
Section 2 How we change for 2007

Do not rely on these change descriptions; this Section is not an official statement of benefits. For that, go to Section 5 Benefits. Also, we edited and clarified language throughout the brochure; any language change not shown here is a clarification that does not change benefits.

Changes to High Option only

- Your share of the non-Postal premium will increase by 44% for Self Only or 53.7% for Self and Family

Changes to Standard Option only

- Your share of the non-Postal premium will increase by 19.1% for Self Only or 42.1% for Self and Family

Changes to both High and Standard Options

Plan now covers the following:

o Preventive Care for Adults

- Tetanus Diphtheria and Pertussis (Tdap) - person 19 to 64 years of age, with booster every ten years. The Tdap vaccine replaces the tetanus-diphtheria vaccine for those under the age of 64. For 65 and above, a tetanus-diphtheria booster is still recommended every ten years.

o Preventive Care for Children

- Hepatitis A - for all infants 12 to 23 months of age;
- Tetanus, Diphtheria and Pertussis (Tdap) - 11 to 12 years of age or for 13 to 18 years of age for those who did not previously receive the vaccination; and
- Rotavirus vaccine - infants between eight to thirty-two weeks of age.

o Organ Transplant to include the following organs:

- Heart-Lung
- Pancreas
- Lung: single/double
- Allogeneic transplants for: Phagocytic deficiency diseases (e.g., Wiskott-Aldrich syndrome)
