**ARTICLE 8
BASIC WORK WEEK· HOURS OF WORK**

8-1 ADMINISTRATIVE WORK WEEK

The basic administrative work week is controlled by 5 CFR 610 et.seq, which includes the following information contained in ARTICLE 8.

The administrative workweek is established as Sunday through Saturday with Sunday as the first day.

8-2 BASIC WORK WEEK

The basic work week is established as the first forty (40) hours worked during the administrative work week by each technician. Work schedules are approved through the chain of command to the HRO. Any changes to the work schedules for employees must have prior approval (normally two weeks) through the same process prior to implementation.

8-3 SHIFTS

- n.** Standard shift options are established as being: A schedule, eight and one half (8 ½) hours in length; 01- B schedule, nine and one half (9 ½) hours in length; or C schedule, ten and one half (10 ½) hours in length with one half (1/2) hour scheduled for lunch break.
- b.** Each technician is authorized a one half (1/2) hour of duty free time for a lunch break each day. The lunch periods will normally be scheduled near the mid-point of tire work shift.
- c.** Technicians scheduled to work through their normal scheduled lunch period will have the option to reschedule the lunch period or take a lunch break of twenty (20) minutes or less within close proximity to their work station and be available for work assignments.
- d.** Management will make every effort to coordinate the workload to allow the uninterrupted lunch break. If technicians are not allowed a one half (1/2) hour uninterrupted lunch break, they will be released one half (1/2) hour prior to the end of the scheduled shift or accrue compensatory time.
- e.** Areas requiring constant surveillance of telephones or equipment, when determined by the immediate supervisor to be in the best interest of the mission to continue surveillance over the authorized one half (1/2) hour lunch break, may work eight or nine hour shifts.

8-4 SPECIAL SHIFTESSIGNMENTS

The employer agrees that any technician 11 who requests to work a specific work schedule because of personal and/or family problems (i.e. to attend educational classes, single parents, sickness in the family) should be granted special consideration in work schedule selection. Work schedule changes must be requested through the supervisory chain to the HRO.

8-5 SHIFT CHANGE NOTIFICATION

Normally, technicians will be notified no less than two weeks in advance of a work schedule change. Normally, work schedules will be posted in each work area. Normally, technicians will be notified of unusual work duties no less than two weeks in advance. Shift differential, if authorized, for original shift will be paid if two week notice is not provided. Situations which impose immediate and unforeseen Work requirements as a result of natural phenomena or mission related circumstances beyond the employer's reasonable control or ability to anticipate are excluded from the two week notice requirement.

8-6 SHIFT REASSIGNMENT

The employer will not arbitrarily remove an individual who has routinely worked a shift, from that shift. When there is a mission driven need to support a night flying operation, every effort should be made to establish a normal afternoon shift schedule.

8-7 STANDBY

Standby is understood to mean: "At any time a technician is directed to standby at home or another location and be prepared to respond instantly, thus limiting the technicians activities, including social activities, then it is agreed upon that person is in a standby status, thus earning compensatory time".

8-8 BREAK TIME

One fifteen (15) minute break period is authorized for each four (4) hour period of continuous work. The break will not be combined with the lunch period.

8-9 PREMIUM PAY

All shift, holiday and Sunday premium pay will be paid as authorized by law or regulation. Request for Overtime or Holiday Premium Pay (AF Form 428) must be completed by supervisor and Unit commander and approved by 148th Financial Management Budget Officer or Comptroller and HRO prior to work being completed. In selecting qualified participants, technician seniority will be used, computed by Service Compensatory Date. Personnel scheduled to work Sundays and Holidays will be briefed as to their pay status prior to the scheduled work.

8-10 OVERTIME

a. The Union agrees that the determination of the necessity for overtime work (including the nature of the work, the need for special skills, the priority of productive or support effort and the number of employees required) is a function of management. First consideration for overtime will normally be given to the employees who are currently assigned to the job. The second consideration will be given to other employees in the area who are best qualified to the job where overtime work is required. Supervisors will make every effort to make an equitable rotation of overtime among the employees of the section concerned who best perform the required work. The supervisor will consider matters of health, safety, difference in individual productivity where supervision is either restricted or absent, special skills, mission requirements and continuity of work. If individual productivity, supervision, or special skills is a contributing factor the supervisor will inform employees involved.

b. Except in emergencies, in the assignment of overtime or additional duty, the Employer agrees to provide employees with a minimum of two (2) hours' notice.

**ARTICLE 9
PERFORMANCE MANAGEMENT**

9-1 PERFORMANCE MANAGEMENT SYSTEM

Performance Management is governed by MN ANGR 40-5 and MN GR 36-1. When a new or revised Position Description (PD) is implemented, the affected technician(s) will receive a copy and the new performance plan will be reviewed and updated as necessary.

9-2 OTHER DUTIES AS ASSIGNED

The term "other duties as assigned" as part of the position description is defined to mean reasonably related duties to the job/position. This does not preclude the Agency from assigning additional, though unrelated, duties. Work assignments shall not be in violation of prohibited personnel practices or any relevant law, rule, regulation and this agreement.

9-3 ADDITIONAL DUTIES

There are vacancies that exist from time to time that are not or cannot be filled due to management decisions; these duties may be equitably distributed among the remaining work force within the area of concern on a fair and equitable basis.

9-4 APPRAISALS OF UNION OFFICIALS

The time spent by Union representatives in the performance of their representational duties will not be taken into account when accomplishing their performance appraisal. Rather, the performance appraisal will be based solely on performance of their officially assigned work.

**ARTICLE 10
DETAILING OF TECHNICIANS**

10-1 DEFINITION

n. A detail is an official personnel action temporarily assigning a technician to a different established or pending position for a specified period of time, with the technician returning to the original position at the conclusion of the detail. A technician may be detailed for a maximum of 120 days per detail.

b. Details are intended to meet temporary emergency workload situations, absences of technicians, pending authorization and classification of new positions or other types of manpower needs that cannot be met by normal personnel placement actions.

10-2 PROCEDURE

Management realizes and acknowledges that details of technicians out of their specialty must be used in a judicious manner. Therefore the following procedures are established:

a. Qualified volunteers for details will be sought and accepted before non-volunteers are assigned.

b. When an inadequate number of qualified technicians volunteer for a detail, the employer agrees to rotate the assignment among the qualified individuals in the area of concern.

c. To the extent possible the employer agrees to fill all technician position vacancies that may impact on bargaining unit members rather than use details.

d. It is recognized that there may be isolated instances when management cannot apply these procedures. In those instances, management agrees to explain the circumstances to the affected technicians.

10-3 RECORDING OF DET&ILS

Official details will be recorded on SF Form 52 at the time the action occurs.

10-4 TEMPORARY PROMOTION

When the employer requires the duties of a higher-grade position, to be performed for two or more full pay periods, the technician will be temporarily promoted rather than detailed. A temporary promotion will not be considered Pre-selection. HRO will approve all such temporary promotions. A SF 52 will be submitted to the HRO for approval no later than seven (7) working days prior to the first day of the temporary promotion. If the temporary promotion is to last for a period of one hundred twenty (120) days or longer, the MNGRN 36-1 (AIR) procedures will apply.

ARTICLE 11 Temporary Duty (TDY)

11-1 GENERAL

A TDY will be announced to the Union as soon as information of the assignment is available. Union/Management Pre-Decisional Involvement (PDI) will be incorporated in all deployments and TDYs. Selection of technicians for temporary duty assignments will be based upon official necessity and qualifications of the individual to best perform the mission required without regard to sex, race, religion or national origin. So far as necessary in the full performance of their position duties, technicians are responsible for responding to temporary duty assignments in the same manner as to duties at their permanent duty station. The employer agrees to attempt to insure that problems created by TDY assignments will have a minimal impact on morale of the individual technician. Information on the assignment will be made known on a continuing basis to the affected technicians as it becomes available. Technician employees will be housed in accordance with AFI 34-246. (AFI 34-135)

11-2 MODE OF TRANSPORTATION

Technicians will use the method of transportation administratively authorized as per Joint Travel Regulations or other lawful regulations. Any person traveling by a mode of transportation other than the authorized means shall be paid only for the per diem for travel by that mode. A technician with a medical certification that prohibits flying shall not be required to travel by aircraft and may use other methods of transportation.

11-3 TDY ANNOUNCEMENT POSTING

When announcing a TDY of seven (7) days or more, for which bargaining unit members are required, the affected personnel will be provided the following information:

- a. Technician status or leave status.
- b. Mode of transportation.
- c. Number of technicians required.
- d. Lodging plans
- e. TDY, or site transportation (rental cars).
- f. A proposed work schedule and schedule of events.

Time spent for official travel away from the permanent duty station is considered hours worked.

ARTICLE 12
ENVIRONMENTAL DIFFERENTIAL PAY COMMITTEES

12-1 ENVIRONMENTAL DIFFERENTIAL PAY

- a.** Environmental Differential Pay (EDP)/Hazardous Duty Pay (HOP) will be paid as outlined in 5 CFR or applicable regulations when technicians are exposed to the severe nature of hazards, physical hardships or working conditions. It is recognized that all reasonable measures will be taken to practically eliminate or reduce the dangers or risks which contribute to, or cause the hazard, physical hardship or working condition.
- b.** Environmental Differential Pay (EDP) and Hazardous Duty Pay (HDP) are governed by MNGR 40-13 (Air) and by 5 CFR Parts 532 and 550.
- c.** Any changes to existing practices or policies on EDP/HDP will be governed by the Minnesota National Guard Regulation after appropriate impact and implementation bargaining.
- d.** All safety information relating to EDP/HDP shall be provided to the Union upon request.

**ARTICLE 13
HEALTH, SAFETY, AND WELFARE**

13-1 COMBINED SAFETY AND AFOSH COUNCIL MEETING

- a. The Occupational Safety and Health (OSH) Council has been established to provide a forum for discussion of OSH problems and to make recommendations to the Commander on OSH related matters.
- b. The Council meets quarterly to discuss OSH problems and to resolve Hazard Reports, AF Form 457, that are not resolved at a lower level.
- c. The Labor Organization will be notified of the Council agenda items that deal with technician orientated OSH matters or labor submitted Hazard Reports.
- d. Labor Organization Representatives will be part of the council.

13-2 WORKERS' COMPENSATION

Technicians shall immediately report job connected injuries or illness to their supervisor. The supervisor, with the technician, shall insure proper procedures are followed and that all necessary documents are completed. When the technician is incapacitated and unable to notify the supervisor of injury or illness, it shall be Management's responsibility to initiate required procedures as soon as they are aware an incident has occurred. Local processing of workers' compensation claims will be coordinated with the HRO. In all situations involving federal workers' compensation, the HRO is available to assist the technician and if necessary ensure all required procedures are accomplished. In the event of a workers' compensation claim, Management will advise the technician as to their entitlements and obligations under the Federal Employees Compensation Act.

13-3 EXTREME COLD/EXTREME HEAT

The employer and the Labor Organization mutually recognize the hazards of working in extremely cold temperatures, while at the same time, acknowledge the necessity for accomplishing certain tasks to varying extent even in the most extreme temperatures. It is acknowledged that it is the responsibility of each technician to insure the adequacy of cold weather gear worn and to make full and proper use of all such protective equipment prior to venturing out into extreme temperatures. Authorized foul/cold weather protective gear will be furnished by the employer at no cost to the technician.

- a. Management acknowledges that there are certain cold factors beyond which technicians are incapable of performing sustained work.
- b. The exposure time superimposed on the National Weather Service wind-chill index table indicating the duration of outside work that may be performed without rotation will be used. A fifteen (15) minute warm-up period is agreeable.
- c. It is realized that tolerance between individuals differ and that the type of outside work being accomplished affects the body heat generated by a worker, therefore, common sense must be applied along with the above indicated maximum exposure time.
- d. Exposure to extreme cold or extreme heat shall be governed by the Base Instruction (DANGBI 91-208) as agreed to through the base partnership process.

13-4 TDY SAFETY

When technicians are sent to repair an aircraft or other equipment out of commission at other than home station, full consideration will be given by the employer to the method, the means, and the appropriate number of personnel by which such repair should be accomplished, to insure both expeditious job accomplishment and safety of personnel.

13-5 SAFETY GLASSES

The employer will provide safety glasses with prescription lenses to those technicians whose technician job requires safety glasses and have a medical requirement for prescription lenses. The request and justification will be approved by the technician's supervisor. The required I 48FW Form 43 is available through the ground safety office. The technician will furnish a current eye glass prescription or a new prescription as vision changes occur. The lenses and frames will meet AFOSH standards. The lens will be clear or transitional

13-6 PROTECTIVE CLOTHING

All protective clothing and equipment authorized by applicable regulations and Tables of Authority (TA) will be provided by the employer at no cost to any technician.

- a. The employer will furnish and replace as needed uniforms ready to wear, with all appropriate rank insignia, patches and any other cloth attachments properly sewn on.
- b. Coveralls will be supplied and laundered by the Agency and worn by technicians during actions that would expose the technician to a high level of dirt or grease. Coveralls and uniforms contaminated with JP-8 or other solvents and toxic substances identified by MSDSs will also be laundered by the Agency.

13-7 SAFETY FOOTWEAR

- a. The intent of this agreement is to afford an alternative avenue to acquire appropriate safety footwear.
- b. The parties do not intend to alter the appearance of the military uniform or relax militarily prescribed uniform standards.
- c. Full-time personnel, who by the nature of their duty positions, are authorized to obtain safety footwear and be reimbursed at the replacement cost. **(Personnel must first utilize the supply system prior to purchasing such footwear) (See Base Safety Boot Program)**

13-8 PHYSICAL FITNESS

Employees are authorized to participate in the physical fitness as per guide lines established by JFMN-J1-H. Supervisors should make every effort to ensure all employees have the opportunity to participate. Employees may be allowed up to 90 minutes of duty time for PT 3 times per week.

13-9 TECHNICIAN PROGRAMS

The parties recognize the importance of programs established for the welfare of technicians. The Employer and the Labor Organization agree to encourage technician participation in appropriate programs.

- a. Objectives: The objective of the Employee Assistance Program (EAP) is to identify and assist tecrucial1s with behavioral or personal problems which impact upon work performance or disrupt interpersonal relations with other technicians in the immediate work environment.
- b. Applicable Directives: TPR 752 & TPR 792 provide guidance for these programs and will be used in determining technician assistance actions.

13-10 LOSS OF ESSENTIAL SERVICES

In situations where essential services are disrupted and not expected to be restored for an extended period of time, affected employees shall be allowed to relocate to a safer working environment or be considered for placement into administrative leave status. Senior Leadership will inform Union Leadership of these situations and discuss available options.

ARTICLE 14 LEAVE

14-1 GENERAL

Joint Forces Minnesota Regulation (JFMNR) 690-990-2 establishes the basic leave policies for employees of the MN ANG. The employer will make no changes to any provision of the plan without first consulting and/or impact and implementation bargaining with the Labor Organization,

14-2 ANNUAL LEAVE

- a. Annual leave will be administered on a uniform and equitable basis within the scope of applicable regulations.
- b. Each employee will be allowed to schedule/use annual leave in the amount that will normally accrue during the current leave year. The employer will make every reasonable effort to honor the leave requests for the employees. Annual leave is an employee right, subject to the approval of the head of the department. In situations where there are more employees requesting leave for a particular period than can be approved due to mission requirements, the supervisor will consider mission accomplishment and seniority when granting leave.
- c. Requests for emergency leave will be considered on an individual basis. Employees will call their supervisor as close as possible to the start of the work shift for approval of emergency leave, stating the reason for the request and the approximate length of time he/she expects to be absent from work. In the event the leave is denied, the supervisor will advise the employee of the specific reason.
- d. Annual leave will be charged to an employee's account in fifteen (15) minute increments.
- e. A maximum of two hundred forty (240) hours of accumulated leave may be carried forward to the new leave year without forfeiture, Individual requests for carry over of annual leave in excess of two hundred forty (240) hours will be accomplished in accordance with JFMNR 690-990-2. Supervisory recommendations to do so must be in writing and forwarded to the HRO thirty (30) days prior to the end of the current leave year, with appropriate documentation attached.
- f. Employees who are dissatisfied with the administration of their leave may have the matter resolved under the grievance procedure established in this agreement.

14-3 SICK LEAVE

- a. Sick leave will be authorized in bona fide cases and may be granted orally or may require acceptable evidence. It is the responsibility of the employee to provide information for the supervisor to ascertain whether absences are properly chargeable to sick leave. It is the employee's duty to inform the supervisor on a daily basis of the need for sick leave. The employee must accomplish this notification as close as possible to the start of the work shift. Medical certificates may be required under the following conditions:
 - (1) For absence in excess of three (3) workdays.
 - (2) For absences of short periods at frequent intervals whenever there is reason to believe that the sick leave privilege is being abused, in such cases, the employee will be advised that a medical certificate will be required to support any future grants of sick leave regardless of duration. This will be annotated on the employee's NGB Form 904-L. The employer will review the sick leave record of those employees required to present a medical certification for each sick absence at least every six (6) months to determine if the requirement should continue. The supervisor will inform the employee upon cancellation of the requirement to provide documentation.
- b. Sick leave is authorized upon request for all dental, optical, and doctor appointments including reasonable travel time as necessary for both local and non-local appointments.

14-4 FAMILY AND MEDICAL LEAVE

- a. The Family and Medical Leave Act (FMLA) of 1993 became effective on August 5, 1993. The FMLA provides certain federal employees with entitlement to a total of twelve (12) administrative workweeks of unpaid leave during any twelve-month period in the following situations:
 - (1) The birth of a child and the care of the newborn baby,
 - (2) The placement of a child with the employee for adoption or foster care.
 - (3) The care of the employee's spouse, son, daughter, or parent with a serious health condition.
 - (4) A serious health condition of the employee that makes the employee unable to perform the essential functions of his/her position.
- b. Under FMLA an employee may elect to substitute paid time off (i.e., annual leave, sick leave, compensatory time off, or credit hours under a flexible work schedule) for leave without pay, consistent with current laws and regulations governing these leave categories. The employer may substitute paid leave as appropriate within the

applicable regulations and consistent with the FMLA. Under certain circumstances with the employer's approval, this leave may be taken on an intermittent basis rather than all at once, or the employee may work under a work schedule that is reduced by the number of hours of leave taken as family and medical leave. The employee may continue health benefits while he/she is on leave and is entitled to be returned to the same position or to an equivalent position with equivalent benefits, pay, status, and other terms and conditions of employment.

14-5 TRAUMATIC LEAVE

Federal employees are entitled to a Continuation of Pay (COP) status for a period not to exceed forty-five (45) days for any covered incapacitating injury or recovery period required by a doctor.

NOTE: Early filing of a worker compensation claim form (Federal Employee's Notice of Traumatic Injury and Claim for Continuation of Pay Compensation (CA-1) or Notice of Occupational Disease and Claim for Compensation (CA-2)) is essential to assure full coverage for any job related injury or illness.

14-6 MILITARY LEAVE

a. Military leave is a special form of administrative leave granted to federal government employees for the purpose of performing military active and inactive duty on an annual basis. Military leave is credited to a full-time employee on the basis of an eight (8) hour workday. Therefore, a full-time employee working a 40-hour workweek will accrue 120 hours each fiscal year (15 days x 8 hours = 120 hours), or the equivalent to three 40-hour workweeks. Military leave may be charged for the hours that the employee would have worked and received pay per that day's work schedule. Members will not be charged military leave for weekends, holidays or other non-scheduled workdays within the period of military service. Employees who request military leave for inactive duty for training (which is normally 4 hours) will be charged only the amount of military leave necessary to cover the period of training. Hours in the civilian workday that are not chargeable to military leave must be worked or charged to another leave category, as appropriate. If all accrued military leave is not used, a maximum of 240 hours may be carried over to the next fiscal year. Employees are not required to use military leave prior to the use of other appropriate leave,

b. Technicians who are required to participate in operations outside of the United States (Title 10 duty) and choose to do so on "non-pay" orders for the portions of their military work week that are the same as their technician work week (i.e. they are on non-pay military orders Monday through Friday) may use up to an additional 44 days of military leave so that they will receive their technician pay check rather than their military pay. This new category of leave is provided for by 5 U.S.C. § 6323 (D). This type of military leave is only charged for work hours and is charged in the same manner as annual leave. A technician using this type of leave must be on Title 10 "non-pay" duty when they use it. The Command of the technician can publish a series of orders that place the technician on "non-pay" orders for the technician work week and on "for pay" military orders on the weekend if appropriate. Even though the technician is being paid by the technician pay system while they are in this status, the military rules apply to all aspects of their duties.

14-7 LEAVE WITHOUT PAY (LWOP)

LWOP is an approved absence without pay upon the employee's request. The employer agrees to consider LWOP upon the request of the employee for situations such as:

- a. Job related training/education that would be of benefit to the Agency.
- b. Recovery from illness and/or disability.
- c. Personal/family emergencies.

14-8 ADMINISTRATIVE LEAVE

a. Employees may be granted administrative leave to perform acts or services that the BRO has determined to be an activity that would benefit the federal government and the National Guard.

b. *Funeral Leave.* Administrative leave is granted to federal employees not in excess of four (4) hours to attend the funeral of deceased current or former members of the National Guard, current or former employees of the Minnesota National Guard and civil leaders from local communities. Employees may also be granted leave to participate as an active pallbearer, a member of a firing squad or a guard of honor if otherwise on appropriate orders. No government transportation is authorized.

c. *Leave for Blood Donation.* The employer and the Labor Organization recognize the importance and humanitarian need for community blood donors. Administrative leave for donation of blood may be authorized up to four (4) hours at the work site if the employee is not able to return to work. Employees donating blood are not guaranteed four (4) hours off work. Employees must return to the work site. If unable to return to the work site (because they are faint or weak), the employee will stay at the donation site for up to four (4) hours.

d. Jury duty/official witness:

- (1) Court leave applies to both permanent and indefinite; either full-time or part-time employees.
- (2) Employees must be under proper summons from a court to serve on a jury. There will be no charge to leave for the entire period, regardless of the number of hours per day or days per week they actually serve on the jury. Employees that are dismissed due to non-selection for jury duty must return to their work site for the remainder of the day.

e. Voting. Administrative leave is authorized only when polls are not open at least three (3) hours before or after regularly scheduled duty hours.

f. Volunteer firefighters will be granted excused absence when responding to emergencies or medical emergencies, workload permitting.

g. Interviews. Employees who have applied for a new position will attend their interview in a duty status. There is no leave charged for the interview or the travel involved with these interviews. Employees interviewing for positions outside the Agency will use annual leave, LWOP, or compensatory leave.

14-9 COMPENSATORY TIME

a. Overtime pay is not authorized for National Guard employees. Compensatory time will be given to employees on an hour for hour basis for the amount of time spent by them in overtime work in excess of their scheduled tour of duty in accordance with applicable regulations. The employee is encouraged to document or explain circumstances that would justify a greater amount of compensatory time. Any employee called back to work outside the basic workweek shall be given a minimum of two hours compensatory time.

b. The administration of any necessary overtime work is solely a function of the employer. Factors which will be considered include: the nature of the work, the need for special skills, the priority of productive or support effort, and the numbers of employees required. The employer may also consider qualifications of employees in the functional area currently assigned a particular job, and outside activities of the employee. Employees will be selected for overtime work on a fair and equitable basis consistent with job and skill requirements.

c. Compensatory time may be used for performance of inactive duty training or active duty for training instead of annual leave or leave without pay.

d. Employees retiring or resigning should use accrued compensatory time prior to termination. Lump sum payment for unused compensatory time is not authorized.

e. Compensatory time will be administered between the supervisor and the individual concerned. Such time will be administered in the same manner as annual leave. Compensatory time should be taken within twenty-six (26) pay periods from the pay period which it was earned. At the end of the twenty-sixth pay period after which it was earned, any unused compensatory time will be forfeited. It is the employee's responsibility to request use of the compensatory time to avoid its loss. Supervisors will grant compensatory time, which will be lost if not used.

14-10 LEAVE TRANSFER

The leave transfer program is a program to donate leave to another employee's leave account or transfer annual leave to other federally employed family members in leave share programs. When the need arises, this program will be implemented in accordance with applicable regulations current at the time the need exists. Changes to implementing instructions will be impact bargained.

14-11 LEAVE OF ABSENCE

The employer agrees that when adequate advance written notice is given, an employee in the unit who has been elected or appointed to a Labor Organization office, or as a delegate to a Labor Organization activity requiring an extended leave of absence, shall be granted annual leave and/or leave without pay. Such leave of absence shall not exceed one (1) year for each application.

**ARTICLE 15
MERIT PLACEMENT PLAN**

15-1 MERIT PLACEMENT

The current Merit Placement Plan MNGR 36-1 (Air) will apply to all bargaining-unit position hiring, upgrades, and other selection process procedures.

15-2 ABSENT DURING POSTING PERIOD

The individual who is absent is responsible for keeping informed and making applications for jobs that come open during their absence.

15-3 TRAINING

Managers, supervisors, and Union officials will be offered annual training on merit placement.

ARTICLE 16 GRIEVANCE PROCEDURES

Civilian Technicians within the bargaining unit are required to use this agreed to grievance procedure as a means of resolving all complaints covered by this article. The technician retains the right to request Labor Organization representation in the grievance procedure or to decline such representation. If the technician chooses not to have representation, that waiver must be in writing. The Labor Organization will be served a copy of this waiver. A grievance will be formally presented normally not later than **FORTY FIVE (45) DAYS** after the grievance took place or the individual becomes aware of the events that constitute the grievance, whichever is later. 16-6 TECHNICIAN RIGHTS

All technicians have the right to present their grievances to the appropriate management officials for prompt consideration. This procedure provides a means for the prompt and orderly consideration and resolution of technician(s) or Labor Organization grievances. In exercising this right, the technician(s) and the representative will be free from restraint, coercion, discrimination, or reprisal.

INFORMAL GRIEVANCE. It is agreed that settling of problems may be accomplished verbally before becoming formal. At this informal stage, the technician and the representative should meet with the supervisor/manager concerned and attempt to resolve the issue(s) that caused the grievance. This step is encouraged by both the Employer and the Labor Organization.

FORMAL GRIEVANCE. If a settlement cannot verbally be agreed to, the following procedure will be utilized:

STEP 1 The grievance will be prepared in writing, on the attached form. The grievance will be presented to the lowest level employer representative with authority to resolve the grievance. The grievance will be discussed at the time of presentation. 16-13 ARBITRATOR SELECTION

When arbitration is invoked, the party invoking arbitration may request a list of seven arbitrators from the Federal Mediation and Conciliation Service (FMCS) and concurrently inform the other party of its intent. Within seven (7) working days of receiving the list, both parties shall meet to select an arbitrator. If agreement cannot be reached regarding the selection of an arbitrator, then the parties will alternately strike the names from the list until only one (1) name remains. The individual's name remaining will be duly selected to hear the grievance. The party requesting arbitration will strike first. The parties agree that if the selected arbitrator is unavailable to hear the grievance within thirty (30) days the parties may select a new arbitrator using the above procedures. If either party falls to participate in the selection process, the arbitration action will proceed with the requesting party accomplishing the selection.

Such negotiations will take place prior to any announcement of the proposed management action, which could adversely affect a bargaining unit member's condition of employment. ARTICLE 18
REDUCTION-IN-FORCE

18-1 GENERAL

The Adjutant General is responsible for implementing a reduction-in-force. The Union will be notified immediately upon the Adjutant General's receiving notification of a RIF. Procedures relating to reduction-in-force will be governed by provisions of National Guard Bureau Regulation TPR 351 and 5 USC. The detailed procedure to effectuate this article will be in accordance with Article 17 (IMPACT BARGAINING FOR APPROPRIATE ARRANGEMENTS) of the Labor Management Agreement. Further, it is agreed between the parties that procedures used by management officials in exercising their authority are negotiable and to that extent the Adjutant General in recognizing the responsibility of the Labor Organization to represent the bargaining unit, agrees to negotiate appropriate arrangements for the bargaining unit adversely affected by implementation of this article.

ARTICLE 19
EMPLOYEE REPRESENTATIVE TITLE

19-1 TECHNICIAN TITLE

Communications, either verbal or written, when directed to a Federal Civil Service Technician in his/her capacity as a Labor Organization representative shall not include any reference to that employee's title, status or rank within any other organization outside of the recognized bargaining unit.

MORALE

21-1 AWARDS

Management will encourage supervisors to submit deserving technicians for awards and will promote maximum distribution of awards based on submission, JFMNR 690-451 and available funding. Annually and on the occurrence of each major funding change required in the program, the Union president will be briefed as to the funding level and status of the awards program.

21-2 LOCAL TELEPHONE CALLS

Local telephone calls, including personal calls (such as calls to speak to spouse/child or to offices that close before the end of work shift, to arrange for emergency repairs to residence or automobile) may be made during work hours. If these calls are long distance calls, they must be charged to the employee's home telephone or other non-government number. Occasional calls of this nature are acceptable. Abuse of this privilege may result in restrictions on the capability. Employees on temporary duty away from their home duty station will be allowed one brief personal phone call home per day if their absence will last longer than 24 hours. For these phone calls, government systems that allow for no additional cost will be utilized to the maximum extent possible. The 148FW Form 54 must be completed and signed by the member's supervisor prior to payment if a no-cost call cannot be made.

21-3 TOBACCO USE

All Agency buildings or areas where employees work are designated as tobacco free. Tobacco use is only permitted outside of buildings or designated smoking areas. The parties recognize that no special rules governing break time exist for tobacco users. They may take the standard fifteen (15) minute break or up to three (3) breaks of no more than five (5) minutes each.

c. The Labor Organization and the employer agree to continue the partnership system. Any changes to partnership agreements must be negotiated by the partnership first; or if the partnership system is to be dissolved, all issues covered by partnership agreements will be opened for re-negotiation under this contract.
