1. Functional

In sections 1.1 Core Services and 1.2 Non-core Services, NBC has provided information on the solutions offered to customers for the following service components through IT systems and back-office support. Service components are self-contained business capabilities that support business processes and assist agencies to accomplish their missions and performance objectives.

For more information on service components, please refer to the Service Component Model version 2.

1.1 Core Services

| CORE SERV | VICES – PERSONNEL ACTION PROCESSING |
|---|--|
| Personnel | Action Processing - initiates, validates, approves, updates, and documents personnel actions and data. |
| | Click Here for NBC's Self Evaluation for Personnel Action Processing Target Requirements |
| 1.1.1 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. |
| or exceeding generating electronica most busin updates ar timeliness responsive specific pa product is ing generates | leral Personnel and Payroll System (FPPS) is a comprehensive personnel and payroll system, meeting ng all government requirements and federal payroll guidelines. FPPS is customer-driven, creating and the full life cycle of personnel and payroll transactions, enabling agencies to maintain records illy. Certain aspects of security can be controlled by the customer and are flexible enough to support ess processes. FPPS is a fully integrated user friendly, point and click screens, system for real-time and accuracy of agency personnel and payroll data. This integrated approach clearly enhances the and accuracy of agency personnel and pay actions. The system's table-driven features allow for eness and flexibility in implementing new programs, laws, and regulations; and for addressing client- y plans and processes. A major feature of FPPS that substantially improves the personnel and payroll its capability for users to process retroactive personnel and T&A actions. The system automatically corrections to intervening personnel transactions, as well as triggers automated retroactive pay ts for up to 26 pay periods. |

FPPS General Highlights

- Integrated personnel and payroll system. Clients using FPPS do not need a separate system for
 processing personnel actions. This is a significant improvement over older technology that required two
 separate systems with separate databases, along with the necessary reconciliation between the systems.
- Table-driven Order of Precedence
- User-friendly query software and DataMart
- Ticklers sent through a client's e-mail system

CORE SERVICES – PERSONNEL ACTION PROCESSING

| Personnel | Action Processing - initiates, validates, approves, updates, and documents personnel actions and data. |

| | elp desk support for end-users and employees ecure Data feeds for customer's down line operational systems |

CORE SERVICES - PAYROLL PROCESSING

Payroll Processing - captures, validates, and processes payroll and disbursement data for a given pay period by gathering data on employee time worked and leave taken, calculating gross pay and processing deductions and taxes to calculate net pay.

| | Click Here for NBC's Self Evaluation for Payroll Processing Target Requirements | |
|-------|--|--|
| 1.1.2 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. | |

NBC's Federal Personnel and Payroll System (FPPS) is a comprehensive personnel and payroll system, meeting or exceeding all government requirements and federal payroll guidelines. FPPS is customer-driven, creating and generating the full life cycle of personnel and payroll transactions, enabling agencies to maintain records electronically. Certain aspects of security can be controlled by the customer and are flexible enough to support most business processes. FPPS is a fully integrated user friendly, point and click screens, system for real-time updates and edits of employee personnel and payroll data. This integrated approach clearly enhances the timeliness and accuracy of agency personnel and pay actions. The system's table-driven features allow for responsiveness and flexibility in implementing new programs, laws, and regulations; and for addressing client-specific pay plans and processes. A major feature of FPPS that substantially improves the personnel and payroll product is its capability for users to process retroactive personnel and T&A actions. The system automatically generates corrections to intervening personnel transactions, as well as triggers automated retroactive pay adjustments for up to 26 pay periods.

Payroll Services are the foundation of our customer service approach. It includes the full range of activities necessary to provide accurate and timely pay, leave, deductions, benefits, and reports. Due to the integration in FPPS of personnel and payroll data, real-time updates of data occur for payroll processing. Our services include functions that other providers expect their customers to perform.

Pay Processing Highlights

- Pay processing, including all calculations of gross-to-net pay; processing of pay and leave adjustments; government additives; applying hourly, biweekly, and annual limitations; maintenance of data for current and future reporting; and production and distribution of reports
- Automatic deferral of payments that exceed the aggregate pay limitation, and automatic generation of those payments in the following year or upon the employee's separation
- Entitlements for items, such as uniform allowance, fringe benefits, recruitment and relocation incentives, and bonuses
- Entitlements and allowances for employees in foreign duty stations
- Prior pay period re-computations resulting from changes in T&A data, personnel actions, or retroactive regulatory changes. Changes within the last 26 pay periods are automated; older changes are calculated manually and then processed through FPPS as one-time adjustments.
- Computation and disbursement of back pay provisions of settlement cases, including payment and Form 1099 reporting of interest, as authorized
- Leave buy back related to periods of Office of Worker's Compensation Program (OWCP) are computed, collected, and the records adjusted accordingly
- Supplemental payments via a Pay Daily process
- Physician Comparability Allowance payments
- Administratively Uncontrollable Overtime payments
- Student Loan repayments as hiring incentives
- Automated processing of Transportation Pre-tax deductions and Fringe Benefits

Automated deceased employee beneficiary pay

CORE SERVICES - PAYROLL REPORTING

Payroll Reporting - reports on payroll and human resources information by pay period, by quarter, by calendar year, by fiscal year and as requested. These reports are a result of or integral to the payroll process.

| | Click Here for NBC's Self Evaluation for Payroll Reporting Target Requirements | |
|-------|--|--|
| 1.1.3 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. | |

NBC Supports its clients' reporting needs through the DataMart, a state-of-the-art, web-based Hyperion data warehouse environment with an easy-to-use query capability. It is a robust tool that provides end users the ability to query, analyze, chart, and report on data from FPPS. These capabilities allow for information to be calculated real-time, by pay period, by quarter, by calendar year, by fiscal year and as requested. Additional features include the use of Dashboards, providing enhanced interactive reporting, which is useful for management analysis and performance monitoring. Datamart provides access to a library of standard queries available to all users that can be executed as is or used as a baseline for customized queries. Clients can also develop their own queries.

DataMart Highlights

- FPPS Datamart is a state-of-the-art, web-based data warehouse environment using an Oracle database and modern analytical query tools
- Clients can access their data through DataMart using any query tool that is Open Data Base Connectivity (ODBC) compliant or can access an Oracle database

CORE SERVICES – PAYROLL REPORTING

| | porting - reports on payroll and human resources information by pay period, by quarter, by calendar cal year and as requested. These reports are a result of or integral to the payroll process. |
|---|---|

| | Electronic leave and extra hours requests and approvals |
| | Electronic certification |
| | Extensive on-line edits Default achedules for execution time processing |
| | Default schedules for exception time processing |
| | Extensive on-line reporting capability Audit trails and management controls |
| Quicktim | e Highlights |
| Quickiii | web-based time and attendance solution |
| | Menu driven, point and click user interface |
| | Employee data entry or traditional timekeeper data entry |
| | Employee data entry of traditional timesceper data entry Email notification |
| | Electronic leave and extra hours requests and approvals |
| | Electronic certification |
| | Default schedules for exception time processing |
| FPPS T& | A Highlights |
| | FPPS T&A Module provides for collection of leave and work hours, information on shift, overtime, and |
| | other premiums, exceptions to biweekly and hourly limits, project numbers, comprehensive editing at time |
| | of input, on-line help, and table look-ups. |
| | I Attendance (T&A) Processing |
| | Timesheet processing includes on-line storage of timesheet data, and an on-line audit trail of changes. |
| • | Continuous T&A editing once T&As (timesheets) have been submitted to FPPS, and proactive |
| i | interactions with timekeepers, personnel offices, and supervisors to resolve T&A errors before payroll |
| | calculation. An on-line error correction process used by the Payroll Office allows for cleaner T&A data to |
| | be sent to FPPS pay calculation. |
| | Automated leave processing of all regulatory leave types, including annual, sick, restored, military, leave |
| | under the Family and Medical Leave Act (FMLA), bone marrow/organ donations, administrative, and |
| | numerous agency-unique leave types. FPPS also supports credit hours, compensatory time, time-off |
| | awards, home leave, and shore leave. Leave processing includes applying accruals, maintaining |
| | balances, applying regulatory maximums, and reporting. |
| | Automated leave share and leave bank programs, including donations and receipts, accrual of special |
| | eave accounts per regulations, automated return of unused donations upon case closure |

Automated support for worker's compensation and continuation of pay cases with quarterly reporting

| CORE SERV | Core Services – Manager Self-Service | |
|--------------|--|--|
| Manager S | elf-service - allows managers to be self-sufficient in initiating actions or updating, retrieving, and | |
| analyzing e | mployee and organization information within their sphere of control as a manager or supervisor. | |
| , | | |
| | Click Here for NBC's Self Evaluation for Manager Self-Service Target Requirements | |
| 1.1.7 | Please describe the solution you provide to customers for this service component through IT | |
| | applications and/or back-office support. | |
| | | |
| | | |
| | may initiate personnel actions from their desktop using FPPS. The actions may be routed to any | |
| configuratio | on that a customer requires for approval and/or concurrence. Customers are also provided many value- | |
| added featu | ures that reduce a client's workload, such as an extensive system "tickler" capability for upcoming | |
| actions. | | |
| | | |

CORE SERVICES - EMPLOYEE SELF-SERVICE

Employee Self-service - allows employees to be self-sufficient in initiating actions or creating, updating, and retrieving information within their sphere of control as an employee.

| | Click Here for NBC's Self Evaluation for Employee Self-Service Target Requirements |
|-------|--|
| 1.1.8 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. |

The Federal Personnel and Payroll System (FPPS) provides data to Employee Express (EEX) updated nightly for employees to have accurate up-to-date data. When employees use the self-service options in EEX these updates are transmitted back to FPPS for processing.

Employees receive an email notification at their work email address identifying and describing the documents added to your eOPF and any self-service changes initiated by the employee.

There are also data feeds to eOPF to include all new Federal Employee Health Benefits (FEHB) changes and/or Thrift Savings Plan (TSP) changes made in EEX. For any future FEHB and/or TSP changes you make in EEX, the data will automatically be fed to eOPF and employees are sent an email notification from eOPF identifying the addition of documents.

1.2 Non-core Services

| | Services – Staffing |
|-------------|--|
| position(s) | fulfills government-wide and agency-specific regulatory requirements to effect a hiring action for specific). Applies assessment tools and methods to evaluate candidates against requirements of the job for y are being considered. |
| | Click Here for NBC's Self Evaluation for Staffing Target Requirements |
| 1.2.1 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. |
| Personnel | provides two solutions for Staffing which are integrated through our integration framework to our Federal and Payroll System allowing our customers to choose best of breed products. A Staffing provides: |
| • | Automatically generates vacancy announcements |
| • | Posts vacancy announcements on USAJOBS |
| • | Accepts applications via Internet or fax |
| • | Analyzes applicant competencies and qualifications |
| • | Rates and ranks job applicants |
| • | Covers all available hiring flexibilities |
| • | Produces and updates certificates |
| • | Notifies applicants |
| • | Manages applicant records |
| • | Meets all regulatory requirements and can be adapted for agency specific procedures |
| • | Securely and reliably hosted by OPM |
| Monster's | Hiring Management Suite provides: |
| • | Monster Hiring Management Enterprise |
| • | Monster Analytics |
| • | Monster Position Classification |
| • | Monster Onboarding |
| • | Integration through USAJOBS and vacancy uploads. |
| • | Subscription costs are based on the number of Fedscope FTE for your agency. |
| • | NBC has a contract directly with Monster Government Solutions (MGS) which allows all customers to |

NBC has a contract directly with Monster Government Solutions (MGS) which allows all customers to
participate in cumulative volume discounts

NON-CORE SERVICES – ENTRANCE ON DUTY

Entrance on Duty is the automated collection and distribution of initial employment and work Information for Federal employees and contractors. It includes notifications to relevant Federal staff, the exchange of data between pre-employment certification providers, and Communication around provisioning.

| 1.2.2 | Please describe the solution you provide to customers for this service component through IT |
|-------|---|
| | applications and/or back-office support. |

The NBC Entrance on duty System is a component of the Workforce Transformation and Tracking System/Entry On Duty System (WTTS/EODS). WTTS allows HR users to:

- Monitor hiring activity from end-to-end
- Assist in planning, reporting, and tracking of activities for prospective and actual hires
- Review and approve hiring documents and forms on-line
- Transmit new hire information from completed hiring documents and forms directly to FPPS
- Share new hire information in a timely manner with other organizational components
- Improve the overall quality of information captured, as the same data captured at point of entry is shared and re-used by other systems

EODS allows employees to:

- Provides secure system access for new hires to complete on-line forms
- Forms are pre-populated with information captured by automated recruitment system during the selection process
- Information can be fed to eOPF
- Completed forms can be automatically submitted to the HR office

NON-CORE SERVICES - RECRUITING

Recruiting - allows execution of staff acquisition by engaging in marketing, advertising, personal contact, and other outreach activity aimed at building a pool of quality candidates that have potential for meeting the human capital needs of the agency. Recruiting may be aimed at a specific job or it may be more broadly aimed at general agency needs.

| Click Here for NBC's Self Evaluation for Recruiting Target Requirements | | |
|---|--|--|
| 1.2.3 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. | |
| The NBC re | The NBC recruiting component leverages staffing solutions from USA Staffing and Monster and works with OPM's | |
| government consolidated website in recruiting, USA jobs. Both of the staffing solutions are interfaced with USA | | |
| | ta collection and recruiting on behalf of our customers. The Customer Agency is responsible to perform | |
| their own re | ecruitment and any offerings within the shared servicing do not limit or restrict agency recruiting activity. | |

NON-CORE SERVICES - SEPARATION MANAGEMENT

Separation Management is the automated collection and distribution of employee information pertaining to their separation. It includes notifications to relevant Federal staff, the exchange of data between agencies, their SSC/payroll providers, and between SSCs/payroll providers and OPM, the transfer of knowledge from a separating employee to an agency, and the exit processing which includes collecting Government resources from a separating employee.

| 1.2.4 | Please describe the solution you provide to customers for this service component through IT |
|-------|---|
| | applications and/or back-office support. |
| | |

NON-CORE SERVICES - SEPARATION MANAGEMENT

Separation Management is the automated collection and distribution of employee information pertaining to their separation. It includes notifications to relevant Federal staff, the exchange of data between agencies, their SSC/payroll providers, and between SSCs/payroll providers and OPM, the transfer of knowledge from a separating employee to an agency, and the exit processing which includes collecting Government resources from a separating employee.

| 1.2.4 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. |
|--|--|
| Off-boarding and Separation Management is a future component planned for the WTTS application. | |

NON-CORE SERVICES - COMPETENCY MANAGEMENT

Competency Management supports the building of competency libraries, competency frameworks that help define and manage proficiency, and competency processes that support the development, maintenance, and use of competencies across the Federal Government.

| | Click Here for NBC's Self Evaluation for Competency Management Target Requirements |
|-------|--|
| 1.2.5 | Please describe the solution you provide to customers for this service component through IT applications and/or back-office support. |

The Performance Management Module (PMM) is a component of the NBC-hosted Talent Management System (TMS), an integrated learning management and performance management system based on the industry leading SAP/Plateau/Success Factors software. PMM allows for libraries of competencies to be added and linked to performance and training plans resulting in active employee self service and competency management. An employee or manager is able to identify and select courses based on the employees learning development plan. Both the Performance Management Module (PMM) Module and the Learning Management Module (LMM) can be purchased separately or as a whole system.

| | NON-CORE S | Services – Performance Management |
|--|------------|---|
| implementation, and evaluation | | e Management - provides consultative support to agencies on the design, development, tion, and evaluation of performance management programs. May also provide support to managers isors on individual performance management processes and issues. |

items that represent the required learning a particular user must complete. Curricula can be created to reflect the total training requirements for a job position, a specialty certification, or any other type of requirement. Curricula are a powerful building block of managing your learning activities. The Curricula section allows you to create a curriculum and to review and update existing curriculum information, including the curriculum's related items, documents, job locations, job positions, and sub-curricula. Curricula allow you to group any number of learning requirements together into one unit and track the completion of that required learning

| | Services – Career Development Planning |
|----------------|--|
| on agency | velopment Planning - supports the identification of development opportunities and learning needs based needs, individual goals and needs, and/or gaps in competencies, knowledge, skills and abilities. This the individual level or at a department or program level. |
