- Funding limitations.
- A redirection of resources due to unforeseen events.
- Statutory and external mandates requiring a change in focus.
- Unexpected requests received from stakeholders, such as the OPM Director and Congress.
- Changing technology.
- Changing outside threats to information technology security.
Office of Audits
The Office of Audits performs and oversees audits to promote the economical, efficient, and effective administration of OPM programs and operations. Key areas of emphasis are compliance and information technology (IT) audits of healthcare carriers participating in the Federal Employees Health Benefits Program (FEHBP) and other benefits programs, internal OPM operations, and statutorily mandated audits involving financial reporting and IT security. These audits help reduce waste, abuse, and mismanagement; identify misspent funds for recovery; and promote economy and efficiency throughout OPM.

Office of Evaluations
The Office of Evaluations conducts evaluations to provide OPM, Congress, and the public with timely, useful, and reliable information on significant issues. These evaluations focus on preventing fraud, waste, or abuse and promoting economy, efficiency, and effectiveness of OPM programs. To promote impact, the Office of Evaluations’ reports also present practical recommendations for improving program operations.

Office of Investigations
The Office of Investigations conducts criminal, civil, and administrative investigations of fraud, waste, abuse, and misconduct related to OPM programs and operations. It actively coordinates with the U.S. Department of Justice and other Federal, state, and local law enforcement authorities. Our investigations often lead to criminal convictions and/or civil monetary penalties.
Office of Legal & Legislative Affairs

The Office of Legal & Legislative Affairs provides independent legal advice and counsel to the Inspector General and OIG components on a wide range of issues, including statutes, regulations, legislation, procurements, contracts, appropriations, Freedom of Information Act requests, OIG responsibilities, and other authorities. The Office of Legal & Legislative Affairs also serves as the OIG’s liaison to Congress, the media, and members of the public.

Office of Management

The Office of Management provides administrative and management support to the OIG by providing information resource management; systems security and software development; and the coordination of budget, procurement, telecommunications, facilities, equipment, and human resources activities. The Office of Management also oversees the Administrations Sanctions Program, through which the OIG debars and suspends health care providers who commit one of 18 sanctionable offenses from participating in the FEHBP.
