

OWN YOUR CAREER IN CYBERSECURITY

ORIENTATION FOR NEW HIRES

THURSDAY MAY 23, 2019 FROM 9:00 AM – 2:30 PM

Overview: The Federal Chief Information Officers Council and the U.S. Office of Personnel Management are sponsoring the Fourth Cybersecurity Orientation for new cybersecurity professionals. Leading Cybersecurity Professionals in the Federal Government will share personal experiences and discuss their career paths. Participants will obtain an understanding of their role in supporting the Federal Government's cybersecurity mission. The orientation will include a keynote speaker, remarks by Senior Government leaders, a panel discussion on the top five Cybersecurity Work Roles, demos of cybersecurity innovations, and a Cyber Knowledge Lab. Participants will have the opportunity to attend mentoring sessions, presentations on educational tools/resources, gain knowledge of career websites, and network with other cybersecurity professionals from across the government.

Who Should Attend? This event is free and open to Federal employees and Federal contract employees in grades GS-5 through GS-15 (or equivalent) with five years or less of Federal cybersecurity work experience.

Location: Department of Transportation, 1200 New Jersey Ave, SE, Washington, DC 20590

RSVP Details: Event capacity is limited to 275 participants. See below for registration information.

KEYNOTE SPEAKER: CHRIS LYNCH | DIRECTOR U.S. DEFENSE DIGITAL SERVICE

"HACKING THE PENTAGON"

Chris Lynch is proud to cofound the Defense Digital Service after serving as part of the United States Digital Service (USDS) team at the White House. At USDS, Chris has focused on revamping the technology, processes, and policies around the delivery of benefits to the men and women serving our country. Chris is a serial entrepreneur with startups ranging from consumer to enterprise venture-backed solutions.

He has built companies focused on personal health, big data analytics for enterprise, consumer gifting, gaming platforms, customer insights, and engineering processes and services. Previously Chris was VP of Engineering for Daptiv (acquired by ChangePoint). In addition to Microsoft where Lynch served as a Development Manager in charge of the architecture, engineering, and operation of a global CRM application. Lynch is also a hobbyist photographer, tech geek, music lover, consumer of all things media, triathlete, and Iron man.
