
Section 2. How we change for 2008

Do not rely only on these change descriptions; this Section is not an official statement of benefits. For that, go to Section 5 Benefits. Also, we edited and clarified language throughout the brochure; any language change not shown here is a clarification that does not change benefits.

Changes to the High Option

- Your share of the non-Postal premium will increase for Self Only and Self and Family.
- You will now have a \$50 copayment for each high tech imaging visit (magnetic resonance imaging (MRI), magnetic resonance angiography (MRA), computerized tomography scans (CT), positron emission tomography scans (PET), single proton emission computerized tomography scans (SPECT), and all cardiac nuclear medicine studies (see page 21).
- You will now have coverage up to a \$800 maximum for one hearing aid per ear purchased within a period of 36 months (see page 29).
- You will now have a \$20 per visit copayment for rehabilitation therapy evaluations and re-evaluations rendered in a home setting (see page 28).

Changes to the Standard Option Plan

- Your share of the non-Postal premium will increase for Self Only and for Self and Family.
- You will now have a \$15 primary care physician copayment (see page 20).
- You will now have a \$25 after hours visit copayment with the primary care physician (see page 20).
- You will now have a \$35 specialist copayment (see page 20).
- You will now have a \$50 copayment for each high tech imaging visit (magnetic resonance imaging (MRI), magnetic resonance angiography (MRA), computerized tomography scans (CT), positron emission tomography scans (PET), single proton emission computerized tomography scans (SPECT), and all cardiac nuclear medicine studies (see page 21).
- You will now have coverage up to a \$800 maximum for one hearing aid per ear purchased within a period of 36 months (see page 29).
- You will now have a \$35 per visit copayment for rehabilitation therapy services rendered in a home setting (see page 28).
