Federal service, or if you lose coverage because you no longer qualify as a family member, you may be eligible for Temporary Continuation of Coverage (TCC). For example, you can receive TCC if you are not able to continue your FEHB enrollment after you retire, if you lose your Federal job, if you are a covered dependent child and you turn 26, etc.

You may not elect TCC if you are fired from your Federal job due to gross misconduct.

Enrolling in TCC. Get the RI 79-27, which describes TCC, and the RI 70-5, the *Guide to Federal Benefits for Temporary Continuation of Coverage and Former Spouse Enrollees*, from your employing or retirement office or from www.opm.gov/insure. It explains what you have to do to enroll.

- **Converting to individual coverage**

You may convert to a non-FEHB individual policy if:

- Your coverage under TCC or the spouse equity law ends (If you canceled your coverage or did not pay your premium, you cannot convert);
- You decided not to receive coverage under TCC or the spouse equity law; or
- You are not eligible for coverage under TCC or the spouse equity law.

If you leave Federal service, your employing office will notify you of your right to convert. You must apply in writing to us within 31 days after you receive this notice. However, if you are a family member who is losing coverage, the employing or retirement office will **not** notify you. You must apply in writing to us within 31 days after you are no longer eligible for coverage.

Your benefits and rates will differ from those under the FEHB Program; however, you will not have to answer questions about your health, and we will not impose a waiting period or limit your coverage due to pre-existing conditions.

- **Getting a Certificate of Group Health Plan Coverage**

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is a Federal law that offers limited Federal protections for health coverage availability and continuity to people who lose employer group coverage. If you leave the FEHB Program, we will give you a Certificate of Group Health Plan Coverage that indicates how long you have been enrolled with us. You can use this certificate when getting health insurance or other health care coverage. Your new plan must reduce or eliminate waiting periods, limitations, or exclusions for health related conditions based on the information in the certificate, as long as you enroll within 63 days of losing coverage under this Plan. If you have been enrolled with us for less than 12 months, but were previously enrolled in other FEHB plans, you may also request a certificate from those plans.

For more information, get OPM pamphlet RI 79-27, *Temporary Continuation of Coverage (TCC) under the FEHB Program*. See also the FEHB Web site at www.opm.gov/insure/health; refer to the “TCC and HIPAA” frequently asked questions. These highlight HIPAA rules, such as the requirement that Federal employees must exhaust any TCC eligibility as one condition for guaranteed access to individual health coverage under HIPAA, and information about Federal and State agencies you can contact for more information.

Section 1. How this plan works

This Plan is an Accountable Care Organization (ACO). We strongly encourage you to see specific physicians, hospitals and other providers that are part of the ACO. These providers coordinate your health care services. We offer three ACOs: Aetna Whole Health Roanoke, Aetna Whole Health with the Aurora Accountable Care Network® and Aetna Whole Health with Memorial Hermann.

An ACO is a group of health care providers who work closely together to improve quality, increase patient satisfaction and lower costs. It is a team that combines the best of the health care system(s) with the best of Aetna - a health benefits and insurance company with technology and tools to help doctors do what they do best, care for you. Together we're working to make sure you get the right care, where and when you need it.

General features of our Plans

You are strongly encouraged to use providers within the ACO network. You can receive covered services from providers outside the ACO, however, you will have higher out-of-pocket costs.

Each ACO works differently:

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and Lewis Gale providers and all Aetna participating providers. Members may also visit Aetna Whole Health designated primary care physicians (PCP) at a preferred copay level. Out-of-network would be providers that do not participate with Aetna.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes **only** Aurora Accountable Care Network providers. Out-of-network would be providers that participate with Aetna but are not a part of the Aurora Accountable Care Network and providers who do not participate with Aetna.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes **only** Memorial Hermann providers. In-network participating includes providers that do participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

You can determine which providers are in the network by going to aetnafeds.com and clicking on DocFind, our provider directory or by calling us at 1-888-238-6240.

Preventive care services

Preventive care services are generally covered with no cost-sharing and are not subject to copayments, deductibles or annual limits when received from a network provider.

Annual Deductible

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic Network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Out-of-network would be providers that do not participate with Aetna.

The annual deductible for in-network services is \$300 for Self Only, \$600 for Self & Family. For out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes **only** Aurora Accountable Care Network providers. Out-of-network would be providers that participate with Aetna but are not a part of the Aurora Accountable Care Network and providers who do not participate with Aetna.

The annual deductible for in-network services is \$300 for Self Only, \$600 for Self & Family. For out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes **only** Memorial Hermann providers. In-network participating includes providers that participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

The annual deductible for in-network preferred services is \$300 for Self Only, \$600 for Self & Family. For in-network participating services and for out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

Catastrophic protection

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic Network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Out-of-network would be providers that do not participate with Aetna.

Your annual out of pocket maximum is \$3,000 for Self Only enrollment or \$6,000 for Self and Family enrollment for in-network services or \$5,000 for Self Only enrollment or \$10,000 for Self and Family enrollment for out-of-network services.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes **only** Aurora Accountable Care Network providers. Out-of-network would be providers that participate with Aetna but are not a part of the Aurora Accountable Care Network and providers who do not participate with Aetna.

Your annual out of pocket maximum is \$3,000 for Self Only enrollment or \$6,000 for Self and Family enrollment for in-network services or \$5,000 for Self Only enrollment or \$10,000 for Self and Family enrollment for out-of-network services.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes **only** Memorial Hermann providers. In-network participating includes providers that participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

Your annual out of pocket maximum is \$3,000 for Self Only enrollment or \$6,000 for Self and Family enrollment for in-network preferred services or \$5,000 for Self Only enrollment or \$10,000 for Self and Family enrollment for in-network participating services and for out-of-network services.

How we pay providers

We reimburse you or your provider for your covered services, usually based on a percentage of our Plan allowance. The type and extent of covered services, and the amount we allow, may be different from other plans. Read brochures carefully.

When you use our network ACO providers, you will receive covered services at reduced costs. Provider networks may be more extensive in some areas than others. We cannot guarantee the availability of every specialty in all areas.

Each ACO works differently:

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Members may also visit Aetna Whole Health designated primary care physicians (PCP) at a preferred copay level. Out-of-network would be providers that do not participate with Aetna.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes only Aurora Accountable Care Network providers. Out-of-network would be providers that contract with Aetna but are not a part of the Aurora Accountable Care Network providers and providers who do not participate with Aetna.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes only Memorial Hermann providers. In-network participating includes providers that participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

You can determine which providers are in the network by going to aetnafeds.com and clicking on DocFind, our provider directory or by calling us at 1-888-238-6240.

Your rights

OPM requires that all FEHB Plans provide certain information to their FEHB members. You may get information about us, our networks, providers, and facilities. OPM's FEHB Web site (www.opm.gov/insure) lists the specific types of information that we must make available to you. Some of the required information is listed below.

- Aetna has been in existence since 1850
- Aetna is a for-profit organization

If you want more information about us, call 1-888-238-6240 or write to Aetna at P.O. Box 550, Blue Bell, PA 19422-0550. You may also visit our website at www.aetnafeds.com.

Your medical and claims records are confidential

We will keep your medical and claims records confidential. Please note that we may disclose your medical and claims information (including your prescription drug utilization) to any of your treating physicians or dispensing pharmacies.

Medical Necessity

“Medical necessity” means that the service or supply is provided by a physician or other health care provider exercising prudent clinical judgment for the purpose of preventing, evaluating, diagnosing or treating an illness, injury or disease or its symptoms, and that provision of the service or supply is:

- In accordance with generally accepted standards of medical practice; and,
- Clinically appropriate in accordance with generally accepted standards of medical practice in terms of type, frequency, extent, site and duration, and considered effective for the illness, injury or disease; and,
- Not primarily for the convenience of you, or for the physician or other health care provider; and,
- Not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the illness, injury or disease.

For these purposes, “generally accepted standards of medical practice,” means standards that are based on credible scientific evidence published in peer-reviewed medical literature generally recognized by the relevant medical community, or otherwise consistent with physician specialty society recommendations and the views of physicians practicing in relevant clinical areas and any other relevant factors.

Only medical directors make decisions denying coverage for services for reasons of medical necessity. Coverage denial letters for such decisions delineate any unmet criteria, standards and guidelines, and inform the provider and member of the appeal process.

All benefits will be covered in accordance with the guidelines determined by Aetna.

Ongoing Reviews

We conduct ongoing reviews of those services and supplies which are recommended or provided by health professionals to determine whether such services and supplies are covered benefits under this Plan. If we determine that the recommended services and supplies are not covered benefits, you will be notified. If you wish to appeal such determination, you may then contact us to seek a review of the determination.

Authorization

Certain services and supplies under this Plan may require authorization by us to determine if they are covered benefits under this Plan.

Patient Management

We have developed a patient management program to assist in determining what health care services are covered and payable under the health plan and the extent of such coverage and payment. The program assists members in receiving appropriate health care and maximizing coverage for those health care services.

Where such use is appropriate, our utilization review/patient management staff uses nationally recognized guidelines and resources, such as Milliman Care Guidelines[®] and InterQual[®] ISD criteria, to guide the precertification, concurrent review and retrospective review processes. To the extent certain utilization review/patient management functions are delegated to integrated delivery systems, independent practice associations or other provider groups (“Delegates”), such Delegates utilize criteria that they deem appropriate.

- **Precertification**

Precertification is the process of collecting information prior to inpatient admissions and performance of selected ambulatory procedures and services. The process permits advance eligibility verification, determination of coverage, and communication with the physician and/or you. It also allows Aetna to coordinate your transition from the inpatient setting to the next level of care (discharge planning), or to register you for specialized programs like disease management, case management, or our prenatal program. In some instances, precertification is used to inform physicians, members and other health care providers about cost-effective programs and alternative therapies and treatments.

Certain health care services, such as hospitalization or outpatient surgery, require precertification with Aetna to ensure coverage for those services. When you are to obtain services requiring precertification through a participating provider, this provider should precertify those services prior to treatment.

Note: Since this Plan pays out-of-network benefits and you may self-refer for covered services, it is your responsibility to contact Aetna to precertify those services which require precertification. You must obtain precertification for certain types of care rendered by non-network providers to avoid a reduction in benefits paid for that care.

- **Concurrent Review**

The concurrent review process assesses the necessity for continued stay, level of care, and quality of care for members receiving inpatient services. All inpatient services extending beyond the initial certification period will require Concurrent Review.

- **Discharge Planning**

Discharge planning may be initiated at any stage of the patient management process and begins immediately upon identification of post-discharge needs during precertification or concurrent review. The discharge plan may include initiation of a variety of services/benefits to be utilized by you upon discharge from an inpatient stay.

- **Retrospective Record Review**

The purpose of retrospective record review is to retrospectively analyze potential quality and utilization issues, initiate appropriate follow-up action based on quality or utilization issues, and review all appeals of inpatient concurrent review decisions for coverage and payment of health care services. Our effort to manage the services provided to you includes the retrospective review of claims submitted for payment, and of medical records submitted for potential quality and utilization concerns.

Member Services

Representatives from Member Services are trained to answer your questions and to assist you in using the Aetna plan properly and efficiently. After you receive your ID card, you can call the Member Services toll-free number on the card when you need to:

- Ask questions about benefits and coverage.
- Notify us of changes in your name, address or telephone number.
- Obtain information about how to file a grievance or an appeal.

Privacy Notice

Aetna considers personal information to be confidential and has policies and procedures in place to protect it against unlawful use and disclosure. By “personal information,” we mean information that relates to your physical or mental health or condition, the provision of health care to you, or payment for the provision of health care to you. Personal information does not include publicly available information or information that is available or reported in a summarized or aggregate fashion but does not identify you.

When necessary or appropriate for your care or treatment, the operation of our health plans, or other related activities, we use personal information internally, share it with our affiliates, and disclose it to health care providers (doctors, dentists, pharmacies, hospitals and other caregivers), payors (health care provider organizations, employers who sponsor self-funded health plans or who share responsibility for the payment of benefits, and others who may be financially responsible for payment for the services or benefits you receive under your plan), other insurers, third party administrators, vendors, consultants, government authorities, and their respective agents. These parties are required to keep personal information confidential as provided by applicable law. Participating network providers are also required to give you access to your medical records within a reasonable amount of time after you make a request.

Some of the ways in which personal information is used include claims payment; utilization review and management; medical necessity reviews; coordination of care and benefits; preventive health, early detection, and disease and case management; quality assessment and improvement activities; auditing and anti-fraud activities; performance measurement and outcomes assessment; health claims analysis and reporting; health services research; data and information systems management; compliance with legal and regulatory requirements; formulary management; litigation proceedings; transfer of policies or contracts to and from other insurers, HMOs and third party administrators; underwriting activities; and due diligence activities in connection with the purchase or sale of some or all of our business. We consider these activities key for the operation of our health plans. To the extent permitted by law, we use and disclose personal information as provided above without your consent. However, we recognize that you may not want to receive unsolicited marketing materials unrelated to your health benefits. We do not disclose personal information for these marketing purposes unless you consent. We also have policies addressing circumstances in which you are unable to give consent.

To obtain a hard copy of our Notice of Privacy Practices, which describes in greater detail our practices concerning use and disclosure of personal information, please write to Aetna’s Legal Support Services Department at 151 Farmington Avenue, W121, Hartford, CT 06156. You can also visit our Internet site at www.aetnafeds.com. You can link directly to the Notice of Privacy Practices by selecting the “Privacy Notices” link at the bottom of the page.

Protecting the privacy of member health information is a top priority at Aetna. When contacting us about this FEHB Program brochure or for help with other questions, please be prepared to provide you or your family member’s name, member ID (or Social Security Number), and date of birth.

If you want more information about us, call 1-888-238-6240, or write to Aetna, Federal Plans, PO Box 550, Blue Bell, PA 19422-0550. You may also contact us by fax at 215-775-5246 or visit our Web site at www.aetnafeds.com.

Service Area

To enroll in this Plan, you must live in or work in our Service Area. This is where our network providers practice. Our Service Areas are:

Texas, Houston Area, Enrollment Code ES - Counties of - Fort Bend, Harris and Montgomery.

Virginia, Roanoke Area, Enrollment Code D9 - Cities of - Bedford, Lexington, Martinsville, Radford, Roanoke and Salem. **Counties of** - Bedford, Bland, Botetourt, Carroll, Craig, Floyd, Franklin, Giles, Henry, Montgomery, Pulaski, Roanoke, Tazewell, and Wythe.

Wisconsin, Milwaukee Area, Enrollment Code F7 - Cities of - Green Lake, Jefferson, Marquette and Shawano. **Counties of** - Brown, Calumet, Dodge, Door, Fond Du Lac, Kenosha, Kewaunee, Manitowoc, Marinette, Milwaukee, Oconto, Outagamie, Ozaukee, Racine, Rock, Sheboygan, Walworth, Washington, Waukesha, Waushara and Winnebago.

If you or a covered family member move or live outside of our service areas, you can continue to access out-of-network care or you can enroll in another plan. If you or a covered family member move, you do not have to wait until Open Season to change plans. Contact your employing or retirement office.

Section 2. Changes for 2013

We are a new plan

This Plan is new to the FEHB Program. We are being offered for the first time during the 2013 Open Season.

Section 3. How you get care

Identification cards

We will send you an identification (ID) card when you enroll. If you enroll as Self and Family, you will receive two Family ID cards. You should carry your ID card with you at all times. You must show it whenever you receive services from a Network provider or fill a prescription at a Network pharmacy. Until you receive your ID card, use your copy of the Health Benefits Election Form, SF-2809, your health benefits enrollment confirmation letter (for annuitants), or your electronic enrollment system (such as Employee Express) confirmation letter.

If you do not receive your ID card within 30 days after the effective date of your enrollment, or if you need replacement cards, call us at 1-888-238-6240 or write to us at Aetna, P.O. Box 14079, Lexington, KY 40512-4079. You may also request replacement cards through our Navigator Web site at www.aetnafeds.com.

Where you get covered care

You can get care from providers and facilities that are part of the ACO or any other licensed provider or licensed facility. However, how much we pay – and you pay – depends on whether you use providers within the ACO. If you use providers outside of the ACO you will pay more.

Each ACO works differently:

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic Network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Members may also visit Aetna Whole Health designated primary care physicians (PCP) at a preferred copay level. Out-of-network would be providers that do not participate with Aetna.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes **only** Aurora Accountable Care Network providers. Out-of-network would be providers that participate with Aetna but are not a part of the Aurora Accountable Care Network and providers who do not participate with Aetna.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes **only** Memorial Hermann providers. In-network participating includes providers that participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

You can determine which providers are in the ACO by going to aetnafeds.com and clicking on DocFind, our provider directory or by calling us at 1-888-238-6240.

What you must do to get covered care

It depends on the kind of care you want to receive. You can go to any provider you want, but we must approve some care in advance.

• **Transitional care**

Specialty care: If you have a chronic or disabling condition and lose access to your network specialist because we:

- Terminate our contract with your specialist for other than cause; or
- Drop out of the Federal Employees Health Benefits (FEHB) Program and you enroll in another FEHB Program Plan; or
- Reduce our service area and you enroll in another FEHB plan,

you may be able to continue seeing your specialist and receive any in-network benefits for up to 90 days after you receive notice of the change. Contact us, or, if we drop out of the Program, contact your new plan.

If you are in the second or third trimester of pregnancy and you lose access to your specialist based on the above circumstances, you can continue to see your specialist and any in-network benefits continue until the end of your postpartum care, even if it is beyond the 90 days.

- **Hospital care**

Your Network primary care physician or specialist will make necessary hospital arrangements and supervise your care. This includes admission to a skilled nursing or other type of facility.

Note: Non-network physicians generally will make these arrangements too, but you are responsible for any recertification requirements.

- **If you are hospitalized when your enrollment begins**

We pay for covered services from the effective date of your enrollment. However, if you are in the hospital when your enrollment in our Plan begins, call our Member Services department immediately at 1-888-238-6240. If you are new to the FEHB Program, we will arrange for you to receive care and provide benefits for your covered services while you are in the hospital beginning on the effective date of your coverage.

If you changed from another FEHB plan to us, your former plan will pay for the hospital stay until:

- you are discharged, not merely moved to an alternative care center
- the day your benefits from your former plan run out; or
- the 92nd day after you become a member of this Plan, whichever happens first.

These provisions apply only to the benefits of the hospitalized person. If your plan terminates participation in the FEHB Program in whole or in part, or if OPM orders an enrollment change, this continuation of coverage provision does not apply. In such case, the hospitalized family member's benefits under the new plan begin on the effective date of enrollment.

You need prior Plan approval for certain services

Since your plan physician arranges most referrals to specialists and inpatient hospitalization, the pre-service claim approval process only applies to care shown under *Other services*.

- **Inpatient hospital admission**

Precertification is the process by which – prior to your inpatient hospital admission – we evaluate the medical necessity of your proposed stay and the number of days required to treat your condition.

- **Other services**

In most cases, your Network physician or hospital will take care of precertification. Because you are still responsible for ensuring that we are asked to precertify your care, you should always ask your physician or hospital whether they have contacted us.

Some services require prior approval from us. Before giving approval, we consider if the service is covered, medically necessary, and follows generally accepted medical practice. We call this review and approval process precertification.

When you see a Plan physician, that physician must obtain approval for certain services such as inpatient hospitalization and the following services. If you see a non-participating physician you must obtain approval.

- Certain non-emergent surgery, including but not limited to obesity surgery, lumbar disc and spinal fusion surgery, reconstructive procedures and correction of congenital defects, sleep apnea surgery, TMJ surgery, penile implants, and joint grafting procedures;
- Covered transplant surgery;

- Air ambulance and non-emergent ambulance transportation service;
- All home health care services including home IV and antibiotic therapy;
- Skilled nursing facilities, rehabilitation facilities, and inpatient hospice; and when full-time skilled nursing care is necessary in an extended care facility;
- Certain mental health services, including residential treatment centers, partial hospitalization programs, intensive outpatient treatment programs including detoxification and electroconvulsive therapy, psychological and neuropsychological testing, biofeedback, amytal interview, and hypnosis;
- Certain injectable drugs before they can be prescribed including but not limited to botulinum toxin, alpha-1-proteinase inhibitor, palivizumab(Synagis), erythropoietin therapy, intravenous immunoglobulin, growth hormone, blood clotting factors and interferons when used for hepatitis C;
- Certain outpatient imaging studies such as CT scans, MRIs, MRAs, nuclear stress tests, and GI tract imaging through capsule endoscopy;
- Stereotactic radiosurgery;
- Somatosensory evoked potential studies;
- Cognitive skills development;
- Certain wound care such as hyperbaric oxygen therapy;
- Lower limb and torso prosthetics;
- Cochlear device and/or implantation;
- Percutaneous implant of nerve stimulator;
- High frequency chest wall oscillation generator system;
- BRCA genetic testing;
- In-network infertility services.

You or your physician must obtain an approval for certain durable medical equipment (DME) including but not limited to electric or motorized wheelchairs, electric scooters, electric beds, and customized braces.

Members must call Member Services at 1-888-238-6240 for authorization.

How to request precertification for an admission or get prior authorization for Other services

First, your physician, your hospital, you, or your representative, must call us at 1-888-238-6240 before admission or services requiring prior authorization are rendered.

Next, provide the following information:

- enrollee's name and Plan identification number;
- patient's name, birth date, identification number and phone number;
- reason for hospitalization, proposed treatment, or surgery;
- name and phone number of admitting physician;
- name of hospital or facility; and
- number of planned days of confinement.

If the admission is a non-urgent admission or if you are being admitted to a Non-network hospital, you must get the days certified by calling the number shown on your ID card. This must be done at least 14 days before the date the person is scheduled to be confined as a full-time inpatient. If the admission is an emergency or an urgent admission, you, the person's physician, or the hospital must get the days certified by calling the number shown on your ID card. This must be done:

- Before the start of a confinement as a full-time inpatient which requires an urgent admission; or

- Not later than 48 hours following the start of a confinement as a full-time inpatient which requires an emergency admission; unless it is not possible for the physician to request certification within that time. In that case, it must be done as soon as reasonably possible. In the event the confinement starts on a Friday or Saturday, the 48 hour requirement will be extended to 72 hours.

If, in the opinion of the person's physician, it is necessary for the person to be confined for a longer time than already certified, you, the physician, or the hospital may request that more days be certified by calling the number shown on your ID card. This must be done no later than on the last day that has already been certified.

Written notice of the number of days certified will be sent promptly to the hospital. A copy will be sent to you and to the physician.

- **Non-urgent care claims**

For non-urgent care claims, we will then tell the physician and/or hospital the number of approved inpatient days, or the care that we approve for other services that must have prior authorization. We will make our decision within 15 days of receipt of the pre-service claim. If matters beyond our control require an extension of time, we may take up to an additional 15 days for review and we will notify you of the need for an extension of time before the end of the original 15 day period. Our notice will include the circumstances underlying the request for the extension and the date when a decision is expected.

If we need an extension because we have not received necessary information from you, our notice will describe the specific information required and we will allow you up to 60 days from the receipt of the notice to provide the information.

- **Urgent care claims**

If you have an urgent care claim (i.e., when waiting for the regular time limit for your medical care or treatment could seriously jeopardize your life, health, or ability to regain maximum function, or in the opinion of a physician with knowledge of your medical condition, would subject you to severe pain that cannot be adequately managed without this care or treatment), we will expedite our review and notify you of our decision within 72 hours. If you request that we review your claim as an urgent care claim, we will review the documentation you provide and decide whether it is an urgent care claim by applying the judgment of a prudent layperson who possesses an average knowledge of health and medicine.

If you fail to provide sufficient information, we will contact you verbally within 24 hours after we receive the claim to provide notice of the specific information we need to complete our review of the claim. We will allow you up to 48 hours from the receipt of this notice to provide the necessary information. We will make our decision on the claim within 48 hours of (1) the time we received the additional information or (2) the end of the time frame, whichever is earlier.

We may provide our decision orally within these time frames, but we will follow up with written or electronic notification within three days of oral notification.

You may request that your urgent care claim on appeal be reviewed simultaneously by us and OPM. Please let us know that you would like a simultaneous review of your urgent care claim by OPM either in writing at the time you appeal our initial decision, or by calling us at 1-888-238-6240. You may also call OPM's Health Insurance 3 at (202) 606-0737 between 8 a.m. and 5 p.m. eastern time to ask for the simultaneous review. We will cooperate with OPM so they can quickly review your claim on appeal. In addition, if you did not indicate that your claim was a claim for urgent care, then call us at 1-888-238-6240. If it is determined that your claim is an urgent care claim, we will hasten our review (if we have not yet responded to your claim).

- **Emergency inpatient admission** If you have an emergency admission due to a condition that you reasonably believe puts your life in danger or could cause serious damage to bodily function, you, your representative, the physician, or the hospital must telephone us within two business days following the day of the emergency admission, even if you have been discharged from the hospital.
- **Maternity care** You do not need to precertify a maternity admission for a routine delivery. However, if your medical condition requires you to stay more than 48 hours after a vaginal delivery or 96 hours after a cesarean section, then your physician or the hospital must contact us for precertification of additional days. Further, if your baby stays after you are discharged, then your physician or the hospital must contact us for precertification of additional days for your baby.
- **If your treatment needs to be extended** If you request an extension of an ongoing course of treatment at least 24 hours prior to the expiration of the approved time period and this is also an urgent care claim, then we will make a decision within 24 hours after we receive the claim.
- **What happens when you do not follow the precertification rules when using non-network facilities**
 - If no one contacts us, we will decide whether the hospital stay was medically necessary.
 - If we determine that the stay was medically necessary, we will pay the inpatient charges, less the \$500 penalty.
 - If we determine that it was not medically necessary for you to be an inpatient, we will not pay inpatient hospital benefits. We will only pay for any covered medical supplies and services that are otherwise payable on an outpatient basis.
 - If we denied the precertification request, we will not pay inpatient hospital benefits. We will only pay for any covered medical supplies and services that are otherwise payable on an outpatient basis.
 - When we precertified the admission but you remained in the hospital beyond the number of days we approved and did not get the additional days precertified, then:
 - for the part of the admission that was medically necessary, we will pay inpatient benefits, but
 - for the part of the admission that was not precertified or not medically necessary, we will pay only medical services and supplies otherwise payable on an outpatient basis and will not pay inpatient benefits.

Circumstances beyond our control

Under certain extraordinary circumstances, such as natural disasters, we may have to delay your services or we may be unable to provide them. In that case, we will make all reasonable efforts to provide you with the necessary care.

If you disagree with our pre-service claim decision

If you have a **pre-service claim** and you do not agree with our decision regarding precertification of an inpatient admission or prior approval of other services, you may request a review in accord with the procedures detailed below.

If you have already received the service, supply, or treatment, then you have a **post-service claim** and must follow the entire disputed claims process detailed in Section 8.

- **To reconsider a non-urgent care claim**

Within 6 months of our initial decision, you may ask us in writing to reconsider our initial decision. Follow Step 1 of the disputed claims process detailed in Section 8 of this brochure.

In the case of a pre-service claim and subject to a request for additional information, we have 30 days from the date we receive your written request for reconsideration to

1. Precertify your hospital stay, or, if applicable, arrange for the health care provider to give you the care or grant your request for prior approval for a service, drug, or supply; or
2. Ask you or your provider for more information.

You or your provider must send the information so that we receive it within 60 days of our request. We will then decide within 30 more days.

If we do not receive the information within 60 days we will decide within 30 days of the date the information was due. We will base our decision on the information we already have. We will write to you with our decision.

3. Write to you and maintain our denial.

- **To reconsider an urgent care claim**

In the case of an appeal of a pre-service urgent care claim, within 6 months of our initial decision, you may ask us in writing to reconsider our initial decision. Follow Step 1 of the disputed claims process detailed in Section 8 of this brochure.

Subject to a request for additional information, we will notify you of our decision within 72 hours after receipt of your reconsideration request. We will hasten the review process, which allows oral or written requests for appeals and the exchange of information by telephone, electronic mail, facsimile, or other expeditious methods.

- **To file an appeal with OPM**

After we reconsider your **pre-service claim**, if you do not agree with our decision, you may ask OPM to review it by following Step 3 of the disputed claims process detailed in Section 8 of this brochure.

Section 4. Your cost for covered services

This is what you will pay out-of-pocket for covered care.

Cost-sharing Cost-sharing is the general term used to refer to your out-of-pocket costs (e.g., deductible, coinsurance, and copayments) for the covered care you receive.

Copayments A copay is the fixed amount of money you pay to the provider or pharmacy when you receive certain services.

Example: You pay \$5 to the pharmacy when you receive generic drugs on our formulary list.

Deductible A deductible is a fixed amount of covered expenses you must incur for certain covered services and supplies before we start paying benefits for them. You must satisfy your deductible before your Traditional medical coverage begins.

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic Network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Out-of-network would be providers that do not participate with Aetna.

The annual deductible for in-network services is \$300 for Self Only, \$600 for Self & Family. For out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes **only** Aurora Accountable Care Network providers. Out-of-network would be providers that participate with Aetna but are not a part of the Aurora Accountable Care Network and providers who do not participate with Aetna.

The annual deductible for in-network services is \$300 for Self Only, \$600 for Self & Family. For out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes **only** Memorial Hermann providers. In-network participating includes providers that participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

The annual deductible for in-network preferred services is \$300 for Self Only, \$600 for Self & Family. For in-network participating services and for out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

The Self and Family deductible can be satisfied by one or more members. The full Family deductible must be met for the plan of benefits to apply. There is no individual limit within the Family deductible.

Note: If you change plans during Open Season, you do not have to start a new deductible under your old plan between January 1 and the effective date of your new plan. If you change plans at another time during the year, you must begin a new deductible under your new plan.

If you change options in this Plan during the year, we will credit the amount of covered expenses already applied toward the deductible of your old option to the deductible of your new option.

Coinsurance

Coinsurance is the percentage of our allowance that you must pay for your care. Coinsurance does not begin until you have met your calendar year deductible.

Example: You pay 15% of our Plan allowance for in-network durable medical equipment.

Differences between our Plan allowance and the bill

Network Providers agree to accept our Plan allowance so if you use a network provider, you never have to worry about paying the difference between our Plan allowance and the billed amount for covered services.

Non-Network Providers: If you use a non-network provider, you will have to pay the difference between our Plan allowance and the billed amount.

Your catastrophic protection out-of-pocket maximum

Out-of-pocket maximums are the amount of out-of-pocket expenses that a Self Only or a Self and Family will have to pay in a plan year. Out-of-pocket maximums apply on a calendar year basis only.

Only your deductible and those out-of-pocket expenses resulting from the application of coinsurance percentage (except any penalty amounts) may be used to satisfy the out-of-pocket maximums. This includes dollars you have paid toward your deductible and coinsurance.

Note: Once you have met your deductible, and satisfied your out-of-pocket maximums, eligible medical expenses will be covered at 100%.

If you have met your deductible the following would apply:

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic Network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Out-of-network would be providers that do not participate with Aetna.

Your annual out of pocket maximum is \$3,000 for Self Only enrollment or \$6,000 for Self and Family enrollment for in-network services or \$5,000 for Self Only enrollment or \$10,000 for Self and Family enrollment for out-of-network services.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes **only** Aurora Accountable Care Network providers. Out-of-network would be providers that participate with Aetna but are not a part of the Aurora Accountable Care Network and providers who do not participate with Aetna.

Your annual out of pocket maximum is \$3,000 for Self Only enrollment or \$6,000 for Self and Family enrollment for in-network services or \$5,000 for Self Only enrollment or \$10,000 for Self and Family enrollment for out-of-network services.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes **only** Memorial Hermann providers. In-network participating includes providers that participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

Your annual out of pocket maximum is \$3,000 for Self Only enrollment or \$6,000 for Self and Family enrollment for in-network preferred services or \$5,000 for Self Only enrollment or \$10,000 for Self and Family enrollment for in-network participating services and for out-of-network services.

Carryover

If you changed to this Plan during Open Season from a plan with a catastrophic protection benefit and the effective date of the change was after January 1, any expenses that would have applied to that plan's catastrophic protection benefit during the prior year will be covered by your old plan if they are for care you received in January before your effective date of coverage in this Plan. If you have already met your old plan's catastrophic protection benefit level in full, it will continue to apply until the effective date of your coverage in this Plan. If you have not met this expense level in full, your old plan will first apply your covered out-of-pocket expenses until the prior year's catastrophic level is reached and then apply the catastrophic protection benefit to covered out-of-pocket expenses incurred from that point until the effective date of your coverage in this Plan. Your old plan will pay these covered expenses according to this year's benefits; benefit changes are effective January 1.

Note: If you change options in this Plan during the year, we will credit the amount of covered expenses already accumulated toward the catastrophic out-of-pocket limit of your old option to the catastrophic protection limit of your new option.

When Government facilities bill us

Facilities of the Department of Veterans Affairs, the Department of Defense and the Indian Health Services are entitled to seek reimbursement from us for certain services and supplies they provide to you or a family member. They may not seek more than their governing laws allow. You may be responsible to pay for certain services and charges. Contact the government facility directly for more information.

Section 5. Aetna Whole Health Carilion/LewisGale Plan Benefits Overview

This Plan offers an Accountable Care Organization Plan (ACO). The benefit package is described here in this Section. Make sure that you review the benefits that are available under the benefit product in which you are enrolled.

Section 5, which describes the benefits, is divided into subsections. Please read *Important things you should keep in mind* at the beginning of each subsection. Also, read the General Exclusions in Section 6; they apply to the benefits in the following subsections. To obtain claim forms, claims filing advice, or more information about your benefits, contact us at 1-888-238-6240 or at our Web site at www.aetnafeds.com.

The Aetna Whole Health Carilion/LewisGale ACO plan offers these unique features: Two levels of benefits: In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Members may also visit Aetna Whole Health designated primary care physicians (PCP) at a preferred copay level. Out-of-network would be providers that do not contract with Aetna.

- **In-Network Medical Preventive Care**

This component covers 100% for preventive care for adults and children if you use a network provider. The covered medical services include office visits/exams, immunizations and screenings. These services are fully described in Section 5. The services are based on recommendations by the American Medical Association and the American Academy of Pediatrics. You do not have to meet the deductible before using these services.
- **Aetna Whole Health Designated Network Provider**

Aetna Whole Health Designated Network Providers are primary care doctors who have been recognized or are in the process of being recognized by the NCQA for meeting stringent efficiency and quality measures. Operating under NCQA guidelines, these doctors received recognition as a Patient-Centered Medical Home (PCMH)TM provider. You will pay a \$5 copay when you visit these providers.

PCMH is a team-based approach to medical care, coordinated by a personal physician. It coordinates a patient's health care needs, including preventive services, acute and chronic illness treatment, and end-of-life management.

This coveted recognition validates these doctors' high performance in these areas:

 - Care coordination
 - Quality
 - Safety
 - Access to care

By adhering to these measures, Designated Network Providers reinforce to their patients their commitment to care excellence. They have developed innovative approaches to delivering care that will help improve the overall health of our members:

 - Through personalized care and patient engagement.
 - By working together to share member health information as patients pass through different health care settings.
- **Health education resources and account management tools**

Connect to www.aetnafeds.com for access to Aetna Navigator, a secure and personalized member site offering you a single source for health and benefits information. Use it to:

 - Perform self-service functions, like checking your status of a claim.
 - Gather health-related information from our award-winning Aetna IntelliHealth[®] Website, one of the most comprehensive health sites available today.

Aetna Navigator gives you direct access to:

- Personal Health Record that provides you with online access to your personal health information including health care providers, drug prescriptions, medical tests, individual personalized messages, alerts, and a detailed health history that can be shared with your physicians.
- Cost of Care tools that compare in-network and out-of-network provider fees, the cost of brand-name drugs vs. their generic equivalents, and the costs for services such as routine physicals, emergency room visits, lab tests, X-rays, MRIs, etc.
- Member Payment Estimator that provides real-time, out-of-pocket estimates for medical expenses based on your Aetna health plan. You can compare the cost of doctors and facilities before you make an appointment, helping you budget for and manage health care expenses.
- A hospital comparison tool that allows you to see how hospitals in your area rank on measures important to your care.
- Our DocFind[®] online provider directory.
- Online customer service that allows you to request member ID cards, send secure messages to Member Services, and more.
- Healthwise[®] Knowledgebase where you get information on thousands of health-related topics to help you make better decisions about your health care and treatment options.

Section 5. Medical Preventive Care

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Preventive care is health care services designed for prevention and early detection of illness in average risk, people without symptoms, generally including routine physical examinations, tests and immunizations. We follow the U.S. Preventive Services Task Force recommendations for preventive care unless noted otherwise. For more information visit www.aetnafeds.com.
- The Plan pays 100% for the medical preventive care services listed in this Section as long as you use a network provider.
- If you choose to access preventive care with an out-of-network provider, you will not qualify for 100% preventive care coverage. Please see Section 5.
- **Note: In-network includes Carilion and LewisGale providers and all Aetna participating providers.**

Section 5(b). Surgical and anesthesia services provided by physicians and other health care professionals

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Your deductible In-network is \$300 for Self Only enrollment and \$600 for Self and Family enrollment or Out-of-network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to all benefits in this Section.
- **Note: In-network includes Carilion and LewisGale providers and all Aetna participating providers.**
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.
- After you have satisfied your deductible, your Traditional Medical Plan begins.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- The amounts listed below are for the charges billed by a physician or other health care professional for your surgical care. Look in Section 5(c) for charges associated with the facility (i.e., hospital, surgical center, etc.).
- **YOU OR YOUR PHYSICIAN MUST GET PRECERTIFICATION FOR SOME SURGICAL PROCEDURES.** Please refer to the precertification information shown in Section 3 to be sure which services require precertification and identify which surgeries require precertification.

Section 5(d). Emergency services/accidents

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Your deductible In-network is \$300 for Self Only enrollment and \$600 for Self and Family enrollment or Out-of-network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to all benefits in this Section.
- **Note: In-network includes Carilion and LewisGale providers and all Aetna participating providers.**
- After you have satisfied your deductible, your Traditional Medical Plan begins.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.

What is a medical emergency?

A medical emergency is the sudden and unexpected onset of a condition or an injury that you believe endangers your life or could result in serious injury or disability, and requires immediate medical or surgical care. Some problems are emergencies because, if not treated promptly, they might become more serious; examples include deep cuts and broken bones. Others are emergencies because they are potentially life-threatening, such as heart attacks, strokes, poisonings, gunshot wounds, or sudden inability to breathe. There are many other acute conditions that we may determine are medical emergencies – what they all have in common is the need for quick action.

What to do in case of emergency: If you need emergency care, you are covered 24 hours a day, 7 days a week, anywhere in the world. An emergency medical condition is one manifesting itself by acute symptoms of sufficient severity such that a prudent layperson, who possesses average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the person's health, or with respect to a pregnant woman, the health of the woman and her unborn child. If you are admitted to an inpatient facility, you or a family member or friend on your behalf should notify Aetna as soon as possible.

Section 5(e). Mental health and substance abuse benefits

You need to get Plan approval (preauthorization) for certain services and follow a treatment plan we approve in order to get benefits. When you receive services as part of an approved treatment plan, cost-sharing and limitations for Plan mental health and substance abuse benefits are no greater than for similar benefits for other illnesses and conditions.

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- After you have satisfied your deductible, your Traditional Medical Plan begins.
- Your deductible In-network is \$300 for Self Only enrollment and \$600 for Self and Family enrollment or Out-of-network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to most benefits in this Section. We added "(No Deductible)" when deductible does not apply.
- **Note: In-network includes Carilion and LewisGale providers and all Aetna participating providers.**
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- **YOU MUST GET PREAUTHORIZATION FOR THESE SERVICES.** Benefits are payable only when we determine the care is clinically appropriate to treat your condition and only when you receive the care as part of a treatment plan that we approve. The treatment plan may include services, drugs, and supplies described elsewhere in this brochure. To be eligible to receive full benefits, you must follow the preauthorization process and get Plan approval of your treatment plan. Preauthorization is required for the following:
 - Any intensive outpatient care (minimum of 2 hours per day or six hours per week - can include group, individual, family or multi-family group psychotherapy, etc.)
 - Outpatient detoxification
 - Partial hospitalization
 - Any inpatient or residential care
 - Psychological or neuropsychological testing
 - Outpatient electroconvulsive therapy
 - Biofeedback, amytal interview, and hypnosis
 - Psychiatric home health care
- Aetna can assist you in locating participating providers in the Plan, unless your needs for covered services extend beyond the capability of the affiliated providers. Emergency care is covered (See Section 5(d), Emergency services/accidents). You can receive information regarding the appropriate way to access the behavioral health care services that are covered under your specific plan by calling Member Services at 1-888/238-6240. A referral from your PCP is not necessary to access behavioral health care but your PCP may assist in coordinating your care.
- We will provide medical review criteria or reasons for treatment plan denials to enrollees, members or providers upon request or as otherwise required.
- OPM will base its review of disputes about treatment plans on the treatment plan's clinical appropriateness. OPM will generally not order us to pay or provide one clinically appropriate treatment plan in favor of another.

Benefit Description	You pay After the calendar year deductible...
Note: The calendar year deductible applies to almost all benefits in this Section. We say "(No deductible)" when it does not apply.	
Professional services	
<p>When part of a treatment plan we approve, we cover professional services by licensed professional mental health and substance abuse practitioners when acting within the scope of their license, such as psychiatrists, psychologists, clinical social workers, licensed professional counselors, or marriage and family therapists.</p>	<p>Your cost-sharing responsibilities are no greater than for other illnesses or conditions.</p>

Section 5(f). Prescription drug benefits

Important things you should keep in mind about these benefits:

- We cover prescribed drugs and medications, as described in the chart beginning on the third page.
- Please remember that all benefits are subject to the definitions, limitations and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Your deductible In-network is \$300 for Self Only enrollment and \$600 for Self and Family enrollment or Out-of-network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members.
- Once you satisfy the deductible, you will then pay a copayment at in-network retail pharmacies or the mail-order pharmacy for prescriptions under your Traditional medical coverage. You will pay 40% coinsurance plus the difference between our Plan allowance and the billed amount at out-of-network retail pharmacies. There is no out-of-network mail order pharmacy program.
- The cost of your prescription is based on the Aetna contracted rate with network pharmacies. The Aetna contracted rate with the network pharmacy does not reflect or include any rebates Aetna receives from drug manufacturers.
- Certain drugs require your doctor to get precertification from the Plan before they can be prescribed under the Plan. Upon approval by the Plan, the prescription is good for the current calendar year or a specified time period, whichever is less.
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.

There are important features you should be aware of which include:

- **Who can write your prescription.** A licensed physician, dentist or licensed practitioner (as allowed by law) must write the prescription.
- **Where you can obtain them.** Any retail pharmacy can be used for up to a 30-day supply. Our mail order program must be utilized for a 31-day up to a 90-day supply of medication (if authorized by your physician). You may obtain up to a 30-day supply of medication for one copay (retail pharmacy), and for a 31-day up to a 90-day supply of medication for two copays (mail order). For retail pharmacy transactions, you must present your Aetna Member ID card at the point of sale for coverage. Please call Member Services at 1-888-238-6240 for more details on how to use the mail order program. **Mail order is not available for drugs and medications ordered through Aetna Specialty Pharmacy. Prescriptions ordered through Aetna Specialty Pharmacy are only filled for up to a 30-day supply due to the nature of these prescriptions.** If accessing a nonparticipating pharmacy, the member must pay the full cost of the medication at the point of service, then submit a complete paper claim and a receipt for the cost of the prescription to our Direct Member Reimbursement (DMR) unit. Reimbursements are subject to review to determine if the claim meets applicable requirements, and are subject to the terms and conditions of the benefit plan and applicable law.
- **We use a formulary.** Drugs are prescribed by licensed attending doctors and covered in accordance with the Plan's drug formulary; however, coverage is not limited to medications included on the formulary. Many non-formulary drugs are also covered but a higher copayment will apply. Certain drugs require your doctor to get precertification from the Plan before they can be covered under the Plan. Visit our Web site at www.aetnafeds.com to review our Formulary Guide or call 1-888-238-6240.

Prescription drug benefits-continued on next page

- **Drugs not on the formulary.** Aetna has a Pharmacy and Therapeutics Committee, comprised of physicians, pharmacists and other clinicians that review drugs for inclusion in the formulary. They consider the drug's effectiveness, safety and cost in their evaluation. While most of the drugs on the non-formulary list are brand drugs, some generic drugs also may be on the non-formulary list. For example, this may happen when brand medications lose their patent and the FDA has granted a period of exclusivity to specific generic manufacturers. When this occurs, the price of the generic drug may not decrease as you might think most generic drugs do. This period of exclusivity usually ranges between 3-6 months. Once this time period expires, competition from other generic manufacturers will generally occur and this helps lower the price of the drug and this may lead Aetna to re-evaluate the generic for possible inclusion on the formulary. Aetna will place some of these generic drugs that are granted a period of exclusivity on our non-formulary list, which requires the highest copay level. **Remember, a generic equivalent will be dispensed, if available, unless your physician specifically requires a brand name and writes "Dispense as Written" (DAW) on the prescription, so discuss this with your doctor.**
- **Precertification.** Your pharmacy benefits plan includes our precertification program. Precertification helps encourage the appropriate and cost-effective use of certain drugs. These drugs must be pre-authorized by our Pharmacy Management Precertification Unit before they will be covered. Only your physician or pharmacist, in the case of an antibiotic or analgesic, can request prior authorization for a drug. Step-therapy is another type of precertification under which certain medications will be excluded from coverage unless you try one or more "prerequisite" drug(s) first, or unless a medical exception is obtained. The drugs requiring precertification or step-therapy are subject to change. Visit our Web site at www.aetnafeds.com for the most current information regarding the precertification and step-therapy lists. Ask your physician if the drugs being prescribed for you require precertification or step therapy.
- **When to use a participating retail or mail order pharmacy.** Covered prescription drugs prescribed by a licensed physician or dentist and obtained at a participating Plan retail pharmacy may be dispensed for up to a 30-day supply. Members must obtain a 31-day up to a 90-day supply of covered prescription medication through mail order (applies to in-network pharmacies only). In no event will the copay exceed the cost of the prescription drug. A generic equivalent will be dispensed if available, unless your physician specifically requires a brand name. Drug costs are calculated based on Aetna's contracted rate with the network pharmacy excluding any drug rebates. While Aetna Rx Home Delivery is most likely the most cost effective option for most prescriptions, there may be some instances where the most cost effective option for members will be to utilize a retail pharmacy for a 30 day supply versus Aetna Rx Home Delivery. Members should utilize the Cost of Care Tool prior to ordering prescriptions through mail order (Aetna Rx Home Delivery) to determine the cost.
- In the event that a member is called to active military duty and requires coverage under their prescription plan benefits of an additional filling of their medication(s) prior to departure, their pharmacist will need to contact Aetna. Coverage of additional prescriptions will only be allowed if there are refills remaining on the member's current prescription or a new prescription has been issued by their physician. The member is responsible for the applicable copayment for the additional prescription.
- Aetna allows coverage of a medication filling when at least 75% of the previous prescription according to the physician's prescribed directions, has been utilized. For a 30-day supply of medication, this provision would allow a new prescription to be covered on the 23rd day, thereby allowing a member to have an additional supply of their medication, in case of emergency.
- **Why use generic drugs?** Generics contain the same active ingredients in the same amounts as their brand name counterparts and have been approved by the FDA. By using generic drugs, when available, most members see cost savings, without jeopardizing clinical outcome or compromising quality.
- **When you do have to file a claim.** Send your itemized bill(s) to: Aetna, Pharmacy Management, Claim Processing, P.O. Box 14024, Lexington, KY 40512-4024.

Here are some things to keep in mind about our prescription drug program:

- A generic equivalent may be dispensed if it is available, and where allowed by law.
- **Specialty drugs.** Specialty drugs are medications that treat complex, chronic diseases. These specialty type drugs are called Aetna Specialty CareRx medications which include select oral, injectable and infused medications. Because of the complex therapy needed, a pharmacist or nurse should check in with you often during your treatment. The first fill of these medications can be obtained through a participating retail pharmacy or specialty pharmacy. However, you must obtain all subsequent refills through a participating specialty pharmacy such as Aetna Specialty Pharmacy.

Certain Aetna Specialty CareRx medications identified with a (+) next to the drug name may be covered under the medical or pharmacy section of this brochure depending on how and where the medication is administered.

Often these drugs require special handling, storage and shipping. In addition, these medications are not always available at retail pharmacies. For a detailed listing of what medications fall under your Aetna Specialty CareRx benefit please visit: www.AetnaSpecialtyCareRx.com. You can also visit www.aetnafeds.com for the 2013 Aetna Specialty CareRx list or contact us at 1-888-238-6240 for a copy. Note that the medications and categories covered are subject to change.

- To request a printed copy of the Aetna Medication Formulary Guide, call 1-888-238-6240. The information in the Medication Formulary Guide is subject to change. As brand name drugs lose their patents and the exclusivity period expires, and new generics become available on the market, the brand name drug may be removed from the formulary. Under your benefit plan, this will result in a savings to you, as you pay a lower prescription copayment for generic formulary drugs. Please visit our Web site at www.aetnafeds.com for current Medication Formulary Guide information.

Summary of benefits for the Aurora Health Care option of the Aetna Whole Health Plan - 2013.....182

Section 5. Aetna Whole Health Aurora Health Care Plan Benefits Overview

This Plan offers an Accountable Care Organization Plan (ACO). The benefit package is described here in this Section. Make sure that you review the benefits that are available under the benefit product in which you are enrolled.

Section 5, which describes the benefits, is divided into subsections. Please read *Important things you should keep in mind* at the beginning of each subsection. Also, read the General Exclusions in Section 6; they apply to the benefits in the following subsections. To obtain claim forms, claims filing advice, or more information about your benefits, contact us at 1-888-238-6240 or at our Web site at www.aetnafeds.com.

The Aetna Whole Health Aurora Health Care plan offers these unique features: Two levels of benefits: In-network includes Aurora Accountable Care Network providers only. Out-of-network would be providers that are not a part of the Aurora Accountable Care Network.

In-Network Medical Preventive Care

This component covers 100% for preventive care for adults and children if you use a network provider. The covered medical services include office visits/exams, immunizations and screenings. These services are fully described in Section 5. The services are based on recommendations by the American Medical Association and the American Academy of Pediatrics. You do not have to meet the deductible before using these services.

Health education resources and account management tools

Connect to www.aetnafeds.com for access to Aetna Navigator, a secure and personalized member site offering you a single source for health and benefits information. Use it to:

- Perform self-service functions, like checking your status of a claim.
- Gather health-related information from our award-winning Aetna IntelliHealth[®] Website, one of the most comprehensive health sites available today.

Aetna Navigator gives you direct access to:

- Personal Health Record that provides you with online access to your personal health information including health care providers, drug prescriptions, medical tests, individual personalized messages, alerts, and a detailed health history that can be shared with your physicians.
- Cost of Care tools that compare in-network and out-of-network provider fees, the cost of brand-name drugs vs. their generic equivalents, and the costs for services such as routine physicals, emergency room visits, lab tests, X-rays, MRIs, etc.
- Member Payment Estimator that provides real-time, out-of-pocket estimates for medical expenses based on your Aetna health plan. You can compare the cost of doctors and facilities before you make an appointment, helping you budget for an manage health care expenses.
- A hospital comparison tool that allows you to see how hospitals in your area rank on measures important to your care.
- Our DocFind[®] online provider directory.
- Online customer service that allows you to request member ID cards, send secure messages to Member Services, and more.
- Healthwise[®] Knowledgebase where you get information on thousands of health-related topics to help you make better decisions about your health care and treatment options.

Section 5. Medical Preventive Care

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Preventive care is health care services designed for prevention and early detection of illness in average risk, people without symptoms, generally including routine physical examinations, tests and immunizations. We follow the U.S. Preventive Services Task Force recommendations for preventive care unless noted otherwise. For more information visit www.aetnafeds.com.
- The Plan pays 100% for the medical preventive care services listed in this Section as long as you use a network provider.
- **Note: In-network includes only Aurora Accountable Care Network providers.**
- If you choose to access preventive care with an out-of-network provider, you will not qualify for 100% preventive care coverage. Please see Section 5.

Section 5(b). Surgical and anesthesia services provided by physicians and other health care professionals

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- The deductible is: In-network is \$300 for Self Only enrollment and \$600 for Self & Family enrollment or Out-of-Network is \$1,200 for Self Only enrollment and \$2,400 for Self & Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to all benefits in this Section.
- **Note: In-network includes only Aurora Accountable Care Network providers.**
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.
- After you have satisfied your deductible, your Traditional medical coverage begins.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- The amounts listed below are for the charges billed by a physician or other health care professional for your surgical care. Look in Section 5(c) for charges associated with the facility (i.e., hospital, surgical center, etc.).
- **YOU OR YOUR PHYSICIAN MUST GET PRECERTIFICATION FOR SOME SURGICAL PROCEDURES.** Please refer to the precertification information shown in Section 3 to be sure which services require precertification and identify which surgeries require precertification.

- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.

What is a medical emergency?

A medical emergency is the sudden and unexpected onset of a condition or an injury that you believe endangers your life or could result in serious injury or disability, and requires immediate medical or surgical care. Some problems are emergencies because, if not treated promptly, they might become more serious; examples include deep cuts and broken bones. Others are emergencies because they are potentially life-threatening, such as heart attacks, strokes, poisonings, gunshot wounds, or sudden inability to breathe. There are many other acute conditions that we may determine are medical emergencies – what they all have in common is the need for quick action.

What to do in case of emergency:

If you need emergency care, you are covered 24 hours a day, 7 days a week, anywhere in the world. An emergency medical condition is one manifesting itself by acute symptoms of sufficient severity such that a prudent layperson, who possesses average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the person’s health, or with respect to a pregnant woman, the health of the woman and her unborn child. If you are admitted to an inpatient facility, you or a family member or friend on your behalf should notify Aetna as soon as possible.

The following circumstances would be covered:</p> <ol style="list-style-type: none"> 1. Transport in a medical emergency (i.e., where the prudent layperson could reasonably believe that an acute medical condition requires immediate care to prevent serious harm); or 2. To transport a member from one hospital to another nearby hospital when the first hospital does not have the required services and/or facilities to treat the member; or 3. To transport a member from hospital to home, skilled nursing facility or nursing home when the member cannot be safely or adequately transported in another way without endangering the individual's health, whether or not such other transportation is actually available; or 4. To transport a member from home to hospital for medically necessary inpatient or outpatient treatment when an ambulance is required to safely and adequately transport the member. <p>Note: Air ambulance may be covered. Prior approval is required.</p>	<p>In-network: 15% of our Plan allowance</p> <p>Out-of-network: 15% of our Plan allowance and any difference between our allowance and the billed amount.</p>
<p><i>Not covered:</i></p> <ul style="list-style-type: none"> • <i>Ambulance transportation to receive outpatient or inpatient services and back home again, except in an emergency</i> • <i>Ambulette service</i> • <i>Air ambulance without prior approval</i> • <i>Ambulance transportation for member convenience or for reasons that are not medically necessary</i> <p>Note: Elective air ambulance transport, including facility-to-facility transfers, requires prior approval from the Plan.</p>	<p><i>All charges</i></p>

Section 5(e). Mental health and substance abuse benefits

You need to get Plan approval (preauthorization) for certain services and follow a treatment plan we approve in order to get benefits. When you receive services as part of an approved treatment plan, cost-sharing and limitations for Plan mental health and substance abuse benefits are no greater than for similar benefits for other illnesses and conditions.

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- After you have satisfied your deductible, your Traditional medical coverage begins.
- The deductible is: In-network is \$300 for Self Only enrollment and \$600 for Self & Family enrollment or Out-of-Network is \$1,200 for Self Only enrollment and \$2,400 for Self & Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to most benefits in this Section. We added "(No Deductible)" to show when the deductible does not apply.
- **Note: In-network includes only Aurora Accountable Care Network providers.**
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- **YOU MUST GET PREAUTHORIZATION FOR THESE SERVICES.** Benefits are payable only when we determine the care is clinically appropriate to treat your condition and only when you receive the care as part of a treatment plan that we approve. The treatment plan may include services, drugs, and supplies described elsewhere in this brochure. To be eligible to receive full benefits, you must follow the preauthorization process and get Plan approval of your treatment plan. Preauthorization is required for the following:
 - Any intensive outpatient care (minimum of 2 hours per day or six hours per week - can include group, individual, family or multi-family group psychotherapy, etc.)
 - Outpatient detoxification
 - Partial hospitalization
 - Any inpatient or residential care
 - Psychological or neuropsychological testing
 - Outpatient electroconvulsive therapy
 - Biofeedback, amytal interview, and hypnosis
 - Psychiatric home health care
- Aetna can assist you in locating participating providers in the Plan, unless your needs for covered services extend beyond the capability of the affiliated providers. Emergency care is covered (See Section 5(d), Emergency services/accidents). You can receive information regarding the appropriate way to access the behavioral health care services that are covered under your specific plan by calling member Services at 1-888/238-6240. A referral from your PCP is not necessary to access behavioral health care but your PCP may assist in coordinating your care.
- We will provide medical review criteria or reasons for treatment plan denials to enrollees, members or providers upon request or as otherwise required.
- OPM will base its review of disputes about treatment plans on the treatment plan's clinical appropriateness. OPM will generally not order us to pay or provide one clinically appropriate treatment plan in favor of another.

Section 5(f). Prescription drug benefits

Important things you should keep in mind about these benefits:

- We cover prescribed drugs and medications, as described in the chart beginning on the third page.
- Please remember that all benefits are subject to the definitions, limitations and exclusions in this brochure and are payable only when we determine they are medically necessary.
- The deductible is: In-network is \$300 for Self Only enrollment and \$600 for Self & Family enrollment or Out-of-Network is \$1,200 for Self Only enrollment and \$2,400 for Self & Family enrollment. The Self and Family deductible can be satisfied by one or more family members.
- Once you satisfy the deductible, you will then pay a copayment at in-network retail pharmacies or the mail-order pharmacy for prescriptions under your Traditional medical coverage. You will pay 40% coinsurance plus the difference between our Plan allowance and the billed amount at out-of-network retail pharmacies. There is no out-of-network mail order pharmacy program.
- The cost of your prescription is based on the Aetna contracted rate with network pharmacies. The Aetna contracted rate with the network pharmacy does not reflect or include any rebates Aetna receives from drug manufacturers.
- Certain drugs require your doctor to get precertification from the Plan before they can be prescribed under the Plan. Upon approval by the Plan, the prescription is good for the current calendar year or a specified time period, whichever is less.
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.

There are important features you should be aware of which include:

- **Who can write your prescription.** A licensed physician, dentist or licensed practitioner (as allowed by law) must write the prescription.
- **Where you can obtain them.** Any retail pharmacy can be used for up to a 30-day supply. Our mail order program must be utilized for a 31-day up to a 90-day supply of medication (if authorized by your physician). You may obtain up to a 30-day supply of medication for one copay (retail pharmacy), and for a 31-day up to a 90-day supply of medication for two copays (mail order). For retail pharmacy transactions, you must present your Aetna Member ID card at the point of sale for coverage. Please call Member Services at 1-888-238-6240 for more details on how to use the mail order program. **Mail order is not available for drugs and medications ordered through Aetna Specialty Pharmacy. Prescriptions ordered through Aetna Specialty Pharmacy are only filled for up to a 30-day supply due to the nature of these prescriptions.** If accessing a nonparticipating pharmacy, the member must pay the full cost of the medication at the point of service, then submit a complete paper claim and a receipt for the cost of the prescription to our Direct Member Reimbursement (DMR) unit. Reimbursements are subject to review to determine if the claim meets applicable requirements, and are subject to the terms and conditions of the benefit plan and applicable law.
- **We use a formulary.** Drugs are prescribed by attending licensed doctors and covered in accordance with the Plan’s drug formulary; however, coverage is not limited to medications included on the formulary. Many non-formulary drugs are also covered but a higher copayment will apply. Certain drugs require your doctor to get precertification from the Plan before they can be covered under the Plan. Visit our Web site at www.aetnafeds.com to review our Formulary Guide or call 1-888-238-6240.

Prescription drug benefits-continued on next page

- **Drugs not on the formulary.** Aetna has a Pharmacy and Therapeutics Committee, comprised of physicians, pharmacists and other clinicians that review drugs for inclusion in the formulary. They consider the drug's effectiveness, safety and cost in their evaluation. While most of the drugs on the non-formulary list are brand drugs, some generic drugs also may be on the non-formulary list. For example, this may happen when brand medications lose their patent and the FDA has granted a period of exclusivity to specific generic manufacturers. When this occurs, the price of the generic drug may not decrease as you might think most generic drugs do. This period of exclusivity usually ranges between 3-6 months. Once this time period expires, competition from other generic manufacturers will generally occur and this helps lower the price of the drug and this may lead Aetna to re-evaluate the generic for possible inclusion on the formulary. Aetna will place some of these generic drugs that are granted a period of exclusivity on our non-formulary list, which requires the highest copay level. **Remember, a generic equivalent will be dispensed, if available, unless your physician specifically requires a brand name and writes "Dispense as written" (DAW) on the prescription, so discuss this with your doctor.**
- **Precertification.** Your pharmacy benefits plan includes our precertification program. Precertification helps encourage the appropriate and cost-effective use of certain drugs. These drugs must be pre-authorized by our Pharmacy Management Precertification Unit before they will be covered. Only your physician or pharmacist, in the case of an antibiotic or analgesic, can request prior authorization for a drug. Step-therapy is another type of precertification under which certain medications will be excluded from coverage unless you try one or more "prerequisite" drug(s) first, or unless a medical exception is obtained. The drugs requiring precertification or step-therapy are subject to change. Visit our Web site at www.aetnafeds.com for the most current information regarding the precertification and step-therapy lists. Ask your physician if the drugs being prescribed for you require precertification or step therapy
- **When to use a participating retail or mail order pharmacy.** Covered prescription drugs prescribed by a licensed physician or dentist and obtained at a participating Plan retail pharmacy may be dispensed for up to a 30-day supply. Members must obtain a 31-day up to a 90-day supply of covered prescription medication through mail order. In no event will the copay exceed the cost of the prescription drug. A generic equivalent will be dispensed if available, unless your physician specifically requires a brand name. Drug costs are calculated based on Aetna's contracted rate with the network pharmacy excluding any drug rebates. While Aetna Rx Home Delivery is most likely the most cost effective option for most prescriptions, there may be some instances where the most cost effective option for members will be to utilize a retail pharmacy for a 30 day supply versus Aetna Rx Home Delivery. Members should utilize the Cost of Care Tool prior to ordering prescriptions through mail order (Aetna Rx Home Delivery) to determine the cost.
- In the event that a member is called to active military duty and requires coverage under their prescription plan benefits of an additional filling of their medication(s) prior to departure, their pharmacist will need to contact Aetna. Coverage of additional prescriptions will only be allowed if there are refills remaining on the member's current prescription or a new prescription has been issued by their physician. The member is responsible for the applicable copayment for the additional prescription.
- Aetna allows coverage of a medication filling when at least 75% of the previous prescription according to the physician's prescribed directions, has been utilized. For a 30-day supply of medication, this provision would allow a new prescription to be covered on the 23rd day, thereby allowing a member to have an additional supply of their medication, in case of emergency.
- **Why use generic drugs?** Generics contain the same active ingredients in the same amounts as their brand name counterparts and have been approved by the FDA. By using generic drugs, when available, most members see cost savings, without jeopardizing clinical outcome or compromising quality.
- **When you do have to file a claim.** Send your itemized bill(s) to: Aetna, Pharmacy Management, Claim Processing, P.O. Box 14024, Lexington, KY 40512-4024.

Here are some things to keep in mind about our prescription drug program:

- A generic equivalent may be dispensed if it is available, and where allowed by law.
- **Specialty drugs.** Specialty drugs are medications that treat complex, chronic diseases. These specialty type drugs are called Aetna Specialty CareRx medications which include select oral, injectable and infused medications. Because of the complex therapy needed, a pharmacist or nurse should check in with you often during your treatment. The first fill of these medications can be obtained through a participating retail pharmacy or specialty pharmacy. However, you must obtain all subsequent refills through a participating specialty pharmacy such as Aetna Specialty Pharmacy.

Certain Aetna Specialty CareRx medications identified with a (+) next to the drug name may be covered under the medical or pharmacy section of this brochure depending on how and where the medication is administered.

Often these drugs require special handling, storage and shipping. In addition, these medications are not always available at retail pharmacies. For a detailed listing of what medications fall under your Aetna Specialty CareRx benefit please visit: www.AetnaSpecialtyCareRx.com. You can also visit www.aetnafeds.com for the 2013 Aetna Specialty CareRx list or contact us at 1-888-238-6240 for a copy. Note that the medications and categories covered are subject to change.

- To request a printed copy of the Aetna Medication Formulary Guide, call 1-888-238-6240. The information in the Medication Formulary Guide is subject to change. As brand name drugs lose their patents and the exclusivity period expires, and new generics become available on the market, the brand name drug may be removed from the formulary. Under your benefit plan, this will result in a savings to you, as you pay a lower prescription copayment for generic formulary drugs. Please visit our Web site at www.aetnafeds.com for current Medication Formulary Guide information.

Summary of benefits for the Memorial Hermann option of the Aetna Whole Health Plan - 2013184

Section 5. Aetna Whole Health Memorial Hermann Plan Benefits Overview

This Plan offers an Accountable Care Organization Plan (ACO). The benefit package is described here in this Section. Make sure that you review the benefits that are available under the benefit product in which you are enrolled.

Section 5, which describes the benefits, is divided into subsections. Please read *Important things you should keep in mind* at the beginning of each subsection. Also, read the General Exclusions in Section 6; they apply to the benefits in the following subsections. To obtain claim forms, claims filing advice, or more information about your benefits, contact us at 1-888-238-6240 or at our Web site at www.aetnafeds.com.

The Aetna Whole Health Memorial Hermann plan offers these unique features: Three levels of benefits: In-network preferred includes Memorial Hermann accountable care network providers only. In-network participating are providers who participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

In-Network Medical Preventive Care

This component covers 100% for preventive care for adults and children if you use an in-network preferred provider. The covered medical services include office visits/exams, immunizations and screenings. These services are fully described in Section 5. The services are based on recommendations by the American Medical Association and the American Academy of Pediatrics. You do not have to meet the deductible before using these services.

Health education resources and account management tools

Connect to www.aetnafeds.com for access to Aetna Navigator, a secure and personalized member site offering you a single source for health and benefits information. Use it to:

- Member Payment Estimator that provides real-time, out-of-pocket estimates for medical expenses based on your Aetna health plan. You can compare the cost of doctors and facilities before you make an appointment, helping you budget for an manage health care expenses.
- A hospital comparison tool that allows you to see how hospitals in your area rank on measures important to your care.
- Our DocFind[®] online provider directory.
- Online customer service that allows you to request member ID cards, send secure messages to Member Services, and more.
- Healthwise[®] Knowledgebase where you get information on thousands of health-related topics to help you make better decisions about your health care and treatment options.

Section 5. Medical Preventive Care

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Preventive care is health care services designed for prevention and early detection of illness in average risk, people without symptoms, generally including routine physical examinations, tests and immunizations. We follow the U.S. Preventive Services Task Force recommendations for preventive care unless noted otherwise. For more information visit www.aetnafeds.com.
- The Plan pays 100% for the medical preventive care services listed in this Section as long as you use an in-network preferred provider.
- **Note: In-network preferred includes only Memorial Hermann providers. In-network participating includes providers that contract with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not contract with Aetna.**
- If you choose to access preventive care with an out-of-network provider, you will not qualify for 100% preventive care coverage. Please see Section 5.

Section 5(a). Medical services and supplies provided by physicians and other health care professionals

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Your deductible In-network preferred is \$300 for Self Only enrollment and \$600 for Self and Family enrollment. Your deductible for In-network participating and for Out-of-network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to most benefits in this Section. We added "(No Deductible)" to show when the deductible does not apply.
- **Note: In-network preferred includes only Memorial Hermann providers. In-network participating includes providers that contract with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not contract with Aetna.**
- After you have satisfied your deductible, your Traditional Medical Plan begins.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Your deductible for In-network preferred is \$300 for Self Only enrollment and \$600 for Self and Family enrollment. Your deductible for In-network participating and for Out-of-network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to all benefits in this Section.
- **Note: In-network preferred includes only Memorial Hermann providers. In-network participating includes providers that contract with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not contract with Aetna.**
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.
- After you have satisfied your deductible, your Traditional Medical Plan begins.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- The amounts listed below are for the charges billed by the facility (i.e., hospital or surgical center) or ambulance service for your surgery or care. Any costs associated with the professional charge (i.e., physicians, etc.) are in Sections 5(a) or (b).
- **YOUR NETWORK PHYSICIAN MUST PRECERTIFY HOSPITAL STAYS FOR IN-NETWORK FACILITY CARE; YOU MUST PRECERTIFY HOSPITAL STAYS FOR NON-NETWORK FACILITY CARE; FAILURE TO DO SO WILL RESULT IN A \$500 PENALTY FOR NON-NETWORK FACILITY CARE.** Please refer to the precertification information shown in Section 3 to confirm which services require precertification.

What is a medical emergency?

A medical emergency is the sudden and unexpected onset of a condition or an injury that you believe endangers your life or could result in serious injury or disability, and requires immediate medical or surgical care. Some problems are emergencies because, if not treated promptly, they might become more serious; examples include deep cuts and broken bones. Others are emergencies because they are potentially life-threatening, such as heart attacks, strokes, poisonings, gunshot wounds, or sudden inability to breathe. There are many other acute conditions that we may determine are medical emergencies – what they all have in common is the need for quick action.

What to do in case of emergency: If you need emergency care, you are covered 24 hours a day, 7 days a week, anywhere in the world. An emergency medical condition is one manifesting itself by acute symptoms of sufficient severity such that a prudent layperson, who possesses average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the person's health, or with respect to a pregnant woman, the health of the woman and her unborn child. If you are admitted to an inpatient facility, you or a family member or friend on your behalf should notify Aetna as soon as possible.

Section 5(e). Mental health and substance abuse benefits

You need to get Plan approval (preauthorization) for certain services and follow a treatment plan we approve in order to get benefits. When you receive services as part of an approved treatment plan, cost-sharing and limitations for Plan mental health and substance abuse benefits are no greater than for similar benefits for other illnesses and conditions.

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- After you have satisfied your deductible, your Traditional Medical Plan begins.
- Your deductible In-network is \$300 for Self Only enrollment and \$600 for Self and Family enrollment or Out-of-network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members. The deductible applies to most benefits in this Section. We added "(No Deductible)" when deductible does not apply.
- **Note: In-network preferred includes only Memorial Hermann providers. In-network participating includes providers that contract with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not contract with Aetna.**
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.
- Under your Traditional medical coverage, you will be responsible for your coinsurance amounts or copayments for eligible medical expenses and prescriptions.
- **YOU MUST GET PREAUTHORIZATION FOR THESE SERVICES.** Benefits are payable only when we determine the care is clinically appropriate to treat your condition and only when you receive the care as part of a treatment plan that we approve. The treatment plan may include services, drugs, and supplies described elsewhere in this brochure. To be eligible to receive full benefits, you must follow the preauthorization process and get Plan approval of your treatment plan. Preauthorization is required for the following:
 - Any intensive outpatient care (minimum of 2 hours per day or six hours per week - can include group, individual, family or multi-family group psychotherapy, etc.)
 - Outpatient detoxification
 - Partial hospitalization
 - Any inpatient or residential care
 - Psychological or neuropsychological testing
 - Outpatient electroconvulsive therapy
 - Biofeedback, amytal interview, and hypnosis
 - Psychiatric home health care
- Aetna can assist you in locating participating providers in the Plan, unless your needs for covered services extend beyond the capability of the affiliated providers. Emergency care is covered (See Section 5(d), Emergency services/accidents). You can receive information regarding the appropriate way to access the behavioral health care services that are covered under your specific plan by calling Member Services at 1-888/238-6240. A referral from your PCP is not necessary to access behavioral health care but your PCP may assist in coordinating your care.
- We will provide medical review criteria or reasons for treatment plan denials to enrollees, members or providers upon request or as otherwise required.
- OPM will base its review of disputes about treatment plans on the treatment plan's clinical appropriateness. OPM will generally not order us to pay or provide one clinically appropriate treatment plan in favor of another.

Benefit Description	You pay After the calendar year deductible...
Note: The calendar year deductible applies to almost all benefits in this Section. We say "(No deductible)" when it does not apply.	
Professional services	
<p>When part of a treatment plan we approve, we cover professional services by licensed professional mental health and substance abuse practitioners when acting within the scope of their license, such as psychiatrists, psychologists, clinical social workers, licensed professional counselors, or marriage and family therapists.</p>	<p>Your cost-sharing responsibilities are no greater than for other illnesses or conditions.</p>
<p>Diagnosis and treatment of psychiatric conditions, mental illness, or mental disorders. Services include:</p> <ul style="list-style-type: none"> • Diagnostic evaluation • Crisis intervention and stabilization for acute episodes • Medication evaluation and management (pharmacotherapy) • Psychological and neuropsychological testing necessary to determine the appropriate psychiatric treatment • Treatment and counseling (including individual or group therapy visits) • Diagnosis and treatment of alcoholism and drug abuse, including detoxification, treatment and counseling • Professional charges for intensive outpatient treatment in a provider's office or other professional setting • Electroconvulsive therapy 	<p>In-network preferred: (No deductible) \$35 per specialist visit</p> <p>In-network participating: 40% of the Plan allowance</p> <p>Out-of-network: 50% of our Plan allowance and any difference between our allowance and the billed amount.</p>
Diagnostics	
<ul style="list-style-type: none"> • Outpatient diagnostic tests provided and billed by a licensed mental health and substance abuse practitioner • Outpatient diagnostic tests provided and billed by a laboratory, hospital or other covered facility 	<p>In-network preferred: (No deductible) \$35 per specialist visit</p> <p>In-network participating: 40% of the Plan allowance</p> <p>Out-of-network: 50% of our Plan allowance and any difference between our allowance and the billed amount.</p>

Section 5(f). Prescription drug benefits

Important things you should keep in mind about these benefits:

- We cover prescribed drugs and medications, as described in the chart beginning on the third page.
- Please remember that all benefits are subject to the definitions, limitations and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Your deductible In-network is \$300 for Self Only enrollment and \$600 for Self and Family enrollment. Your deductible for Out-of network is \$1,200 for Self Only enrollment and \$2,400 for Self and Family enrollment. The Self and Family deductible can be satisfied by one or more family members.
- Once you satisfy the deductible, you will then pay a copayment at in-network retail pharmacies or the mail-order pharmacy for prescriptions under your Traditional medical coverage. You will pay 50% coinsurance plus the difference between our Plan allowance and the billed amount at out-of-network retail pharmacies. There is no out-of-network mail order pharmacy program.
- The cost of your prescription is based on the Aetna contracted rate with network pharmacies. The Aetna contracted rate with the network pharmacy does not reflect or include any rebates Aetna receives from drug manufacturers.
- Certain drugs require your doctor to get precertification from the Plan before they can be prescribed under the Plan. Upon approval by the Plan, the prescription is good for the current calendar year or a specified time period, whichever is less.
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.

There are important features you should be aware of which include:

- **Who can write your prescription.** A licensed physician, dentist or licensed practitioner (as allowed by law) must write the prescription.
- **Where you can obtain them.** Any retail pharmacy can be used for up to a 30-day supply. Our mail order program must be utilized for a 31-day up to a 90-day supply of medication (if authorized by your physician). You may obtain up to a 30-day supply of medication for one copay (retail pharmacy), and for a 31-day up to a 90-day supply of medication for two copays (mail order). For retail pharmacy transactions, you must present your Aetna Member ID card at the point of sale for coverage. Please call Member Services at 1-888-238-6240 for more details on how to use the mail order program. **Mail order is not available for drugs and medications ordered through Aetna Specialty Pharmacy. Prescriptions ordered through Aetna Specialty Pharmacy are only filled for up to a 30-day supply due to the nature of these prescriptions.** If accessing a nonparticipating pharmacy, the member must pay the full cost of the medication at the point of service, then submit a complete paper claim and a receipt for the cost of the prescription to our Direct Member Reimbursement (DMR) unit. Reimbursements are subject to review to determine if the claim meets applicable requirements, and are subject to the terms and conditions of the benefit plan and applicable law.
- **We use a formulary.** Drugs are prescribed by attending licensed doctors and covered in accordance with the Plan’s drug formulary; however, coverage is not limited to medications included on the formulary. Many non-formulary drugs are also covered but a higher copayment will apply. Certain drugs require your doctor to get precertification from the Plan before they can be covered under the Plan. Visit our Web site at www.aetnafeds.com to review our Formulary Guide or call 1-888-238-6240.

Prescription drug benefits-continued on next page

- **Drugs not on the formulary.** Aetna has a Pharmacy and Therapeutics Committee, comprised of physicians, pharmacists and other clinicians that review drugs for inclusion in the formulary. They consider the drug's effectiveness, safety and cost in their evaluation. While most of the drugs on the non-formulary list are brand drugs, some generic drugs also may be on the non-formulary list. For example, this may happen when brand medications lose their patent and the FDA has granted a period of exclusivity to specific generic manufacturers. When this occurs, the price of the generic drug may not decrease as you might think most generic drugs do. This period of exclusivity usually ranges between 3-6 months. Once this time period expires, competition from other generic manufacturers will generally occur and this helps lower the price of the drug and this may lead Aetna to re-evaluate the generic for possible inclusion on the formulary. Aetna will place some of these generic drugs that are granted a period of exclusivity on our non-formulary list, which requires the highest copay level. **Remember, a generic equivalent will be dispensed, if available, unless your physician specifically requires a brand name and writes "Dispense as written" (DAW) on the prescription, so discuss this with your doctor.**
- **Precertification.** Your pharmacy benefits plan includes our precertification program. Precertification helps encourage the appropriate and cost-effective use of certain drugs. These drugs must be pre-authorized by our Pharmacy Management Precertification Unit before they will be covered. Only your physician or pharmacist, in the case of an antibiotic or analgesic, can request prior authorization for a drug. Step-therapy is another type of precertification under which certain medications will be excluded from coverage unless you try one or more "prerequisite" drug(s) first, or unless a medical exception is obtained. The drugs requiring precertification or step-therapy are subject to change. Visit our Web site at www.aetnafeds.com for the most current information regarding the precertification and step-therapy lists. Ask your physician if the drugs being prescribed for you require precertification or step therapy
- **When to use a participating retail or mail order pharmacy.** Covered prescription drugs prescribed by a licensed physician or dentist and obtained at a participating Plan retail pharmacy may be dispensed for up to a 30-day supply. Members must obtain a 31-day up to a 90-day supply of covered prescription medication through mail order. In no event will the copay exceed the cost of the prescription drug. A generic equivalent will be dispensed if available, unless your physician specifically requires a brand name. Drug costs are calculated based on Aetna's contracted rate with the network pharmacy excluding any drug rebates. While Aetna Rx Home Delivery is most likely the most cost effective option for most prescriptions, there may be some instances where the most cost effective option for members will be to utilize a retail pharmacy for a 30 day supply versus Aetna Rx Home Delivery. Members should utilize the Cost of Care Tool prior to ordering prescriptions through mail order (Aetna Rx Home Delivery) to determine the cost.
- In the event that a member is called to active military duty and requires coverage under their prescription plan benefits of an additional filling of their medication(s) prior to departure, their pharmacist will need to contact Aetna. Coverage of additional prescriptions will only be allowed if there are refills remaining on the member's current prescription or a new prescription has been issued by their physician. The member is responsible for the applicable copayment for the additional prescription.
- Aetna allows coverage of a medication filling when at least 75% of the previous prescription according to the physician's prescribed directions, has been utilized. For a 30-day supply of medication, this provision would allow a new prescription to be covered on the 23rd day, thereby allowing a member to have an additional supply of their medication, in case of emergency.
- **Why use generic drugs?** Generics contain the same active ingredients in the same amounts as their brand name counterparts and have been approved by the FDA. By using generic drugs, when available, most members see cost savings, without jeopardizing clinical outcome or compromising quality.
- **When you do have to file a claim.** Send your itemized bill(s) to: Aetna, Pharmacy Management, Claim Processing, P.O. Box 14024, Lexington, KY 40512-4024.

Here are some things to keep in mind about our prescription drug program:

- A generic equivalent may be dispensed if it is available, and where allowed by law.
- **Specialty drugs.** Specialty drugs are medications that treat complex, chronic diseases. These specialty type drugs are called Aetna Specialty CareRx medications which include select oral, injectable and infused medications. Because of the complex therapy needed, a pharmacist or nurse should check in with you often during your treatment. The first fill of these medications can be obtained through a participating retail pharmacy or specialty pharmacy. However, you must obtain all subsequent refills through a participating specialty pharmacy such as Aetna Specialty Pharmacy.

Certain Aetna Specialty CareRx medications identified with a (+) next to the drug name may be covered under the medical or pharmacy section of this brochure depending on how and where the medication is administered.

Often these drugs require special handling, storage and shipping. In addition, these medications are not always available at retail pharmacies. For a detailed listing of what medications fall under your Aetna Specialty CareRx benefit please visit: www.AetnaSpecialtyCareRx.com. You can also visit www.aetnafeds.com for the 2013 Aetna Specialty CareRx list or contact us at 1-888-238-6240 for a copy. Note that the medications and categories covered are subject to change.

- To request a printed copy of the Aetna Medication Formulary Guide, call 1-888-238-6240. The information in the Medication Formulary Guide is subject to change. As brand name drugs lose their patents and the exclusivity period expires, and new generics become available on the market, the brand name drug may be removed from the formulary. Under your benefit plan, this will result in a savings to you, as you pay a lower prescription copayment for generic formulary drugs. Please visit our Web site at www.aetnafeds.com for current Medication Formulary Guide information.

Section 5(g). Dental benefits

Important things you should keep in mind about these benefits:

- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- If you are enrolled in a Federal Employees Dental/Vision Insurance Program (FEDVIP) Dental Plan, your FEHB Plan will be First/Primary payor of any Benefit payments and your FEDVIP Plan is secondary to your FEHB Plan. See Section 9 coordinating benefits with other coverage.
- Be sure to read Section 4, *Your costs for covered services*, for valuable information about how cost-sharing works, with special sections for members who are age 65 or over. Also read Section 9 about coordinating benefits with other coverage, including with Medicare.
- Note: We cover hospitalization for dental procedures only when a non-dental physical impairment exists which makes hospitalization necessary to safeguard the health of the patient. We do not cover the dental procedure. See Section 5(c) for inpatient hospital benefits.

Dental benefits	
We have no other dental benefits.	

Section 5(h). Special features

These features are available to all three plans in this brochure.

Feature	Description
Flexible benefits option	<p>Under the flexible benefits option, we determine the most effective way to provide services.</p> <ul style="list-style-type: none"> • We may identify medically appropriate alternatives to regular contract benefits as a less costly alternative. If we identify a less costly alternative, we will ask you to sign an alternative benefits agreement that will include all of the following terms in addition to other terms as necessary. Until you sign and return the agreement, regular contract benefits will continue. • Alternative benefits will be made available for a limited time period and are subject to our ongoing review. You must cooperate with the review process. • By approving an alternative benefit, we do not guarantee you will get it in the future. • The decision to offer an alternative benefit is solely ours, and except as expressly provided in the agreement, we may withdraw it at any time and resume regular contract benefits. • If you sign the agreement, we will provide the agreed-upon alternative benefits for the stated time period (unless circumstances change). You may request an extension of the time period, but regular contract benefits will resume if we do not approve your request. • Our decision to offer or withdraw alternative benefits is not subject to OPM review under the disputed claims process. However, if at the time we make a decision regarding alternative benefits, we also decide that regular contract benefits are not payable, then you may dispute our regular contract benefits decision under the OPM disputed claim process (see Section 8).

Section 6. General exclusions – services, drugs and supplies we do not cover

The exclusions in this Section apply to all benefits. There may be other exclusions and limitations listed in Section 5 of this brochure. Although we may list a specific service as a benefit, we will not cover it unless it is medically necessary to prevent, diagnose, or treat your illness, disease, injury, or condition. For information on obtaining prior approval for specific services, such as transplants, see Section 3 *When you need prior Plan approval for certain services*.

We do not cover the following:

- Services, drugs, or supplies you receive while you are not enrolled in this Plan.
- Services, drugs, or supplies not medically necessary.
- Services, drugs, or supplies not required according to accepted standards of medical, dental, or psychiatric practice.
- Experimental or investigational procedures, treatments, drugs or devices (see specifics regarding transplants).
- Procedures, services, drugs, or supplies related to abortions, except when the life of the mother would be endangered if the fetus were carried to term, or when the pregnancy is the result of an act of rape or incest.
- Services, drugs, or supplies related to sex transformations.
- Services, drugs, or supplies you receive from a provider or facility barred from the FEHB Program.
- Services, drugs, or supplies you receive without charge while in active military service.
- Cost of data collection and record keeping for clinical trials that would not be required, but for the clinical trial.
- Items and services provided by clinical trial sponsor without charge.
- Care for conditions that state or local law requires to be treated in a public facility, including but not limited to, mental illness commitments.
- Court ordered services, or those required by court order as a condition of parole or probation, except when medically necessary.
- Educational services for treatment of behavioral disorders.
- Applied Behavioral Analysis (ABA)

Section 7. Filing a claim for covered services

This section primarily deals with post-service claims (claims for services, drugs or supplies you have already received). See Section 3 for information on pre-service claims procedures (services, drugs or supplies requiring prior Plan approval), including urgent care claims procedures. When you see Plan physicians, receive services at Plan hospitals and facilities, or obtain your prescription drugs at Plan pharmacies, you will not have to file claims.

You will only need to file a claim when you receive emergency services from non-plan providers. Sometimes these providers bill us directly. Check with the provider.

If you need to file the claim, here is the process:

Medical, hospital, and drug benefits

To obtain claim forms or other claims filing advice or answers about your benefits, contact us at 1-888-238-6240.

In most cases, providers and facilities file claims for you. Your physician must file on the form CMS-1500, Health Insurance Claim Form. Your facility will file on the UB-04 form. For claims questions and assistance, contact us at 1-888-238-6240, or at our website at www.aetnafeds.com.

When you must file a claim, such as when you use non-network providers, for services you receive overseas or when another group health plan is primary, submit it on the Aetna claim form. You can obtain this form by either calling us at 1-888-238-6240 or by logging onto your personalized home page on Aetna Navigator from the www.aetnafeds.com Web site and clicking on "Forms." Bills and receipts should be itemized and show:

- Name of patient and relationship to enrollee
- Covered member's name, date of birth, address, phone number and ID number
- Name, address and taxpayer identification number of person or firm providing the service or supply
- Dates you received the services or supplies
- Diagnosis
- Type of each service or supply
- The charge for each service or supply

Note: Canceled checks, cash register receipts, or balance due statements are not acceptable substitutes for itemized bills.

In addition:

- You must send a copy of the explanation of benefits (EOB) payments or denial from any primary payor - such as Medicare Summary Notice (MSN) with your claim
- Bills for home nursing care must show that the nurse is a registered or licensed practical nurse
- Claims for rental or purchase of durable medical equipment; private duty nursing; and physical, occupational, and speech therapy require a written statement from the physician specifying the medical necessity for the service or supply and the length of time needed
- Claims for prescription drugs and supplies that are not obtained from a network pharmacy or through the Mail Order Service Prescription Drug Program must include receipts that include the prescription number, name of drug or supply, prescribing physician's name, date and charge
- You should provide an English translation and currency conversion rate at the time of services for claims for overseas (foreign) services

Records	<p>Keep a separate record of the medical expenses of each covered family member. Save copies of all medical bills, including those you accumulate to satisfy your deductible. In most instances, they will serve as evidence of your claim. We will not provide duplicate or year-end statements.</p>
Deadline for filing your claim	<p>Send us all of the documents for your claim as soon as possible:</p> <p>Aetna Life Insurance Company P.O. Box 14079 Lexington, KY 40512-4079</p> <p>You must submit the claim by December 31 of the year after the year you received the service, unless timely filing was prevented by administrative operations of Government or legal incapacity, provided the claim was submitted as soon as reasonably possible. Once we pay benefits, there is a three-year limitation on the reissuance of uncashed checks.</p>
Overseas claims	<p>For covered services you receive in hospitals outside the United States and performed by physicians outside the United States, send a completed Claim Form and the itemized bills to the following address. Also send any written inquiries, concerning the processing of overseas claims to:</p> <p>Aetna Life Insurance Company P.O. Box 14079 Lexington, KY 40512-4079</p>
Post-service claims procedures	<p>We will notify you of our decision within 30 days after we receive your post-service claim. If matters beyond our control require an extension of time, we may take up to an additional 15 days for review and we will notify you before the expiration of the original 30-day period. Our notice will include the circumstances underlying the request for the extension and the date when a decision is expected.</p> <p>If we need an extension because we have not received necessary information from you, our notice will describe the specific information required and we will allow you up to 60 days from the receipt of the notice to provide the information.</p> <p>If you do not agree with our initial decision, you may ask us to review it by following the disputed claims process detailed in Section 8 of this brochure.</p>
When we need more information	<p>Please reply promptly when we ask for additional information. We may delay processing or deny benefits for your claim if you do not respond. Our deadline for responding to your claim is stayed while we await all of the additional information needed to process your claim.</p>
Authorized Representative	<p>You may designate an authorized representative to act on your behalf for filing a claim or to appeal claims decisions to us. For urgent care claims, a health care professional with knowledge of your medical condition will be permitted to act as your authorized representative without your express consent. For the purposes of this section, we are also referring to your authorized representative when we refer to you.</p>
Notice Requirements	<p>If you live in a county where at least 10 percent of the population is literate only in a non-English language (as determined by the Secretary of Health and Human Services), we will provide language assistance in that non-English language. You can request a copy of your Explanation of Benefits (EOB) statement, related correspondence, oral language services (such as telephone customer assistance), and help with filing claims and appeals (including external reviews) in the applicable non-English language. The English versions of your EOBs and related correspondence will include information in the non-English language about how to access language services in that non-English language.</p>

Any notice of an adverse benefit determination or correspondence from us confirming an adverse benefit determination will include information sufficient to identify the claim involved (including the date of service, the health care provider, and the claim amount, if applicable), and a statement describing the availability, upon request, of the diagnosis and procedure codes.

Section 8. The disputed claims process

You may be able to appeal directly to the Office of Personnel Management (OPM) if we do not follow required claims processes. For more information about situations in which you are entitled to immediately appeal to OPM, including additional requirements not listed in Sections 3, 7 and 8 of this brochure, please visit www.aetnafeds.com.

Please follow this Federal Employees Health Benefits Program disputed claims process if you disagree with our decision on your post-service claim (a claim where services, drugs or supplies have already been provided). In Section 3 *If you disagree with our pre-service claim decision*, we describe the process you need to follow if you have a claim for services, referrals, drugs or supplies that must have prior Plan approval, such as inpatient hospital admissions.

To help you prepare your appeal, you may arrange with us to review and copy, free of charge, all relevant materials and Plan documents under our control relating to your claim, including those that involve any expert review(s) of your claim. To make your request, please contact our Customer Service Department by writing Aetna, Attention: National Accounts, P.O. Box 14463, Lexington, KY 40512 or calling 1-888/238-6240.

Our reconsideration will take into account all comments, documents, records, and other information submitted by you relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination.

When our initial decision is based (in whole or in part) on a medical judgment (i.e., medical necessity, experimental/investigational), we will consult with a health care professional who has appropriate training and experience in the field of medicine involved in the medical judgment and who was not involved in making the initial decision.

Our reconsideration decision will not afford deference to the initial decision and will be conducted by a plan representative who is neither the individual who made the initial decision that is the subject of the reconsideration, nor the subordinate of that individual.

We will not make our decisions regarding hiring, compensation, termination, promotion, or other similar matters with respect to any individual (such as a claims adjudicator or medical expert) based upon the likelihood that the individual will support the denial of benefits.

Step	Description
1	<p>Ask us in writing to reconsider our initial decision. You must:</p> <ul style="list-style-type: none"> a) Write to us within 6 months from the date of our decision; and b) Send your request to us at: Aetna Inc., Attention: National Accounts, P.O. Box 14463, Lexington, KY 40512; and c) Include a statement about why you believe our initial decision was wrong, based on specific benefit provisions in this brochure; and d) Include copies of documents that support your claim, such as physicians' letters, operative reports, bills, medical records, and explanation of benefits (EOB) forms. e) Include your email address, if you would like to receive our decision via email. Please note that by providing us your email address, you may receive our decision more quickly. <p>We will provide you, free of charge and in a timely manner, with any new or additional evidence considered, relied upon, or generated by us or at our direction in connection with your claim and any new rationale for our claim decision. We will provide you with this information sufficiently in advance of the date that we are required to provide you with our reconsideration decision to allow you a reasonable opportunity to respond to us before that date. However, our failure to provide you with new evidence or rationale in sufficient time to allow you to timely respond shall not invalidate our decision on reconsideration. You may respond to that new evidence or rationale at the OPM review stage described in step 4.</p>

Step	Description
2	<p>In the case of a post-service claim, we have 30 days from the date we receive your request to:</p> <ul style="list-style-type: none"> a) Pay the claim or b) Write to you and maintain our denial or c) Ask you or your provider for more information. <p>You or your provider must sent the information so that we receive it within 60 days of our request. We will then decide within 30 more days.</p> <p>If we do not receive the information within 60 days we will decide within 30 days of the date the information was due. We will base our decision on the information we already have. We will write to you with our decision.</p>
3	<p>If you do not agree with our decision, you may ask OPM to review it.</p> <p>You must write to OPM within:</p> <ul style="list-style-type: none"> • 90 days after the date of our letter upholding our initial decision; or • 120 days after you first wrote to us--if we did not answer that request in some way within 30 days; or • 120 days after we asked for additional information. <p>Write to OPM at: United States Office of Personnel Management, Healthcare and Insurance, Federal Employee Insurance Operations, Health Insurance 3, 1900 E Street, NW, Washington, DC 20415-3630.</p> <p>Send OPM the following information:</p> <ul style="list-style-type: none"> • A statement about why you believe our decision was wrong, based on specific benefit provisions in this brochure; • Copies of documents that support your claim, such as physicians' letters, operative reports, bills, medical records, and explanation of benefits (EOB) forms; • Copies of all letters you sent to us about the claim; • Copies of all letters we sent to you about the claim; and • Your daytime phone number and the best time to call. • Your email address, if you would like to receive OPM's decision via email. Please note that by providing your email address, you may receive OPM's decision more quickly. <p>Note: If you want OPM to review more than one claim, you must clearly identify which documents apply to which claim.</p> <p>Note: You are the only person who has a right to file a disputed claim with OPM. Parties acting as your representative, such as medical providers, must include a copy of your specific written consent with the review request. However, for urgent care claims, a health care professional with knowledge of your medical condition may act as your authorized representative without your express consent.</p> <p>Note: The above deadlines may be extended if you show that you were unable to meet the deadline because of reasons beyond our control.</p>
4	<p>OPM will review your disputed claim request and will use the information it collects from you and us to decide whether our decision is correct. OPM will send you a final decision within 60 days. There are no other administrative appeals.</p> <p>If you do not agree with OPM's decision, your only recourse is to sue. If you decide to sue, you must file the suit against OPM in Federal court by December 31 of the third year after the year in which you received the disputed services, drugs, or supplies or from the year in which you were denied precertification or prior approval. This is the only deadline that may not be extended.</p>

<p>OPM may disclose the information it collects during the review process to support their disputed claim decision. This information will become part of the court record.</p>
--

<p>You may not sue until you have completed the disputed claims process. Further, Federal law governs your lawsuit, benefits, and payment of benefits. The Federal court will base its review on the record that was before OPM when OPM decided to uphold or overturn our decision. You may recover only the amount of benefits in dispute.</p>
--

Note: **If you have a serious or life threatening condition** (one that may cause permanent loss of bodily functions or death if not treated as soon as possible), and you did not indicate that your claim was a claim for urgent care, then call us at 1-888/238-6240. We will hasten our review (if we have not yet responded to your claim); or we will inform OPM so they can quickly review your claim on appeal. You may call OPM's Health Insurance 3 at (202) 606-0737 between 8 a.m. and 5 p.m. eastern time.

Please remember that we do not make decisions about plan eligibility issues. For example, we do not determine whether you or a dependent is covered under this plan. You must raise eligibility issues with your Agency personnel/payroll office if you are an employee, your retirement system if you are an annuitant or the Office of Worker's Compensation programs if you are receiving Worker's Compensation benefits.

Section 9. Coordinating benefits with Medicare and other coverage

When you have other health coverage

You must tell us if you or a covered family member has coverage under any other health plan or has automobile insurance that pays health care expenses without regard to fault. This is called “double coverage.”

When you have double coverage, one plan normally pays its benefits in full as the primary payor and the other plan pays a reduced benefit as the secondary payor. We, like other insurers, determine which coverage is primary according to the national Association of Insurance Commissioners’ (NAIC) guidelines. For more information on NAIC rules regarding the coordinating of benefits, visit the NAIC website at <http://www.NAIC.org>.

When we are the primary payor, we pay the benefits described in this brochure.

When we are the secondary payor, the primary Plan will pay for the expenses first, up to its plan limit. If the expense is covered in full by the primary plan, we will not pay anything. If the expense is not covered in full by the primary plan, we determine our allowance. If the primary Plan uses a preferred provider arrangement, we use the highest negotiated fee between the primary Plan and our Plan. If the primary plan does not use a preferred provider arrangement, we use the Aetna negotiated fee. For example, we generally only make up the difference between the primary payor's benefit payment and 100% of our Plan allowance, subject to your applicable deductible, if any, and coinsurance or copayment amounts.

When Medicare is the primary payor and the provider accepts Medicare assignment, our allowance is Medicare’s allowance. When we are the secondary payor, we pay the lesser of our allowance or the difference between the Medicare allowance and the amount paid by Medicare. We do not pay more than our allowance. You are still responsible for your copayment or coinsurance based on the amount left after Medicare payment.

• TRICARE and CHAMPVA

TRICARE is the health care program for eligible dependents of military persons, and retirees of the military. TRICARE includes the CHAMPUS program. CHAMPVA provides health coverage to disabled Veterans and their eligible dependents. IF TRICARE or CHAMPVA and this Plan cover you, we pay first. See your TRICARE or CHAMPVA Health Benefits Advisor if you have questions about these programs.

Suspended FEHB coverage to enroll in TRICARE or CHAMPVA: If you are an annuitant or former spouse, you can suspend your FEHB coverage to enroll in one of these programs, eliminating your FEHB premium. (OPM does not contribute to any applicable plan premiums.) For information on suspending your FEHB enrollment, contact your retirement office. If you later want to re-enroll in the FEHB Program, generally you may do so only at the next Open Season unless you involuntarily lose coverage under TRICARE or CHAMPVA.

• Workers' Compensation

We do not cover services that:

- You (or a covered family member) need because of a workplace-related illness or injury that the Office of Workers’ Compensation Programs (OWCP) or a similar Federal or State agency determines they must provide; or
- OWCP or a similar agency pays for through a third-party injury settlement or other similar proceeding that is based on a claim you filed under OWCP or similar laws.

Once OWCP or similar agency pays its maximum benefits for your treatment, we will cover your care.

• Medicaid

When you have this Plan and Medicaid, we pay first.

Suspended FEHB coverage to enroll in Medicaid or a similar State-sponsored program of medical assistance: If you are an annuitant or former spouse, you can suspend your FEHB coverage to enroll in one of these State programs, eliminating your FEHB premium. For information on suspending your FEHB enrollment, contact your retirement office. If you later want to re-enroll in the FEHB Program, generally you may do so only at the next Open Season unless you involuntarily lose coverage under the State program.

When other Government agencies are responsible for your care

We do not cover services and supplies when a local, State, or Federal government agency directly or indirectly pays for them.

When others are responsible for injuries

Services and supplies to treat illness or injury which are caused by the act or omission of a Third Party, or for which a Third Party is responsible are not covered by the plan. However, advance payment or provision of benefits for such an illness or injury may occur, and in that case your coverage is limited by the following subrogation and reimbursement rights in favor of your FEHB plan.

The words “Third Party,” “Any Party” or “Responsible Party” includes not only the insurance carrier(s) for the responsible party, but also any uninsured motorist coverage, underinsured motorist coverage, personal umbrella coverage, medical payments coverage, workers’ compensation coverage, no-fault automobile insurance coverage or any other first party insurance coverage. The words “Member,” “you” and “your” include anyone on whose behalf the Plan pays or provides any benefits.

When you receive money to compensate you for medical or hospital care for injuries or illness caused by another person, you must reimburse us for any expenses we paid. However, we will cover the cost of treatment that exceeds the amount you received in the settlement.

You specifically acknowledge our right of subrogation. When we provide health care benefits for injuries or illnesses for which another responsible party is or may be responsible, we shall be subrogated to your rights of recovery against any responsible party to the extent of the full cost of all benefits provided by us. We may proceed against any responsible party with or without your consent.

You also specifically acknowledge our right of reimbursement. This right of reimbursement attaches, to the fullest extent permitted by law, when we have provided health care benefits for injuries or illnesses for which another party is or may be responsible and you and/or your representative has recovered any amounts from the responsible party or any party making payments on the responsible party’s behalf. By providing any benefit under this Plan, we are granted an assignment of the proceeds of any settlement, judgment or other payment received by you to the extent of the full cost of all benefits provided by us. Our right of reimbursement is cumulative with, and not exclusive of, our subrogation right and we may choose to exercise either or both rights of recovery.

You and your representatives further agree to:

- Notify us in writing within 30 days of when notice is given to any responsible party of the intention to investigate or pursue a claim to recover damages or obtain compensation due to injuries or illnesses sustained by you that may be the legal responsibility of another party; and
- Cooperate with us and do whatever is necessary to secure our rights of subrogation and/or reimbursement under this Plan; and

- Give us a first-priority lien on any recovery, settlement or judgment or other source of compensation which may be had from a responsible party to the extent of the full cost of all benefits provided by us associated with injuries or illnesses for which another party is or may be responsible (regardless of whether specifically set forth in the recovery, settlement, judgment or compensation agreement); and
- Pay, as the first priority, from any recovery, settlement or judgment or other source of compensation, any and all amounts due us as reimbursement for the full cost of all benefits provided by us associated with injuries or illnesses for which another party is or may be responsible (regardless of whether specifically set forth in the recovery, settlement, judgment, or compensation agreement and regardless of whether each payment will result in a recovery to the Member which is insufficient to make the Member whole or to compensate the Member in part or in whole for the damages sustained), unless otherwise agreed to by us in writing; and
- Do nothing to prejudice our rights as set forth above. This includes, but is not limited to, refraining from making any settlement or recovery which specifically attempts to reduce or exclude the full cost of all benefits provided by us; and
- Serve as a constructive trustee for the benefit of this Plan or any settlement or recovery funds received as a result of Third Party injuries.

We may recover the full cost of all benefits provided by us under this Plan without regard to any claim of fault on the part of you, whether by comparative negligence or otherwise. We may recover the full cost of all benefits provided by us under this Plan even if such payment will result in a recovery to you which is insufficient to make you whole or fully compensate you for your damages. No court costs or attorney fees may be deducted from Aetna's recovery, and Aetna is not required to pay or contribute to paying court costs or attorney's fees for the attorney hired by the Member to pursue the Member's claim or lawsuit against any Responsible Party without the prior express written consent of Aetna. In the event you or your representative fails to cooperate with us, you shall be responsible for all benefits paid by us in addition to costs and attorney's fees incurred by us in obtaining repayment.

When you have Federal Employees Dental and Vision Insurance Plan (FEDVIP) coverage

Some FEHB plans already cover some dental and vision services. When you are covered by more than one vision/dental plan, coverage provided under your FEHB plan remains as your primary coverage. FEDVIP coverage pays secondary to that coverage. When you enroll in a dental and/or vision plan on BENEFEDS.com, you will be asked to provide information on your FEHB plan so that your plans can coordinate benefits. Providing your FEHB information may reduce your out-of-pocket cost.

Recovery rights related to Workers' Compensation

If benefits are provided by Aetna for illness or injuries to a member and we determine the member received Workers' Compensation benefits through the Office of Workers' Compensation Programs (OWCP), a workers' compensation insurance carrier or employer, for the same incident that resulted in the illness or injuries, we have the right to recover those benefits as further described below. "Workers' Compensation benefits" includes benefits paid in connection with a Workers' Compensation claim, whether paid by an employer directly, the OWCP or any other workers' compensation insurance carrier, or any fund designed to provide compensation for workers' compensation claims. Aetna may exercise its recovery rights against the member if the member has received any payment to compensate them in connection with their claim. The recovery rights against the member will be applied even though:

- a) The Workers' Compensation benefits are in dispute or are paid by means of settlement or compromise;
- b) No final determination is made that bodily injury or sickness was sustained in the course of or resulted from the member's employment;

c) The amount of Workers' Compensation benefits due to medical or health care is not agreed upon or defined by the member or the OWCP or other Workers' Compensation carrier; or

d) The medical or health care benefits are specifically excluded from the Workers' Compensation settlement or compromise.

By accepting benefits under this Plan, the member or the member's representatives agree to notify Aetna of any Workers' Compensation claim made, and to reimburse us as described above.

Aetna may exercise its recovery rights against the provider in the event:

a) the employer or carrier is found liable or responsible according to a final adjudication of the claim by the OWCP or other party responsible for adjudicating such claims; or

b) an order approving a settlement agreement is entered; or

c) the provider has previously been paid by the carrier directly, resulting in a duplicate payment.

Clinical trials

An approved clinical trial includes a phase I, phase II, phase III, or phase IV clinical trial that is conducted in relation to the prevention, detection, or treatment of cancer or other life-threatening disease or condition and is either Federally funded; conducted under an investigational new drug application reviewed by the Food and Drug Administration; or is a drug trial that is exempt from the requirement of an investigational new drug application.

If you are a participant in a clinical trial, this health plan will provide related care as follows, if it is not provided by the clinical trial:

- Routine care costs - costs for routine services such as doctor visits, lab tests, x-rays and scans, and hospitalizations related to treating the patient's cancer, whether the patient is in a clinical trial or is receiving standard therapy. These costs are covered by this Plan. See pages 50, 89 and 130.
- Extra care costs - costs related to taking part in a clinical trial such as additional tests that a patient may need as part of the trial, but not as part of the patient's routine care. We do not cover these costs. See pages 53, 92 and 133.
- Research costs - costs related to conducting the clinical trial such as research physician and nurse time, analysis of results, and clinical tests performed only for research purposes. We do not cover these costs. See pages 53, 92 and 133.

When you have Medicare

What is Medicare?

Medicare is a health insurance program for:

- People 65 years of age or older
- Some people with disabilities under 65 years of age
- People with End-Stage Renal Disease (permanent kidney failure requiring dialysis or a transplant)

Medicare has four parts:

- Part A (Hospital Insurance). Most people do not have to pay for Part A. If you or your spouse worked for at least 10 years in Medicare-covered employment, you should be able to qualify for premium-free Part A insurance. (If you were a Federal employee at any time both before and during January 1983, you will receive credit for your Federal employment before January 1983.) Otherwise, if you are age 65 or older, you may be able to buy it. Contact 1-800-MEDICARE (1-800-633-4227), (TTY 1-877-486-2048) for more information.
- Part B (Medical Insurance). Most people pay monthly for Part B. Generally, Part B premiums are withheld from your monthly Social Security check or your retirement check.
- Part C (Medicare Advantage). You can enroll in a Medicare Advantage plan to get your Medicare benefits. We offer a Medicare Advantage plan. Please review the information on coordinating benefits with Medicare Advantage plans on the next page.
- Part D (Medicare prescription drug coverage). There is a monthly premium for Part D coverage. If you have limited savings and a low income, you may be eligible for Medicare's Low-Income Benefits. For people with limited income and resources, extra help in paying for a Medicare prescription drug plan is available. Information regarding this program is available through the Social Security Administration (SSA). For more information about this extra help, visit SSA online at www.socialsecurity.gov, or call them at 1-800/772-1213 (TTY 1-800/325-0778). Before enrolling in Medicare Part D, please review the important disclosure notice from us about the FEHB prescription drug coverage and Medicare. The notice is on the first inside page of this brochure. The notice will give you guidance on enrolling in Medicare Part D.

• **Should I enroll in Medicare?**

The decision to enroll in Medicare is yours. We encourage you to apply for Medicare benefits 3 months before you turn age 65. It's easy. Just call the Social Security Administration toll-free number 1-800-772-1213 (SSA TTY 1-800-325-0778) to set up an appointment to apply. If you do not apply for one or more Parts of Medicare, you can still be covered under the FEHB Program.

If you can get premium-free Part A coverage, we advise you to enroll in it. Most Federal employees and annuitants are entitled to Medicare Part A at age 65 **without cost**. When you don't have to pay premiums for Medicare Part A, it makes good sense to obtain the coverage. It can reduce your out-of-pocket expenses as well as costs to the FEHB, which can help keep FEHB premiums down.

Everyone is charged a premium for Medicare Part B coverage. The Social Security Administration can provide you with premium and benefit information. Review the information and decide if it makes sense for you to buy the Medicare Part B coverage. If you do not sign up for Medicare Part B when you are first eligible, you may be charged a Medicare Part B late enrollment penalty of a 10% increase in premium for every 12 months you are not enrolled. If you didn't take Part B at age 65 because you were covered under FEHB as an active employee (or you were covered under your spouse's group health insurance plan and he/she was an active employee), you may sign up for Part B (generally without an increased premium) within 8 months from the time you or your spouse stop working or are no longer covered by the group plan. You also can sign up at any time while you are covered by the group plan.

If you are eligible for Medicare, you may have choices in how you get your health care. Medicare Advantage is the term used to describe the various private health plan choices available to Medicare beneficiaries. The information in the next few pages shows how we coordinate benefits with Medicare, depending on whether you are in the Original Medicare Plan or a private Medicare Advantage plan.

- **The Original Medicare Plan (Part A or Part B)**

The Original Medicare Plan (Original Medicare) is available everywhere in the United States. It is the way everyone used to get Medicare benefits and is the way most people get their Medicare Part A and Part B benefits now. You may go to any doctor, specialist, or hospital that accepts Medicare. The Original Medicare Plan pays its share and you pay your share.

All physicians and other providers are required by law to file claims directly to Medicare for members with Medicare Part B, when Medicare is primary. This is true whether or not they accept Medicare.

When you are enrolled in Original Medicare along with this Plan, you still need to follow the rules in this brochure for us to cover your care. Your care must continue to be authorized or precertified as required. Also, please note that if your attending physician does not participate in Medicare, you will have to file a claim with Medicare.

Claims process when you have the Original Medicare Plan – You will probably not need to file a claim form when you have both our Plan and the Original Medicare Plan.

When we are the primary payor, we process the claim first.

When Original Medicare is the primary payor, Medicare processes your claim first. In most cases, your claim will be coordinated automatically and we will then provide secondary benefits for covered charges. To find out if you need to do something to file your claim, call us at 1-888-238-6240.

We do not waive any costs if the Original Medicare Plan is your primary payor.

You can find more information about how our plan coordinates benefits with Medicare by calling 1-888/238-6240.

- **Tell us about your Medicare coverage**

You must tell us if you or a covered family member has Medicare coverage, and let us obtain information about services denied or paid under Medicare if we ask. You must also tell us about other coverage you or your covered family members may have, as this coverage may affect the primary/secondary status of this Plan and Medicare.

- **Medicare Advantage (Part C)**

If you are eligible for Medicare, you may choose to enroll in and get your Medicare benefits from a Medicare Advantage plan. These are private health care choices (like HMOs and regional PPOs) in some areas of the country.

To learn more about Medicare Advantage plans, contact Medicare at 1-800/MEDICARE (1-800-633-4227), (TTY 1-877-486-2048) or at www.medicare.gov.

If you enroll in a Medicare Advantage plan, the following options are available to you:

This Plan and our Medicare Advantage plan: You may enroll in our Medicare Advantage Plan and also remain enrolled in our FEHB Plan. If you are an annuitant or former spouse with FEHBP coverage and are enrolled in Medicare Parts A and B, you may enroll in our Medicare Advantage plan if one is available in your area. **We do not waive cost-sharing for your FEHB coverage.** For more information, please call us at 1-888/788-0390.

This Plan and another plan's Medicare Advantage plan: You may enroll in another plan's Medicare Advantage plan and also remain enrolled in our FEHB plan. We will still provide benefits when your Medicare Advantage plan is primary, even out of the Medicare Advantage plan's network and/or service area (if you use our Plan providers), but we will not waive any of our copayments, coinsurance, or deductible. If you enroll in a Medicare Advantage plan, tell us. We will need to know whether you are in the Original Medicare Plan or in a Medicare Advantage plan so we can correctly coordinate benefits with Medicare.

Suspended FEHB coverage to enroll in a Medicare Advantage plan: If you are an annuitant or former spouse, you can suspend your FEHB coverage to enroll in a Medicare Advantage plan, eliminating your FEHB premium. (OPM does not contribute to your Medicare Advantage plan premium.) For information on suspending your FEHB enrollment, contact your retirement office. If you later want to re-enroll in the FEHB Program, generally you may do so only at the next Open Season unless you involuntarily lose coverage or move out of the Medicare Advantage plan's service area.

- **Medicare prescription drug coverage (Part D)**

When we are the primary payor, we process the claim first. If you enroll in Medicare Part D and we are the secondary payor, we will review claims for your prescription drug costs that are not covered by Medicare Part D and consider them for payment under the FEHB plan. For more information, please call us at 1-800/832-2640. **See Important Notice from Aetna about our Prescription Drug Coverage and Medicare** on the first inside page of this brochure for information on Medicare Part D.

Medicare always makes the final determination as to whether they are the primary payor. The following chart illustrates whether Medicare or this Plan should be the primary payor for you according to your employment status and other factors determined by Medicare. It is critical that you tell us if you or a covered family member has Medicare coverage so we can administer these requirements correctly. **(Having coverage under more than two health plans may change the order of benefits determined on this chart.)**

These costs are covered by this plan. See pages 50, 89 and 130.

Clinical Trials Cost Categories

- Extra care costs - costs related to taking part in a clinical trial such as additional tests that a patient may need as part of the trial, but not as part of the patient’s routine care. We do not cover these costs. See pages 53, 92 and 133.
- Research costs - costs related to conducting the clinical trial such as research physician and nurse time, analysis of results, and clinical tests performed only for research purposes. We do not cover these costs. See pages 53, 92 and 133.

Coinsurance

Coinsurance is the percentage of our allowance that you must pay for your care. See page 26.

Copayment

A copayment is the fixed amount of money you pay when you receive covered services. See page 25.

Cost-sharing

Cost-sharing is the general term used to refer to your out-of-pocket costs (e.g., deductible, coinsurance, and copayments) for the covered care you receive.

Covered services

Care we provide benefits for, as described in this brochure.

Custodial care

Any type of care provided according to Medicare guidelines, including room and board, that a) does not require the skills of technical or professional personnel; b) is not furnished by or under the supervision of such personnel or does not otherwise meet the requirements of post-hospital Skilled Nursing Facility care; or c) is a level such that you have reached the maximum level of physical or mental function and such person is not likely to make further significant improvement. Custodial care includes any type of care where the primary purpose is to attend to your daily living activities which do not entail or require the continuing attention of trained medical or paramedical personnel. Examples include assistance in walking, getting in and out of bed, bathing, dressing, feeding, using the toilet, changes of dressings of noninfected wounds, post-operative or chronic conditions, preparation of special diets, supervision of medication which can be self-administered by you, the general maintenance care of colostomy or ileostomy, routine services to maintain other service which, in our sole determination, is based on medically accepted standards, can be safely and adequately self-administered or performed by the average non-medical person without the direct supervision of trained medical or paramedical personnel, regardless of who actually provides the service, residential care and adult day care, protective and supportive care including educational services, rest cures, or convalescent care. Custodial care that lasts 90 days or more is sometimes known as long term care. Custodial care is not covered.

Deductible

A deductible is a fixed amount of covered expenses you must incur for certain covered services and supplies before we start paying benefits for them. You must satisfy your deductible before your Traditional medical coverage begins.

Aetna Whole Health - Roanoke, VA (ACO Collaborator Carilion Clinic and strategic Network partner LewisGale Regional Health System)

This Plan offers two levels of benefits. In-network includes all Carilion and LewisGale providers and all Aetna participating providers. Out-of-network would be providers that do not participate with Aetna.

The annual deductible for in-network services is \$300 for Self Only, \$600 for Self & Family. For out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

Aetna Whole Health - Milwaukee, WI (Aurora Health Care)

This Plan offers two levels of benefits. In-network includes **only** Aurora Accountable Care Network providers. Out-of-network would be providers that participate with Aetna but are not a part of the Aurora Accountable Care Network and providers who do not participate with Aetna.

The annual deductible for in-network services is \$300 for Self Only, \$600 for Self & Family. For out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

Aetna Whole Health - Houston, TX (Memorial Hermann)

This Plan offers three levels of benefits. In-network preferred includes **only** Memorial Hermann providers. In-network participating includes providers that participate with Aetna but are not a part of Memorial Hermann. Out-of-network would be providers that do not participate with Aetna.

The annual deductible for in-network preferred services is \$300 for Self Only, \$600 for Self & Family. For in-network participating services and for out-of-network services the annual deductible is \$1,200 for Self Only, \$2,400 for Self & Family.

The Self and Family deductible can be satisfied by one or more members. The full Family deductible must be met for the plan of benefits to apply. There is no individual limit within the Family deductible.

Note: If you change plans during Open Season, you do not have to start a new deductible under your old plan between January 1 and the effective date of your new plan. If you change plans at another time during the year, you must begin a new deductible under your new plan.

If you change options in this Plan during the year, we will credit the amount of covered expenses already applied toward the deductible of your old option to the deductible of your new option.

Detoxification

The process whereby an alcohol or drug intoxicated or alcohol or drug dependent person is assisted, in a facility licensed by the appropriate regulatory authority, through the period of time necessary to eliminate, by metabolic or other means, the intoxicating alcohol or drug, alcohol or drug dependent factors or alcohol in combination with drugs as determined by a licensed Physician, while keeping the physiological risk to the patient at a minimum.

Emergency care

An emergency medical condition is one manifesting itself by acute symptoms of sufficient severity such that a prudent layperson, who possesses average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the person's health, or with respect to a pregnant woman, the health of the woman and her unborn child.

Experimental or investigational services

Services or supplies that are, as determined by us, experimental. A drug, device, procedure or treatment will be determined to be experimental if:

- There is not sufficient outcome data available from controlled clinical trials published in the peer reviewed literature to substantiate its safety and effectiveness for the disease or injury involved; or
- Required FDA approval has not been granted for marketing; or
- A recognized national medical or dental society or regulatory agency has determined, in writing, that it is experimental or for research purposes; or
- The written protocol or protocol(s) used by the treating facility or the protocol or protocol(s) of any other facility studying substantially the same drug, device, procedure or treatment or the written informed consent used by the treating facility or by another facility studying the same drug, device, procedure or treatment states that it is experimental or for research purposes; or
- It is not of proven benefit for the specific diagnosis or treatment of your particular condition; or
- It is not generally recognized by the Medical Community as effective or appropriate for the specific diagnosis or treatment of your particular condition; or

- It is provided or performed in special settings for research purposes.

Health care professional

A physician or other health care professional licensed, accredited, or certified to perform specified health services consistent with state law.

Medical necessity

Also known as medically necessary or medically necessary services. “Medically necessary” means that the service or supply is provided by a physician or other health care provider exercising prudent clinical judgment for the purpose of preventing, evaluating, diagnosing or treating an illness, injury or disease or its symptoms, and that provision of the service or supply is:

- In accordance with generally accepted standards of medical practice; and,
- Clinically appropriate in accordance with generally accepted standards of medical practice in terms of type, frequency, extent, site and duration, and considered effective for the illness, injury or disease; and,
- Not primarily for the convenience of you, or for the physician or other health care provider; and,
- Not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the illness, injury or disease.

For these purposes, “generally accepted standards of medical practice,” means standards that are based on credible scientific evidence published in peer-reviewed medical literature generally recognized by the relevant medical community, or otherwise consistent with physician specialty society recommendations and the views of physicians practicing in relevant clinical areas and any other relevant factors.

Plan allowance

Our Plan allowance is the amount we use to determine our payment and your coinsurance for covered services. Network provider plans determine their allowances in different ways. We determine our allowance as follows:

- Network Providers - we negotiate rates with doctors, dentists and other health care providers to help save you money. We refer to these providers as “Network Providers”. These negotiated rates are our Plan allowance for network providers. We calculate a member’s coinsurance using these negotiated rates. The member is not responsible for amounts that are billed by network providers that are greater than our Plan allowance.
- Non-Network Providers - Providers that do not participate in our networks are considered non-network providers. Because they are out of our network, we pay for out-of-network services based on an out-of-network Plan allowance. Here is how we figure out the Plan allowance.

We get information from Fair Health. Fair Health is a source for transparent, current and reliable health care change information. It is a national, independent not-for-profit corporation that offers unbiased data products and services to consumers, the health care community, employers, unions, government agencies, policy members and researchers. Health plans send Fair Health copies of claims for services they receive from providers. The claims include the date and place of service, the procedure code, and the provider’s charge. First Health combines this information into databases that show how much providers charge for just about any service in any zip code. Providers’ charges for specific procedures are grouped in percentiles from low to high. We use the 80th percentile to calculate how much to pay for out of network services. Payment of the 80th percentile means 80 percent of charges in the database are the same or less for that service in a particular zip code. We would use this 80th percentile amount as the Plan allowance. We use the Plan allowance when calculating a member’s coinsurance amount. The member would be responsible for any amounts billed by the non-network provider that are above this Plan allowance, plus their coinsurance amount.

Post-service claims	Any claims that are not pre-service claims. In other words, post-service claims are those claims where treatment has been performed and the claims have been sent to us in order to apply for benefits.
Pre-service claims	Those claims (1) that require precertification, prior approval, or a referral and (2) where failure to obtain precertification, prior approval, or a referral results in a reduction of benefits.
Precertification	<p>Precertification is the process of collecting information prior to inpatient admissions and performance of selected ambulatory procedures and services. The process permits advance eligibility verification, determination of coverage, and communication with the physician and/or you. It also allows Aetna to coordinate your transition from the inpatient setting to the next level of care (discharge planning), or to register you for specialized programs like disease management, case management, or our prenatal program. In some instances, precertification is used to inform physicians, members and other health care providers about cost-effective programs and alternative therapies and treatments.</p> <p>Certain health care services, such as hospitalization or outpatient surgery, require precertification with Aetna to ensure coverage for those services. When you are to obtain services requiring precertification through a participating provider, this provider should precertify those services prior to treatment.</p> <p>Note: Since this Plan pays out-of-network benefits and you may self-refer for covered services, it is your responsibility to contact Aetna to precertify those services which require precertification. You must obtain precertification for certain types of care rendered by non-network providers to avoid a reduction in benefits paid for that care.</p>
Preventive care	Health care services designed for prevention and early detection of illnesses in average risk people, generally including routine physical examinations, tests and immunizations.
Respite care	Care furnished during a period of time when your family or usual caretaker cannot, or will not, attend to your needs. Respite care is not covered.
Urgent care	Covered benefits required in order to prevent serious deterioration of your health that results from an unforeseen illness or injury if you are temporarily absent from our service area and receipt of the health care service cannot be delayed until your return to our service area.
Urgent care claims	<p>A claim for medical care or treatment is an urgent care claim if waiting for the regular time limit for non-urgent care claims could have one of the following impacts:</p> <ul style="list-style-type: none"> • Waiting could seriously jeopardize your life or health; • Waiting could seriously jeopardize your ability to regain maximum function; or • In the opinion of a physician with knowledge of your medical condition, waiting would subject you to severe pain that cannot be adequately managed without the care or treatment that is the subject of the claim. <p>Urgent care claims usually involve Pre-service claims and not Post-service claims. We will judge whether a claim is an urgent care claim by applying the judgment of a prudent layperson who possesses an average knowledge of health and medicine.</p> <p>If you believe your claim qualifies as an urgent care claim, please contact our Customer Service Department at 1-888/238-6240. You may also prove that your claim is an urgent care claim by providing evidence that a physician with knowledge of your medical condition has determined that your claim involves urgent care.</p>
Us/We	Us and we refer to Aetna Life Insurance Company.
You	You refers to the enrollee and each covered family member.

Section 11. Other Federal Programs

Please note, the following programs are not part of our FEHB benefits. They are separate Federal programs that complement your FEHB benefits and can potentially reduce your annual out-of-pocket expenses. These programs are offered independent of the FEHB Program and require you to enroll separately with no government contribution.

Important information about three Federal programs that complement the FEHB Program

First, the **Federal Flexible Spending Account Program**, also known as FSAFEDS, lets you set aside pre-tax money from your salary to reimburse you for eligible dependent care and/or health care expenses. You pay less in taxes so you save money. The result can be a discount of 20% to more than 40% on services/products you routinely pay for out-of-pocket.

Second, the **Federal Employees Dental and Vision Insurance Program (FEDVIP)** provides comprehensive dental and vision insurance at competitive group rates. There are several plans from which to choose. Under FEDVIP you may choose self only, self plus one, or self and family coverage for yourself and any eligible dependents.

Third, the **Federal Long Term Care Insurance Program (FLTCIP)** can help cover long term care costs, which are not covered under the FEHB Program.

The Federal Flexible Spending Account Program – FSAFEDS

What is an FSA?

It is an account where you contribute money from your salary **BEFORE** taxes are withheld, then incur eligible expenses and get reimbursed. You pay less in taxes so you save money. **Annuitants are not eligible to enroll.**

There are three types of FSAs offered by FSAFEDS. Each type has a minimum annual election of \$250. The maximum annual election for a health care flexible spending account (HCFSA) or a limited expense health care spending account (LEX HCFSA) is \$2,500.

- **Health Care FSA (HCFSA)** –Reimburses you for eligible health care expenses (such as copayments, deductibles, insulin, products, **physician prescribed** over-the-counter drugs and medications, vision and dental expenses, and much more) for you and your tax dependents, including adult children (through the end of the calendar year in which they turn 26) which are not covered or reimbursed by FEHBP or FEDVIP coverage or any other insurance.

FSAFEDS offers paperless reimbursement for your HCFSA through a number of FEHB and FEDVIP plans. This means that when you or your provider file claims with your FEHB or FEDVIP plan, FSAFEDS will automatically reimburse your eligible out-of-pocket expenses based on the claim information it receives from your plan.

- **Limited Expense Health Care FSA (LEX HCFSA)** – Designed for employees enrolled in or covered by a High Deductible Health Plan with a Health Savings Account. Eligible expenses are limited to dental and vision care expenses for you and your tax dependents, including adult children (through the end of the calendar year in which they turn 26) which are not covered or reimbursed, by FEHBP or FEDVIP coverage or any other insurance.
- **Dependent Care FSA (DCFSA)** – Reimburses you for eligible **non-medical** day care expenses for your child(ren) under age 13 and/or for any person you claim as a dependent on your Federal Income Tax return who is mentally or physically incapable of self-care. You (and your spouse if married) must be working, looking for work (income must be earned during the year), or attending school full-time to be eligible for a DCFSA.
- If you are a new or newly eligible employee you have 60 days from your hire date to enroll in an HCFSA or LEX HCFSA and/or DCFSA, but you must enroll before October 1. If you are hired or become eligible on or after October 1 you must wait and enroll during the Federal Benefits Open Season held each fall.

Where can I get more information about FSAFEDS?

Visit www.FSAFEDS.com or call an FSAFEDS Benefits Counselor toll-free at 1-877-FSAFEDS (1-877-372-3337), Monday through Friday, 9 a.m. until 9 p.m., Eastern Time. TTY: 1-800-952-0450.

The Federal Employees Dental and Vision Insurance Program – *FEDVIP*

Important Information

The Federal Employees Dental and Vision Insurance Program (FEDVIP) is separate and different from the FEHB Program and was established by the Federal Employee Dental and Vision Benefits Enhancement Act of 2004. **This Program provides comprehensive dental and vision insurance at competitive group rates with no pre-existing condition limitations for enrollment.**

FEDVIP is available to eligible Federal and Postal Service employees, retirees, and their eligible family members on an enrollee-pay-all basis. Employee premiums are withheld from salary on a pre-tax basis.

Dental Insurance

All dental plans provide a comprehensive range of services, including:

- Class A (Basic) services, which include oral examinations, prophylaxis, diagnostic evaluations, sealants and x-rays.
- Class B (Intermediate) services, which include restorative procedures such as fillings, prefabricated stainless steel crowns, periodontal scaling, tooth extractions, and denture adjustments.
- Class C (Major) services, which include endodontic services such as root canals, periodontal services such as gingivectomy, major restorative services such as crowns, oral surgery, bridges and prosthodontic services such as complete dentures.
- Class D (Orthodontic) services with up to a 24-month waiting period for dependent children up to age 19.

Vision Insurance

All vision plans provide comprehensive eye examinations and coverage for lenses, frames and contact lenses. Other benefits such as discounts on LASIK surgery may also be available.

Additional Information

You can find a comparison of the plans available and their premiums on the OPM website at www.opm.gov/insure/vision and www.opm.gov/insure/dental. These sites also provide links to each plan's website, where you can view detailed information about benefits and preferred providers.

How do I enroll?

You enroll on the Internet at www.BENEFEDS.com. For those without access to a computer, call 1-877-888-3337 (TTY, 1-877-889-5680).

The Federal Long Term Care Insurance Program – *FLTCIP*

It's important protection

The Federal Long Term Care Insurance Program (FLTCIP) can help pay for the potentially high cost of long term care services, which are not covered by FEHB plans. Long term care is help you receive to perform activities of daily living – such as bathing or dressing yourself - or supervision you receive because of a severe cognitive impairment such as Alzheimer's disease. For example, long term care can be received in your home from a home health aide, in a nursing home, in an assisted living facility or in adult day care. To qualify for coverage under the FLTCIP, you must apply and pass a medical screening (called underwriting). Federal and U.S. Postal Service employees and annuitants, active and retired members of the uniformed services, and qualified relatives, are eligible to apply. Certain medical conditions, or combinations of conditions, will prevent some people from being approved for coverage. You must apply to know if you will be approved for enrollment. For more information, call 1-800-LTC-FEDS (1-800-582-3337) (TTY 1-800-843-3557) or visit www.ltcfeds.com.

Pre-existing Condition Insurance Program (PCIP)

Do you know someone who needs health insurance but can't get it? The Pre-Existing Condition Insurance Plan (PCIP) may help.

An individual is eligible to buy coverage in PCIP if:

- He or she has a pre-existing medical condition or has been denied coverage because of the health condition;
- He or she has been without health coverage for at least the last six months. (If the individual currently has insurance coverage that does not cover the pre-existing condition or is enrolled in a state high risk pool then that person is not eligible for PCIP.);
- He or she is a citizen or national of the United States or resides in the U.S. legally.

The Federal government administers PCIP in the following states: Alabama, Arizona, District of Columbia, Delaware, Florida, Georgia, Hawaii, Idaho, Indiana, Kentucky, Louisiana, Massachusetts, Minnesota, Mississippi, North Dakota, Nebraska, Nevada, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wyoming. To find out about eligibility, visit www.pcip.gov and/or www.healthcare.gov or call 1-866-717-5826 (TTY): 1-866-561-1604.

2013 Rate Information for the Aetna Whole Health Plan

Non-Postal rates apply to most non-Postal employees. If you are in a special enrollment category, refer to the *Guide to Federal Benefits* for that category or contact the agency that maintains your health benefits enrollment.

Postal Category 1 rates apply to career employees covered by the National Postal Mail Handlers Union (NPMHU), National Association of Letter Carriers (NALC) and Postal Police bargaining units.

Postal Category 2 rates apply to other non-APWU, non-PCES, non-law enforcement Postal Service career employees, including management employees, and employees covered by the National Rural Letter Carriers' Association bargaining unit.

Special Guides to Benefits are published for American Postal Workers Union (APWU) employees (see RI 70-2A) including Material Distribution Center, Operating Services and Information Technology/Accounting Services employees and Nurses; Postal Service Inspectors and Office of Inspector General (OIG) law enforcement employees (see RI 70-2IN), Postal Career Executive Service (PCES) employees (see RI 70-2EX), and noncareer employees (see RI 70-8PS).

Career APWU employees hired before May 23, 2011, will have the same rates as the Category 2 rates shown below. In the Guide to Benefits for APWU Employees (RI 70-2A) this will be referred to as the “Current” rate; otherwise, “New” rates apply.

For further assistance, Postal Service employees should call:
 Human Resources Shared Service Center
 1-877-477-3273, option 5
 TTY: 1-866-260-7507

Postal rates do not apply to non-career postal employees, postal retirees, or associate members of any postal employee organization who are not career postal employees. Refer to the applicable *Guide to Federal Benefits*.
