2017 FEDERAL EMPLOYEE VIEWPOINT SURVEY METHODS

The Federal Employee Viewpoint Survey (FEVS) measures employees' perceptions of conditions within their agencies, which contribute to their organization's success. The survey allows government employees to share their opinions about what matters most to them, and gives them the opportunity to let their leadership know how they feel about their job, their supervisor, and their agency. OPM and agency managers use these indicators in developing policy and planning actions to improve agency performance and evaluate individual agencies' progress towards long-term goals.

Federal employees have an intimate knowledge of the workings of the government at every level. The FEVS gives them the voice they need to point out inefficiencies and jobs well done. Senior managers can then use this information to make government more effective, and more responsive to the needs of the American people. Reports are offered to help managers at agency and subagency levels, resulting in a greater potential to celebrate successes and identify opportunities for change across each agency.

Survey Items

The 98-item survey includes 84 items that measure Federal employees' perceptions about how effectively agencies manage their workforce, as well as 14 demographic questions. The survey is grouped into eight topic areas: (1) Personal Work Experiences, (2) Work Unit, (3) Agency, (4) Supervisor, (5) Leadership, (6) Satisfaction, (7) Work/Life Programs, and (8) Demographics.

Who Participated?

Full-time and part-time, permanent, non-seasonal employees were eligible to participate in the survey. A total of 80 agencies (37 departments/large agencies and 43 small/independent agencies) participated in this year's survey. Of the 1,068,151 employees who received the FEVS, 486,105 completed the survey for a governmentwide response rate of 45.5 percent.

How Was the Survey Administered?

The survey was a self-administered Web survey.

When Were Employees Surveyed?

Agency launch dates were organized in two waves this year, with approximately 6-week administration periods beginning May 2nd and May 9th.

Data Weighting

Data collected from the 2017 survey respondents were weighted to produce survey estimates that accurately represent the survey population. Unweighted data could produce biased estimates of population statistics. The weights developed for the 2017 FEVS take into account the variable probabilities of selection across the sample domains, nonresponse, and known demographic characteristics of the survey population. Thus, the final data set reflects the agency composition and demographic makeup of the Federal workforce within plus or minus 1 percentage point.

Data Analysis

In performing statistical analyses for this report, OPM employed a number of grouping procedures to simplify presentations. Most of the items had six response categories: Strongly Agree, Agree, Neither Agree nor Disagree, Disagree, Strongly Disagree, and No Basis to Judge/Do Not Know. In some instances, these responses are collapsed into one positive category (Strongly Agree and Agree), one negative category (Strongly Disagree and Disagree), and a neutral category (Neither Agree nor Disagree). We conducted analyses on all survey items for the various agencies. Responses of Do Not Know/No Basis to Judge were removed before calculation of percentages. More detailed survey statistics are available in the published Federal Employee Viewpoint Survey Data volumes for this survey and can be downloaded from OPM's Federal Employee Viewpoint Survey website: **www.opm.gov/FEVS**.
