**NOTE: Retirement Services is suspending reporting of pending retirement audit data in February and March in order to ensure that new retirees receive the best service possible during this, the busiest time of the year. As always, all errors will be reported directly to the agencies, RS simply will not compile the reports that are typically provided.**

\*\*The table above shows the agency by retirement application error rates for agencies with at least 15 cases reviewed for the month indicated. The table shows the number of cases for the agency and the percent of cases with errors. If a case has more than one error, it is counted as a single case with an error. The Government-wide results are also shown.
