

## SUGGESTIONS ON WHEN TO SHOW THE PROGRAM EDUCATIONAL MEETING VIDEO

The 40 minute Program Educational Meeting Video is an excellent summary of the Federal Long Term Care Insurance Program. It gives your employees and their families the information they need to decide whether the Federal Long Term Care Insurance Program meets their needs, and if so, how to select the appropriate plan.

*The Program Educational Meeting video is useful in the following types of situations:*

- Your agency/branch of the uniformed services has pockets of Federal Family members scattered in areas where on-site Program Educational Meetings are not conveniently located. Schedule a meeting with your employees/members, show the video, and your Account Manager will do a live Q & A by phone at the end of the meeting.
- The Program Educational Meetings at your agency generate additional interest and you get requests for more meetings during Open Season. Schedule a meeting with your employees/members and show the video.
- You have employees/members and/or their family members who cannot attend an on-site Program Educational Meeting during Open Season. The video is the best way to see the presentation.
- Your Human Resources staff wants to see the presentation (or view it again) to feel more comfortable with the information.
- New employees/members (hired during Open Season) want more information about the Federal Long Term Care Insurance Program as part of their benefits package.
- Your agency offers financial planning or retirement planning seminars to employees. This video may provide the information retirees need to make important financial decisions during Open Season.
- Your agency/branch of the uniformed services has an internal television channel. Schedule times to air the video or run it in a continuous loop.
