Attachment 2: Corrective Action Plan Template for 2016

Carriers must submit a Corrective Action Plan (CAP) using this template for each FEHB Plan Performance Assessment measure below the 25th percentile as reflected in the QCR Report that accompanied the Overall Performance Score Report. Within the CAP, please specify a 90-day implementation plan to improve the care associated with the identified measure.

In the table below, please indicate the measure(s) that require a CAP.

<table>

<tr>
<td>Prenatal and Postpartum Care (Timeliness of Prenatal Care) – (PPC)</td>
<td>☐</td>
</tr>
<tr>
<td>Well-Child Visits in the First 15 Months of Life (W15)</td>
<td>☐</td>
</tr>
<tr>
<td>Flu Vaccinations for Adults 18-64 (FVA)</td>
<td>☐</td>
</tr>
<tr>
<td>Medical Assistance with Smoking and Tobacco Use Cessation - Advising Smokers to Quit (MSC)</td>
<td>☐</td>
</tr>
</tbody>
</table>
For each CAP, provide the following information in 750 words or less.

1. HEDIS Measure: ________________________________

2. Plan Analysis
   - Analysis: Strengths and weaknesses of current quality practices related to this measure.
   - Barriers: Identify potential barriers to improvement in results. If this is a second or third CAP for this measure, include an evaluation of why you have not achieved expected results to date.
   - Outreach: Estimate the number of health plan members that need to be engaged to increase the score to at least the 25th percentile.

3. Action Steps
   - Action Outline: List in-depth steps in your Corrective Action Plan to raise the score to at least the minimum threshold. If your score has fallen below the threshold for 2 or more years, discuss new or different actions this year to improve performance to the minimum threshold.
   - Classification: OPM strongly encourages Carriers with performance below the 10th percentile benchmark to develop novel\(^1\) actions, rather than reinforcement\(^2\) actions, to increase quality performance.
   - Action Timeline: Identify the start date, and if applicable, end date of each action step.
   - Progress Projection: Identify the projected improvement results including a timeline of when improvement can be expected.
